Contributions: Any participant may elect to make voluntary contributions, through payroll deductions, to the Plan as deferred compensation contributions. Participants may contribute the maximum allowed by statute. The Plan provides for a matching contribution equal to a percentage of each participant's deferred compensation of the Plan year. For 2016 and 2015, Porter Bancorp, Inc. made matching contributions equal to 50% of the first 4% of the participant's contributions.

The Plan also provides for discretionary contributions allocated to the participants who are employees. Allocations are made to the participants based on their ratio of annual compensation as of the last day of the Plan year to the total of such compensation for all eligible participants. No discretionary contribution was made for the years ended December 31, 2016 or 2015.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals. Allocation of discretionary contribution is based on the participant's compensation. Company matching contributions are allocated based on a participant's voluntary contributions. A participant must be employed by the Company on December 31 of the plan year or have retired in the respective plan year to be eligible to receive an allocation of Company discretionary contributions.

Vesting: Vesting of a participant's interest is 100% in cases of normal retirement at age 65, death or total disability. If a participant's employment ceases for any other reason, the full value of his account is payable to him if he has completed two or more years of service. A participant who has completed less than two years of service is entitled to the full value of his interest less the value of the non-vested employer contributions. Effective July 1, 2015, participants are 100% vested after two years of service. Employer contributions forfeited as a result of termination of employment are used to fund future employer contributions.

Eligibility: Effective July 1, 2015, the Plan's definition of eligibility was amended. An employee shall first become an active participant on the earliest monthly date on the completion of 60 days of eligibility service before their entry date. For the period January 1, 2015 to June 30, 2015, employees became an active participant on the earliest monthly date on the completion of 90 days of eligibility service before their entry date. Eligibility service means an employee's period of service.

Payment of Benefits: Benefits are distributed to the participant or his beneficiary in an annuity or lump sum payment. If a participant's account balance exceeds \$5,000, no portion of the account balance will be distributed as a lump sum without the participant's consent.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Administrative Expenses: Certain expenses of maintaining the plan are paid directly by the Company and are excluded from these financial statements. Plan recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Forfeited Accounts: Total forfeitures for 2016 and 2015 were \$16,748 and \$22,393, respectively. In 2016 and 2015, forfeitures were used to reduce employer contributions. The balance of forfeitures available to offset future matching contributions as of December 31, 2016 and 2015 were \$2,589 and \$7,172, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures and actual results may differ from these estimates.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Excess Contributions: Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

Risks and Uncertainties: The Plan provides for various investment options in mutual funds and a guaranteed investment contract. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 3 – FAIR VALUE

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>2016</u>

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Reliance Trust Company, the custodian of the Plan. This information has not been audited by independent accountants.

NOTE 5 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC), and is exempt from federal income taxes. Although the Plan has been amended since the determination letter was received, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 6 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds fully benefit-responsive investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the Plan's fully benefit-responsive investment contracts, by general type, are presented below:

	<u>2016</u>	<u>2015</u>
Traditional investment contract	\$ 987,639	\$ 787,078

Traditional Guaranteed Investment Contract: The Plan holds a fully benefit-responsive investment contract with The Standard ("Issuer"). The Standard maintains the contributions in its general account. The Issuer guarantees the Plan a return of principal and interest under the terms of the contract. The interest crediting rate is updated quarterly based upon contract provisions, and it may not be less than 1%. The Standard's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The Plan's investment contracts specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the issuer may terminate the contract. Examples of circumstances which would allow the issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Each participant's proportionate interest shall become fully vested upon the termination or partial termination of the Plan or complete discontinuance of contributions.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds a guaranteed investment contract managed by The Standard Insurance Company. Transactions in the investment and the Plan's payment of administrative fees qualify as party-in-interest transactions. The Plan has paid \$60,511 and \$65,402 in 2016 and 2015, respectively, in administrative expenses to parties-in-interest. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.
