### **Other Matter**

The supplemental schedule of assets (held at end of year) as of December 31, 2016 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

### **Report on Form and Content in Compliance With DOL Rules and Regulations**

The form and content of the information included in the 2016 financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

### **Other Matter - 2015 Financial Statements**

The financial statements of Software Management Consultants, Incorporated Retirement Trust as of December 31, 2016 were audited by Vicenti, Lloyd & Stutzman, LLP who became part of CliftonLarsonAllen LLP as of June 1, 2017. As permitted by 219 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for the Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the State Street Bank and Trust Company, the trustee of the Plan as of December 31, 2015. Their report, dated September 12, 2016, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the insurance company, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## NOTES TO FINANCIAL STATEMENTS December 31, 2016 and 2015

---

### NOTE 1 - DESCRIPTION OF PLAN

The following description of the Software Management Consultants, Incorporated Retirement Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

#### General

The Plan is a defined contribution plan, established on July 31, 1987, covering substantially all employees of Software Management Consultants, Inc. (the Sponsor). The Plan was amended and restated on September 29, 2015 with an effective date of April 30, 2016. Plan provisions contained within this amendment and restatement changed the plan to bring it into compliance with legislative and regulatory changes. Eligible employees are those employed by the Sponsor during a three consecutive month period and who have reached the age of 18. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA), as amended.

#### Contributions

Each year, participants may contribute up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan also allows for catch-up contributions for participants over 50 years of age. The Plan does not provide for any employer matching contributions or non-elective contributions.

#### Participant Accounts

Each participant's account is credited with his or her contributions and Plan earnings thereon. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from his or her vested account. Participants may invest their accounts in any increments among the funds and may change their investment options daily.

#### Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

## NOTES TO FINANCIAL STATEMENTS December 31, 2016 and 2015

### NOTE 1 - DESCRIPTION OF PLAN (continued)

#### Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's accounts and bear interest at the prime rate, as published in the Wall Street Journal on the 14<sup>th</sup> day of each month, plus 1%. The interest rate on the notes outstanding as of December 31, 2016 range from 4.25% to 4.50%. Principal and interest are paid ratably through recurring payroll deductions.

#### Payment of Benefits

On termination of service due to death, disability, or retirement, participants or beneficiaries may elect to receive either a lump-sum amount equal to the value of the vested interest in their accounts, annual installments over a period of not more than their, or their beneficiaries, assumed life expectancy, or partial withdrawals. For termination of service due to other reasons, participants may receive the value of the vested interest in their accounts as a lump-sum distribution.

#### Hardship Withdrawals

Distributions are available if immediate and heavy financial need is determined to exist based upon reasons deemed acceptable under the IRC. These withdrawals are included with benefits paid and are restricted to a maximum of \$50,000 or 50% of their vested account balance, whichever is less.

### NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

#### Basis of Accounting

The accompanying financial statements of the plan are prepared under the accrual method of accounting using accounting principles generally accepted in the United States of America (US GAAP).

## NOTES TO FINANCIAL STATEMENTS December 31, 2016 and 2015

### NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (continued)

#### *Change in Accounting Principle*

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be retrospectively applied. The Plan has adopted Part II for the year ended December 31, 2016, with retrospective application.

#### *Use of Estimates*

The preparation of financial statements in conformity with US GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's investment committee determines the plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 7 for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (appreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

### NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (continued)

#### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. Delinquent notes receivable are recorded as distributions on the basis of the terms of the Plan document

#### *Payment of Benefits*

Benefits are recorded when paid.

#### *Plan Administrative Expenses*

Certain expenses of the plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in the fair value of investments.

#### *Subsequent Events*

The plan has evaluated subsequent events through October 3, 2017, the date the financial statements were available to be issued.

### NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the plan to terminate the plan subject to the provisions of ERISA. In the event of plan termination all accounts will be distributed to participants.

### NOTE 4 – TAX STATUS

The Plan is placing reliance on an opinion letter dated July 16, 2014 received from the IRS on the prototype plan indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The prototype Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

**NOTES TO FINANCIAL STATEMENTS

**NOTE 4 - TAX STATUS** (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress

**NOTE 5 - INFORMATION CERTIFIED BY THE PLAN TRUSTEES**

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Reliance Trust Company, the trustee as of and for the six months ended December 31, 2016, and State Street Bank and Trust Company, the trustee as of June 30, 2016 and December 31, 2015 and for the six months ended June 30, 2016:

**NOTE 6 - RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS**

Reliance Trust Company (Reliance) is the Plan's trustee as of and for the six months ended December 31, 2016. The trustee invests Plan assets in certain funds managed by Reliance and accordingly, these transactions qualify as party-in-interest transactions. State Street Bank and Trust Company (State Street) is the Plan's trustee as of June 30, 2016 and December 31, 2015 and for the six months ended June 30, 2016. The trustee invests Plan assets in certain funds managed by State Street and accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the plan for investment management services are recorded in net realized and unrealized appreciation in fair value of investments, including those paid to KPlans, Inc. Fees for certain administrative expenses are paid to Automatic Data Processing, Inc., the third party administrator of the Plan. Notes receivable from participants are considered party-in-interest transactions. These investments and transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

**NOTE 7 - FAIR VALUE MEASUREMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Level 2 | <p>Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:</p> <ul style="list-style-type: none"><li>• quoted prices for similar assets or liabilities in active markets;</li><li>• quoted prices for identical or similar assets or liabilities in inactive markets;</li><li>• inputs other than quoted prices that are observable for the asset or liability;</li><li>• inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li></ul> <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

**NOTE 7 – FAIR VALUE MEASUREMENTS (continued)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

*Registered investment companies:* Valued using the market approach at quoted market prices in an exchange and active market.

*Common/collective trusts:* Valued at the net asset value (NAV) of units of the collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016

**NOTE 9 – RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
