EMPLOYEES 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

Note 1 - Plan Description:

The Chestnut Ridge Transportation, Inc. Employees 401(k) Profit Sharing Plan (the "Plan") is the Retirement Plan for Chestnut Ridge Transportation, Inc. The following description provides only general information. The Plan Document should be consulted for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with a 401(k) feature covering all employees of the Company. Employees can enter the Plan and commence elective deferrals on the first day of the month following the date of being hired. Participants who are at least twenty-one years old are eligible to receive discretionary matching and profit sharing contributions on the first day of the month following their completion of one year of service (consisting of 850 hours of service within one employment year) if they are still employed by the Company at year end. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan Administrator oversees governance of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Each year, participants may contribute up to 90% of eligible pretax compensation up to the maximum allowed by law. Participants are permitted to make contributions as "Roth" contributions. Participants may also contribute distributions from other qualified plans (rollovers). Each year the Company may elect to make a matching and/or profit sharing contribution to the Plan at the discretion of the Company's Board of Directors and subject to limitation by law. Participants must be employed at year end to participate in Company contributions. For 2016, the Board of Directors elected to match 25% of each employee's annual contribution, up to a maximum of 2.5% of eligible compensation. All contributions are participant directed.

Participant Accounts - Each participant's account is credited with the participant's contributions, the Company's matching and allocations of discretionary contributions and Plan earnings and charged with the participant's withdrawals or distributions and an allocation of administrative expenses. Allocations are based on participant account balances as defined in the Plan Document. The benefit to which a participant is entitled is the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants' vesting of Company contributions plus actual earnings thereon is based on years of service. A participant vests 20% after two years of credited service and each year thereafter, until 100% vested after six years of credited service. Upon death, disability, or retirement, as defined by the Plan Documents, a participant will become fully vested.

Participants' Notes Receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans require repayment within no more than 5 years, or up to 30 years if for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest must be paid ratably through payroll deductions or otherwise in at least equal quarterly installments.

Forfeited Accounts - The Plan provides for forfeitures to reduce employer matching contributions. For the year ended December 31, 2016, $1,342 of forfeitures was used to reduce employer matching contributions. There was $369 of forfeitures during the year ended December 31, 2016. As of December 31, 2016, forfeitures available to reduce future employer contributions totaled $379.

Note 1 - Plan Description (Continued):

Payment of Benefits - Upon termination of service due to disability or retirement, a participant, or his or her beneficiary, may elect to receive one of the following forms of payment equal to the value of the participant's vested interest in his or her account: 1) Lump sum; 2) Life annuity; 3) Survivor annuity; or 4) partial distribution. In those cases where the vested balance, excluding rollovers, is less than $5,000, a participant will receive the value of the vested interest as a lump sum distribution. Death benefits paid to a beneficiary will be paid in a lump sum distribution.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Accounting Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Shares/units of the registered investment companies and common collective trusts are valued at quoted market prices, which represent the net asset value of shares/units held by the Plan at year-end. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. See Note 5 for discussion of fair value measurements.

Participants' Notes Receivable - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Expenses - Professional fees and other administrative expenses are paid by the Plan, unless paid by the Company.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events – Plan management evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure. The accompanying financial statements consider events through September 29, 2017, the date the financial statements were available to be issued.

Note 3 - Party-In-Interest Transactions:

As of December 31, 2015, Plan assets include funds held in common collective trusts managed by State Street Bank and Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest. As of December 31, 2016, there were no transactions that qualify as party-in-interest.

Note 4 - Information Prepared and Certified by Trustee:

On July 1, 2016 State Street Bank and Trust resigned as trustee for the Plan. The trusteeship of the Plan transferred to Reliance Trust Company. State Street Bank and Trust remained as the sub-custodian and no assets were affected.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Reliance Trust Company, the trustee as of and for the year ended December 31, 2016 and State Street Bank and Trust Company as of December 31, 2015.

	2016	2015
Fair Value of Interest in:		
Common Collective Trusts	$ 1,284,464	$ 1,179,962
Registered Investment Companies	1,963,849	1,775,840
	$ 3,248,313	$ 2,955,802

Note 5 - Fair Value Measurements:

FASB ASC 820, *Fair Value Measurement,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements - The fair value of shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Level 2 Fair Value Measurements - The fair value of the common collective trusts are based on observable inputs including quoted net asset values for similar assets or liabilities in active or non-active markets.

Note 5 - Fair Value Measurements (Continued):

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2016:			
Common Collective Trusts	$ 1,284,464	$ -	$ 1,284,464
Registered Investment Companies	1,963,849	1,963,849	-
Total	$ 3,248,313	$ 1,963,849	$ 1,284,464
December 31, 2015:			
Common Collective Trusts	$ 1,179,962	$ -	$ 1,179,962
Registered Investment Companies	1,775,840	1,775,840	-
Total	$ 2,955,802	$ 1,775,840	$ 1,179,962

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2016 and 2015, are reported in net appreciation in fair value of investments. For the year ended December 31, 2016, there were no significant transfers between Levels 1 and 2.

Note 6 -Tax Status:

The Plan was designed in accordance with a prototype plan developed by the Plan trust. The Internal Revenue Service has determined by a letter dated March 31, 2008, that the prototype plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the related trust was tax exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 7 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan Document, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. In the case of a partial termination, only those who separate from service will become fully vested.

Note 8 - Current Vulnerability Due to Concentrations of Credit Risk:

The Plan may invest in various types of investment securities. Investment securities are exposed to various market risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.
