AAA REFRIGERATION SERVICE, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of AAA Refrigeration Service, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of AAA Refrigeration Service, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee is eligible to participate upon completion of one Year of Service and attaining age 20. An employee is credited with a Year of Service at the end of the twelve month period beginning on his date of hire if he has been credited with at least 1,000 Hours of Service during such period. If the employee has not been credited with 1,000 Hours of Service by the end of such period, he will have completed a Year of Service at the end of any following twelve month period, based on his date of hire and anniversaries thereof, during which he was credited with 1,000 Hours of Service.

Participant Contributions

Participants of the Plan can contribute on a pre-tax basis a percentage of their compensation up to the maximum amount allowed under the Internal Revenue Code ("IRC"), $17,500 in 2016. Participants that are at least age 50 or they attain age 50 before the end of a calendar year, then they may elect to defer additional amounts (called "catch-up contributions") to the plan for that year. The additional amounts may be deferred regardless of any other limitations on the amount that the participants may defer to the plan. The maximum "catch-up contribution" for 2016 is $5,500.

Employer Contributions

The employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participants' elective deferrals each Plan Year. The employer may also make a discretionary nonelective contribution to the Plan. The discretionary contribution in 2016 amounted to $5,030.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the employer discretionary contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their employee contributions and share of employer contributions into investment options offered by the Plan.

1. Description of Plan *(continued)*

Vesting
Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in employer contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account. Generally, the term of your loan may not exceed five years. However, if the loan is for the purchase of the participant's principal residence, the Plan may permit a longer repayment term. The loan must be repaid through payroll deduction.

Benefit Distributions
Benefit distributions are based on the vested interest of the participants' account upon retirement (age 65), death, disability, or termination of employment. The Plan also allows for hardship distributions, subject to certain plan provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition
The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income which is reinvested. Realized gains and losses on investments are recognized upon the sale of the related investments, and unrealized appreciation or depreciation is recognized at year end when the carrying values of the related investments are adjusted to their estimated fair value.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Accounting for Uncertainty in Income Taxes
The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition. The Plan is no longer subject to audits by the applicable taxing jurisdictions for tax periods prior to 2013.

Subsequent Event Evaluation by Management
Management has evaluated events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is October 4, 2017.

3. Information Certified (Unaudited)

DWS Trust Company, the former trustee, has certified to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

4. Application of New Accounting Standards

For the year ended December 31, 2016, the Plan implemented the following Accounting Standards Update (ASU):

ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Topic 820).* The amendments in the ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The Plan does not have an investment measured using the net asset value per share practical expedient. Therefore, the adoption of the ASU did not have an effect on the Plan's financial statements.

ASU 2015-10, *Technical Corrections and Improvements.* The amendments in this ASU cover a wide range of Topics in the Codification. The reason for each amendment is provided before each amendment for clarity and ease of understanding. The amendments generally fall into one of the types of amendments listed below.

4. Application of New Accounting Standards *(continued)*

a. *Amendments Related to Differences between Original Guidance and the Codification*. These amendments arose because of differences between original guidance (for example, FASB Statements, EITF Issues, and so forth) and the Codification. These amendments principally carry forward pre-Codification guidance or subsequent amendments into the Codification. Many times, either the writing style or phrasing of the original guidance did not directly translate into the Codification format and style. As a result, the meaning of the guidance might have been unintentionally altered. Alternatively, amendments in this section may relate to guidance that was codified without some text, references, or phrasing that, upon review, was deemed important to the guidance.

b. *Guidance Clarification and Reference Corrections.* These amendments provide clarification through updating wording, correcting references, or a combination of both. In most cases, the feedback suggested that, without these enhancements, guidance may be misapplied or misinterpreted.

c. *Simplification*. These amendments streamline or simplify the Codification through minor structural changes to headings or minor editing of text to improve the usefulness and understandability of the Codification.

d. *Minor Improvements*. These amendments improve the guidance and are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities.

Under the amendment, using Net Asset Value (NAV) as a practical expedient should only apply when the investment does not have a readily determinable value and the investment is an investment company within the scope of ASU 2013-08, and it is probable that the Plan will sell the investment at NAV. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted.

The Plan does not have an investment measured using the net asset value per share as a practical expedient. Therefore, the adoption of the ASU 2015-10, did not have an effect on the Plan's financial statements.

ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965).* (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. The ASU is effective for fiscal years beginning after December 15, 2015.

