NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of The Great Lakes Construction Co. and Related Companies (the Company) 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, regardless of age or years of service, except for non-resident aliens, leased employees, college interns, and employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Committee oversees governance of the Plan. The Plan's 401(k) Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Contributions

Each year, participants may make voluntary pre-tax and Roth contributions up to 100% of their annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company may, at its discretion, make matching contributions. Matching contributions equal to 50% up to a maximum of 4% of the compensation that a participant contributes to the Plan were made for the year ended December 31, 2016. The Plan also provides for a safe-harbor profit sharing contribution equal to 3% of eligible participants' compensation, as defined. The safe-harbor profit sharing contribution amounted to approximately \$350,000 during 2016. The Company may make an additional discretionary profit sharing contribution to the Plan at the discretion of the Company's Board of Directors. There were no additional discretionary profit sharing contributions authorized for 2016. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contribution, rollover contributions, allocations of the Company's contributions, and Plan earnings or losses as defined by the Plan agreement. Allocations of the discretionary profit sharing contributions are provided to all eligible participants who have completed one hour of service in the Plan year, are based on participants' compensation, as defined, for the Plan year relating to the contribution, and are made at the end of the Plan year. Plan earnings or losses are allocated daily based on each participant's account balance. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions and all Company contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account or annual installments over a future period. Annual installments are available to participants with account balances greater than \$5,000. If the participant's account balance is less than \$5,000, the plan administrator directs the trustees to make a lump-sum distribution. Distributions of a participant's 401(k) account balance may be authorized at any time by the plan administrator under certain hardship conditions.

Suspense Account

Company contributions into participant accounts that are subsequently determined to be in excess of allowable IRS limits are transferred into a suspense account and can be used to reduce future Company contributions. At December 31, 2016 and 2015, the suspense account totaled \$188 and \$21,209, respectively. During 2016, \$11,182 was transferred into the suspense account and \$32,203 was used to reduce Company contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value as reported by Prudential Bank and Trust, F.S.B. (Prudential) and Prudential Retirement Insurance and Annuity Company (Prudential Ret) as of December 31, 2015, and John Hancock Trust Company LLC (John Hancock) as of December 31, 2016, the trustees of the Plan (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Assets of the Plan are held in separate accounts of a trust administered by Prudential and Prudential Ret as of December 31, 2015, representing investments in pooled separate accounts, a guaranteed investment contract, and self-directed brokerage accounts. Assets of the Plan as of December 31, 2016, are held in separate accounts of a trust administered by John Hancock, representing investments in mutual funds, a stable value collective trust fund, and self-directed brokerage accounts.

Investments of participant's contributions and the Company's contributions into these investments are at the direction of each participant.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2016 and 2015, and for the year ended December 31, 2016, the Plan did not have a liability for unrecognized tax benefits.

Subsequent Events

Plan management has evaluated subsequent events through September 8, 2017, the date the financial statements were available to be issued.

NOTES TO THE FINANCIAL STATEMENTS

3. INFORMATION CERTIFIED BY THE TRUSTEES

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditors' examination with regard to statements or information prepared and certified by Prudential, Prudential Ret, and John Hancock, the trustees.

John Hancock has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2016, and for the period from October 1, 2016, through December 31, 2016.

Prudential and Prudential Ret have certified as to the completeness and accuracy of the investments they hold, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2015, and for the period from January 1, 2016, through September 30, 2016.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level 2 Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 Inputs are significant and unobservable (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Valued at the daily net asset value (NAV) of the account which primarily includes a mix of mutual funds, common trust funds and managed accounts. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the account.

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (Continued)

Self-directed brokerage: Valued at the appraised values of the underlying individual assets within the brokerage accounts. The brokerage accounts primarily include individual equities which are traded on an active market.

Stable value collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust fund, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner, otherwise redemptions are allowable daily with no notice.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value at December 31, 2016, are comprised of Level 1 mutual funds and self-directed brokerage accounts totaling \$21,163,208 and \$137,439, respectively, as well as a stable value collective trust fund measured at NAV as a practical expedient which totaled \$933,566.

Assets measured at fair value at December 31, 2015, are comprised of Level 1 self-directed brokerage accounts totaling \$6,065 and pooled separate accounts measured at NAV as a practical expedient which totaled \$16,770,964.

The Plan did not hold any Level 3 assets during the year.

5. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive investment contract with Prudential Ret. Prudential Ret maintained the contributions in a general account for the year ended December 31, 2015, and for the period from January 1, 2016, through September 30, 2016. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

NOTES TO THE FINANCIAL STATEMENTS

5. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The guaranteed investment contract met the fully benefit-responsive criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under terms of the Plan. Contract value, as reported to the Plan by Prudential Ret for the year ended December 31, 2015, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 0%. Such interest rates were reviewed on a semi-annual basis for resetting.

6. INSURANCE CONTRACTS

Through September 30, 2016, and at the option of the participant and upon written instructions from the plan administrator, the trustees could apply a portion of the participant's account toward the purchase of a life insurance contract or contracts, including a term life insurance contract or contracts, on the life of such participant from a legal reserve life insurance company. In October 2016, the Plan was amended and restated to no longer allow the purchase of new life insurance contracts. All such contracts could designate the trustees as the sole owner with exclusive power to exercise all rights, privileges, options and elections granted or permitted thereunder; however, the exercise of such power by the trustees shall be subject to the right of the plan administrator to direct the trustees with respect thereto or to require the trustees to obtain its approval before exercising any such power.

Subsequently, life insurance contracts may be increased, decreased, or discontinued by the participant in accordance with the Plan document. Amounts needed to purchase life insurance contracts are charged against the participant's separate account. At all times, each contract upon the life of any participant shall be held by the trustees of the Plan separate and apart from the Plan.

These contracts qualify as allocated funding arrangements and therefore, the value of such contracts are not included in the assets of the Plan or considered in determining the value of a participant's separate account. In the event that a life insurance contract is discontinued, the cash surrender value, if any, of such contract is added back to the Plan when received and is credited to the participant's separate account. Approximately \$4,200 of insurance premiums were paid by the Plan and no life insurance contracts were discontinued for the year ended December 31, 2016.

NOTES TO THE FINANCIAL STATEMENTS

7. PARTY-IN-INTEREST TRANSACTIONS

Effective October 1, 2016, certain Plan investments are managed by John Hancock. John Hancock is a trustee as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions.

Effective October 17, 2016, John Hancock provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and John Hancock. John Hancock receives revenue from mutual fund and collective trust fund service providers for services John Hancock provides to the funds. This revenue is used to offset certain amounts owed to John Hancock for its administrative services to the Plan.

If the revenue received by John Hancock from such mutual fund or collective trust fund service providers exceeds the amount owed under the MSA, John Hancock remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2016, there was approximately \$1,500 of excess amounts. The Plan or Company may make a payment to John Hancock for administrative expenses not covered by revenue sharing.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. TAX STATUS

The Plan has adopted a prototype plan provided by John Hancock. John Hancock has received an opinion letter dated May 18, 2015, from the IRS stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
