Rothe Development, Inc. 401(k) Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Rothe Development, Inc. 401(k) Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2016, the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified and provided by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the custodians of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained a certification from the custodians as of December 31, 2016, and for the year then ended, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Other Matter—2015 Financial Statements
The financial statements of the Plan as of December 31, 2015, were audited by other auditors whose report, dated October 10, 2016, did not express an opinion on the 2015 financial statements for the same reason described in the Basis for Disclaimer of Opinion paragraph. Their report also indicated the form and content of the information included in the 2015 financial statements, other than that derived from the information certified by the custodians, was presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Other Matter—Supplemental Schedule
The supplemental schedule of assets (held at end of year) as of December 31, 2016, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of Rothe Development, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Rothe Development, Inc. (the Company) who have completed one month of service and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan automatically enrolls all eligible employees at a 3 percent deferral percentage.

Contributions: The Company may make discretionary matching contributions, as defined in the Plan.

Participants may elect to contribute up to 100 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100 percent vested in their voluntary contributions.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, the Company's contribution portion of their accounts and actual earnings thereon.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Administrative expenses: Administrative expenses may be paid by either the Plan sponsor or the Plan, as provided by the Plan document. Loan administration fees are paid by the participant electing the loan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts, as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan Administrator. Principal and interest are paid through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions payable as of December 31, 2016. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Subsequent events: The Plan has evaluated subsequent events through September 20, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (collectively, Great-West)

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that the information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2016	2015
Investments, at fair value	$ 4,658,300	$ 4,388,116
Investments, at contract value	350,787	336,499
Notes receivable from participants	98,283	97,083
	$ 5,107,370	$ 4,821,698

The custodians also certified the completeness and accuracy of $331,127 of net appreciation in fair value of investments, $39,890 of interest and dividend income related to the aforementioned investments and $4,079 of interest income on notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

FASB's Accounting Standards Codification (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, Fair Value Measurements and Disclosures, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Collective trust funds are valued at the NAV of units of a bank collective trust fund held by the Plan. The NAV, as provided by the custodians, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust fund, the investment adviser reserves the right to temporarily delay withdrawal from the collective trust fund in order to ensure that securities liquidations will be carried out in an orderly business manner. The collective trust funds are not included in the valuation hierarchy.

Pooled separate accounts: Pooled separate accounts are valued at the NAV of shares held by the Plan. The NAV, as provided by the custodians, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participants transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawal from the fund in order to ensure that securities liquidations will be carried out in an orderly business manner. The pooled separate accounts are not included in the valuation hierarchy.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,430,177	$ -	$ -	$ 2,430,177
Total assets in the fair value hierarchy	$ 2,430,177	$ -	$ -	2,430,177
Collective trust funds—valued at NAV per share (a)				$ 2,228,123
Total investments, at fair value				$ 4,658,300

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts—valued at NAV per share (a)				$ 4,388,116
Total investments at fair value				$ 4,388,116

(a) In accordance with Subtopic 820-10 as amended by Accounting Standards Update No. 2015-07, certain investments that were measured at NAV or its equivalent have not been classified in the fair value hierarchy. The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

The table above excludes the Great-West Life Annuity & Insurance Company Guaranteed Portfolio Fund, which is comprised of fully benefit-responsive investments that, at December 31, 2016, had a contract value of $350,787 ($336,499 at December 31, 2015). As discussed in Note 2, fully benefit-responsive contracts are measured at contract value.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2016 and 2015:

	Fair Value as of December 31		Unfunded	Redemption	Redemption
	2016	2015	Commitment	Frequency	Notice Period
Collective trust funds (1)	$ 2,228,123	$ -	$ -	Daily	None
Pooled separate accounts:					
Asset allocation funds (2)	-	2,077,733	-	Daily	None
Blended funds (3)	-	658,401	-	Daily	None
Bond funds (4)	-	249,292	-	Daily	None
Growth funds (5)	-	691,641	-	Daily	None
International funds (6)	-	166,277	-	Daily	None
Real estate funds (7)	-	81,585	-	Daily	None
Value funds (8)	-	463,187	-	Daily	None
	$ 2,228,123	$ 4,388,116			

(1) Collective trust funds share the common goal of growth and preservation of principal. The collective trust funds indirectly invest in a mix of United States of America and international common stocks, and fixed income securities through holdings in various mutual funds. These investments can be redeemed daily and there are currently no redemption restrictions or unfunded commitments on these investments.

Note 4. Fair Value Measurements (Continued)

(2) The funds within this class are comprised of a combination of fixed income and equity investment options. These investment options may include, balanced, asset, allocation, target-date and target-risk investment options. Investments in this class can be redeemed daily at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(3) The funds within this class are comprised of investment options that invest in stocks of companies that vary in size, growth rates and price. The blend style is assigned to investment options where neither growth nor value characteristics predominate. These investment options tend to invest across a variety of industries, and owing to their broad exposure, have investment returns consistent with average market index returns. Investments in this class can be redeemed daily at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(4) The funds within this class are comprised of fixed income bond investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bonds and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than growth fund investment options over long periods of time. Depending on the objective of the investment options, they may experience price fluctuations and may lose value. Investments in this class can be redeemed daily at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(5) The funds within this class are comprised of investment options that invest in companies that are projected to have high growth rates for earnings, sales, book value and cash flow and high valuations. These investment options typically carry more risk, but have the potential for higher returns over the longer time periods. Investments in this class can be redeemed at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(6) The funds within this class invest in a variety of international stocks that are less expensive or growing more slowly than growth funds. These investment options may include growth or value stocks of international companies of varying sizes. These investment options offer additional diversification of an investment portfolio. Investments in this class can be redeemed at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(7) The funds within this class primarily invest in real estate investment trusts (REITs) of various types. REITs are companies that develop and manage real estate properties. These investment options are average risk. Investments in this class can be redeemed at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

(8) The funds within this class primarily invest in less expensive investment options that are growing more slowly than growth fund investment options. Value is defined based on low valuations and slow growth. These investment options typically carry less risk, but have slower investment returns. Investments in this class can be redeemed at the current NAV per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the NAV per share of the underlying investments.

Note 5. Guaranteed Investment Contract

The Plan offers as an investment option a benefit-responsive guaranteed investment contract. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and investment contracts managed by Great-West. Great-West is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Plan sponsor paid certain administrative expenses related to the Plan for the year ended December 31, 2016.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Plan sponsor contributions.

Note 8. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Tax Status (Continued)

Effective January 1, 1997 and restated as of August 26, 2015, the Plan adopted a nonstandardized form of a prototype plan. The Plan has received a determination letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31	
	2016	2015
Net assets available for benefits per the financial statements	$ 5,117,178	$ 4,820,492
Less participant contributions receivable	(9,808)	(7,897)
Add excess contributions payable	-	9,103
Net assets available for benefits per Form 5500	$ 5,107,370	$ 4,821,698

The following is a reconciliation of the net increase in net assets available for benefits for the year ended December 31, 2016 per the financial statements to Form 5500:

Net increase in net assets available for benefits per the financial statements	$ 296,686
Less current-year participant contributions receivable	(9,808)
Add prior-year participant contributions receivable	7,897
Less prior-year excess contributions payable	(9,103)
Net income per Form 5500	$ 285,672