4. Application of New Accounting Standards *(continued)*

Part I, *Fully Benefit-Responsive Investment Contracts (FBRIC)*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts (FBRIC) and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. ASU 2015-12 also clarifies that indirect investments in FBRICs through investment companies (e.g., stable value, CCTs) are not in the scope of the FBRIC guidance: (a) Plans should report these investments at fair value. (b) These funds typically qualify for measuring fair value using the NAV practical expedient. (c) These funds calculate NAV per share (or its equivalent) in a manner consistent with the measurement principles of ASC 946. (d) As required by ASC 946, the NAV calculated by the fund is based on "net assets" which includes FBRICs at contract value. This NAV represents the plan's fair value since this is the NAV at which the plan transacts with the fund. The amount previously presented as contract value is now presented as fair value. The Plan retroactively adopted Part I, and as a result of the adoption, the Plan eliminates the reconciliation of the net asset benefits from fair value to contract value.

Part II, *Plan Investment Disclosures.* Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The Plan retroactively adopted Part II and as a result eliminated the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. The Plan also eliminated the disaggregation of investments by nature, characteristics and risks as a result of adoption of Part II of the ASU 2015-12.

Part III, *Measurement Date Practical Expedient.* The amendments in Part III of this Update provide a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. Part III did not have an effect in the Plan.

5. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments and Fair Value Measurements *(continued)*

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund (CCT) is valued at the net asset value (NAV) of units of the CCT. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV of the CCT is based on the CCT's underlying investment assets. The Plan's CCT is a stable value fund that holds guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs), which are fully benefit-responsive contracts. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like- quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments and Fair Value Measurements *(continued)*

The Plan's investments at December 31, 2016 and 2015 are as follows:

December 31, 2016			
	Level 1	Level 2	Total
Mutual funds	$ 2,640,021	$ -	$ 2,640,021
Common collective trust	-	1,148,496	1,148,496
	$ 2,640,021	$ 1,148,496	$ 3,788,517

	Level 1	Level 2	Total
Mutual funds	$ 3,532,022	$ -	$ 3,532,022
Common collective trust	-	141,424	141,424
	$ 3,532,022	$ 141,424	$ 3,673,446

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Company believes that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Party-in-Interest

The Plan is managed by ADP, Inc., the Plan's record keeper. Reliance Trust Company is the Plan's trustee and custodian of funds. Accordingly, these transactions qualify as party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

AAA REFRIGERATION SERVICE, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of AAA Refrigeration Service, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of AAA Refrigeration Service, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee is eligible to participate upon completion of one Year of Service and attaining age 20. An employee is credited with a Year of Service at the end of the twelve month period beginning on his date of hire if he has been credited with at least 1,000 Hours of Service during such period. If the employee has not been credited with 1,000 Hours of Service by the end of such period, he will have completed a Year of Service at the end of any following twelve month period, based on his date of hire and anniversaries thereof, during which he was credited with 1,000 Hours of Service.

Participant Contributions

Participants of the Plan can contribute on a pre-tax basis a percentage of their compensation up to the maximum amount allowed under the Internal Revenue Code ("IRC"), $17,500 in 2016. Participants that are at least age 50 or they attain age 50 before the end of a calendar year, then they may elect to defer additional amounts (called "catch-up contributions") to the plan for that year. The additional amounts may be deferred regardless of any other limitations on the amount that the participants may defer to the plan. The maximum "catch-up contribution" for 2016 is $5,500.

Employer Contributions

The employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participants' elective deferrals each Plan Year. The employer may also make a discretionary nonelective contribution to the Plan. The discretionary contribution in 2016 amounted to $5,030.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the employer discretionary contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their employee contributions and share of employer contributions into investment options offered by the Plan.

1. Description of Plan *(continued)*

Vesting
Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in employer contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account. Generally, the term of your loan may not exceed five years. However, if the loan is for the purchase of the participant's principal residence, the Plan may permit a longer repayment term. The loan must be repaid through payroll deduction.

Benefit Distributions
Benefit distributions are based on the vested interest of the participants' account upon retirement (age 65), death, disability, or termination of employment. The Plan also allows for hardship distributions, subject to certain plan provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition
The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income which is reinvested. Realized gains and losses on investments are recognized upon the sale of the related investments, and unrealized appreciation or depreciation is recognized at year end when the carrying values of the related investments are adjusted to their estimated fair value.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Accounting for Uncertainty in Income Taxes
The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition. The Plan is no longer subject to audits by the applicable taxing jurisdictions for tax periods prior to 2013.

