The following description of the T. Marzetti Company Hourly Employee 401(k) Plan for the Indianola Plant ("Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan covering all employees of the T. Marzetti Company ("Company") who are employed at the Indianola plant and represented by the International Brotherhood of Teamsters, Chauffers, Warehousemen and Helpers of America, Local Union No. 284 ("Union"), and who have one year of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants may also contribute amounts representing rollovers from other qualified plans.

The Company currently matches one hundred percent of participant contributions up to seventy cents per hour worked. The matching contribution is limited to 4% of a participant's earnings per calendar year. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant investment account options - Participants may direct contributions to their accounts among a variety of mutual funds and a common/collective trust. The investment options currently include various stock, fixed-income, stable value, and target date funds, and offer a range of risk and return characteristics.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution of their accounts is based upon years of service and is subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	10%
2	30%
3	70%
4	85%
5	100%

Payment of benefits - On termination of service as defined in the plan document, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, or a single sum payment equal to a portion of the participant's vested interest in his or her account. Participants may also withdraw amounts under certain defined conditions.

Forfeited accounts – At December 31, 2015, forfeited nonvested accounts totaled \$54. Also, for the year ended December 31, 2016, employer contributions were reduced by \$51 from forfeited non-vested accounts. There were no forfeited nonvested accounts at December 31, 2016.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Investment related expenses are included in the net appreciation (depreciation) in fair value of investments.

(3) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank ("Schwab"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(4) Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value common/collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,295,166	\$ -	\$ -	\$ 2,295,166
Investments measured at NAV ^{(a)(D)}				653,684
Investments at fair value	<u>\$ 2,295,166</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,948,850</u>

Investments at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,879,427	\$ -	\$ -	\$ 1,879,427
Investments measured at NAV ^{(a)(D)}				737,379
Investments at fair value	<u>\$ 1,879,427</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,616,806</u>

(4) Fair value measurements (continued)

- (a) In accordance with Subtopic 820-10, the stable value common/collective trust fund that was measured at net asset value per share has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.
- (b) The stable value common/collective trust fund listed above is redeemed on a daily basis and does not have any redemption restrictions. Additionally, there are no unfunded commitments.

Transfers between levels: For years ended December 31, 2016 and, 2015 there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

(5) Related party and party-in-interest transactions

Schwab has been contracted to provide certain administrative services to the Plan. Schwab also receives revenue from various Plan investments. This revenue is used to offset certain amounts owed to Schwab for the administrative services it provides to the Plan. If the revenue received by Schwab exceeds the amount owed, Schwab remits the excess back to the Plan. Such amounts are included in investment income. If the revenue received by Schwab is less than the amount owed, the Plan or the Company will make a payment to Schwab for administrative expenses not covered by the revenue sharing. There were no excess administrative expenses paid by the Plan during the years ended December 31, 2016 and 2015.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

(7) Tax status

The Internal Revenue Service ("IRS") has determined that the volume submitter profit sharing plan with CODA is designed in accordance with applicable sections of the IRC and informed Thompson Reuters (Tax & Accounting) Services, Inc. of such in a letter dated March 31, 2014. The plan administrator has adopted the volume submitter profit sharing plan with CODA and believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

NOTES TO FINANCIAL STATEMENTS

(7) Tax status (continued)

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Subsequent events

The Plan has evaluated subsequent events through September 6, 2017, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
