The Fremont Company 401(k) Plan Trust

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of The Fremont Company 401(k) Plan Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of The Fremont Company (the "Company") who are not represented by a collective bargaining unit (unless bargaining agreement provides for participation), and have completed one year of service. Participants may enter the Plan on January 1, April 1, July 1, and October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for discretionary matching employer contributions. During the year ended December 31, 2016, the Company elected to contribute 50 percent of an individual employee's compensation deferral contribution up to a maximum company contribution of 2 percent of the employee's annual compensation.

The Plan provides for discretionary profit-sharing contributions. The Company made no discretionary profit-sharing contributions during 2016.

Certain participant contributions and loan repayments in 2016 were remitted after the timeframe required by the Department of Labor. The Company remitted these contributions prior to December 31, 2016 and remitted the lost earnings to the Plan in August 2017.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately vested in all contributions and related earnings except for the Company's nonelective profit-sharing contribution. Vesting in the portion of their accounts related to the Company's nonelective profit-sharing contributions plus related earnings is based on years of credited service. Participants vest 100 percent in Company nonelective profit-sharing contributions after three years.

The Fremont Company 401(k) Plan Trust

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2016 and 2015, forfeited account balances totaled \$6,456 and \$4,790, respectively.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of an annuity, lump sum, or installment amounts equal to the vested balance of a participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Participant Notes Receivable - Participants may borrow from their accounts a maximum of the lesser of 50 percent of their account balance or \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Standard Insurance Company or its affiliates and Ameritas Life Insurance Corporation or its affiliates. Standard Insurance Company and Ameritas Life Insurance Corporation are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. In addition, the Company directly pays administrative expenses for the Plan.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The fully benefit-responsive unallocated contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The pooled separate accounts are valued at net asset value per share (NAV) or its equivalent of the funds, as a practical expedient for fair value, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

The Fremont Company 401(k) Plan Trust

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Substantially all administrative costs are paid by the Company. Any investment custodial fees charged are reported as a reduction of the net appreciation in value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 18, 2017, which is the date the financial statements were available to be issued.

New Accounting Pronouncements - During 2016, the Plan adopted Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments (such as pooled separate accounts) for which fair value is measured using the net asset value per share as a practical expedient. This standard was adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

The Fremont Company 401(k) Plan Trust

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Unaudited Information

In January 2016, the Plan changed trustees, from Ameritas Life Insurance Corporation (Ameritas) to Standard Insurance Company (Standard). Standard Insurance Company held the Plan's investments, as of December 31, 2016 and executed all investment transactions during the period under audit. Ameritas Life Insurance Corporation held the Plan's investments and participant notes receivable as of December 31, 2015 and executed all investment transactions during the period under audit. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by Ameritas and Standard.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Investment Contracts

The Plan offers participants the option to invest in the Standard Stable Asset A, a benefit-responsive investment contract with Standard Insurance Company (The Standard) at December 31, 2016. The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the crediting rate applicable for the quarter. The minimum interest rate for the contract will never be below 1 percent annually. When establishing interest credit rates for this product, The Standard considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Certain events may limit the ability of the Plan to transact at contract value. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The plan sponsor may choose to pay the market value adjustment directly, if applicable, so that participants' contract values are not affected. If the plan sponsor views the occurrence of any of these events as probable as of the measurement date, details about market value adjustments or other withdrawal restrictions can be obtained through the Plan's account manager.

The Fremont Company 401(k) Plan Trust

Notes to Financial Statements December 31, 2016 and 2015

Note 5 - Investment Contracts (Continued)

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Ameritas Life Insurance Corporation (Ameritas) at December 31, 2015. Ameritas maintained the contributions in a general account. The accounts were credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuers were contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

The contract meets the fully benefit-responsive investment criteria and, therefore, was reported at contract value. Contract value, as reported to the Plan by Ameritas, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate was based on a formula agreed upon with the issuers. Such interest rates were reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, was not probable of occurring.