Subsequent Event Evaluation by Management
Management has evaluated events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is October 4, 2017.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the new trustee has certified to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016, the supplemental Schedule H, Part, IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 and the

related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016. DWS Trust Company, the former trustee, has certified to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

4. Application of New Accounting Standards

For the year ended December 31, 2016, the Plan implemented the following Accounting Standards Update (ASU):

ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Topic 820).* The amendments in the ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The Plan does not have an investment measured using the net asset value per share practical expedient. Therefore, the adoption of the ASU did not have an effect on the Plan's financial statements.

ASU 2015-10, *Technical Corrections and Improvements.* The amendments in this ASU cover a wide range of Topics in the Codification. The reason for each amendment is provided before each amendment for clarity and ease of understanding. The amendments generally fall into one of the types of amendments listed below.

4. Application of New Accounting Standards *(continued)*

a. *Amendments Related to Differences between Original Guidance and the Codification*. These amendments arose because of differences between original guidance (for example, FASB Statements, EITF Issues, and so forth) and the Codification. These amendments principally carry forward pre-Codification guidance or subsequent amendments into the Codification. Many times, either the writing style or phrasing of the original guidance did not directly translate into the Codification format and style. As a result, the meaning of the guidance might have been unintentionally altered. Alternatively, amendments in this section may relate to guidance that was codified without some text, references, or phrasing that, upon review, was deemed important to the guidance.

b. *Guidance Clarification and Reference Corrections.* These amendments provide clarification through updating wording, correcting references, or a combination of both. In most cases, the feedback suggested that, without these enhancements, guidance may be misapplied or misinterpreted.

c. *Simplification*. These amendments streamline or simplify the Codification through minor structural changes to headings or minor editing of text to improve the usefulness and understandability of the Codification.

d. *Minor Improvements*. These amendments improve the guidance and are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities.

Under the amendment, using Net Asset Value (NAV) as a practical expedient should only apply when the investment does not have a readily determinable value and the investment is an investment company within the scope of ASU 2013-08, and it is probable that the Plan will sell the investment at NAV. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted.

The Plan does not have an investment measured using the net asset value per share as a practical expedient. Therefore, the adoption of the ASU 2015-10, did not have an effect on the Plan's financial statements.

ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965).* (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. The ASU is effective for fiscal years beginning after December 15, 2015.

4. Application of New Accounting Standards *(continued)*

Part I, *Fully Benefit-Responsive Investment Contracts (FBRIC)*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts (FBRIC) and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. ASU 2015-12 also clarifies that indirect investments in FBRICs through investment companies (e.g., stable value, CCTs) are not in the scope of the FBRIC guidance: (a) Plans should report these investments at fair value. (b) These funds typically qualify for measuring fair value using the NAV practical expedient. (c) These funds calculate NAV per share (or its equivalent) in a manner consistent with the measurement principles of ASC 946. (d) As required by ASC 946, the NAV calculated by the fund is based on "net assets" which includes FBRICs at contract value. This NAV represents the plan's fair value since this is the NAV at which the plan transacts with the fund. The amount previously presented as contract value is now presented as fair value. The Plan retroactively adopted Part I, and as a result of the adoption, the Plan eliminates the reconciliation of the net asset benefits from fair value to contract value.

Part II, *Plan Investment Disclosures.* Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The Plan retroactively adopted Part II and as a result eliminated the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. The Plan also eliminated the disaggregation of investments by nature, characteristics and risks as a result of adoption of Part II of the ASU 2015-12.

Part III, *Measurement Date Practical Expedient.* The amendments in Part III of this Update provide a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. Part III did not have an effect in the Plan.

5. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments and Fair Value Measurements *(continued)*

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund (CCT) is valued at the net asset value (NAV) of units of the CCT. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV of the CCT is based on the CCT's underlying investment assets. The Plan's CCT is a stable value fund that holds guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs), which are fully benefit-responsive contracts. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like- quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments and Fair Value Measurements *(continued)*

The Plan's investments at December 31, 2016 and 2015 are as follows:

December 31, 2016			
	Level 1	Level 2	Total
Mutual funds	$ 2,640,021	$ -	$ 2,640,021
Common collective trust	-	1,148,496	1,148,496
	$ 2,640,021	$ 1,148,496	$ 3,788,517

December 31, 2015			
	Level 1	Level 2	Total
Mutual funds	$ 3,532,022	$ -	$ 3,532,022
Common collective trust	-	141,424	141,424
	$ 3,532,022	$ 141,424	$ 3,673,446

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Company believes that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Party-in-Interest

The Plan is managed by ADP, Inc., the Plan's record keeper. Reliance Trust Company is the Plan's trustee and custodian of funds. Accordingly, these transactions qualify as party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
