Note 1. Description of the Inactive Plan

The following brief description of the Sonoco Pension Plan for Inactive Participants provides only general information. Participants should refer to the Plan document for more complete information.

General

The Sonoco Pension Plan for Inactive Participants (the "Inactive Plan" or the "Plan") was created on January 1, 2011 as the result of a spinoff from the Sonoco Pension Plan. The Inactive Plan is a defined benefit pension plan covering substantially all domestic employees of Sonoco Products Company (the "Company" and "Plan Sponsor" and "Plan Administrator") hired on or before December 31, 2003, who were active employees with frozen benefits under the Sonoco Pension Plan as of January 1, 2011, or were participants in the Sonoco Pension Plan and had terminated employment prior to January 1, 2011. Active employees who were participants in the Sonoco Pension Plan at January 1, 2011 – and whose benefits were not frozen – remained in the Sonoco Pension Plan (the "Active Plan"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Transfer of Assets

The Sonoco Products Company Master Trust (the "Master Trust") was established for the investment of assets of both the Active Plan and the Inactive Plan. Periodically, net assets in the Master Trust are reviewed to ensure proper allocation of shares to the Active Plan and Inactive Plan. The value of those shares transferred between the Plans to ensure a proper allocation is presented on the Statements of Changes in Net Assets Available for Benefits. For the years ended December 31, 2016 and 2015, these amounts were $(321) and $370.

Pension Benefits

Participants with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). The Plan permits early retirement at ages 55-64. Participants may elect to receive their pension benefits in various forms, including joint and survivor annuities. If a participant terminates before rendering 5 years of service or reaching their earliest retirement age (55), they forfeit the right to receive their accumulated pension benefits.

Death and Disability Benefits

If an inactive participant dies at age 55 or older, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's surviving spouse. If a participant does not have a surviving spouse, the participant's accumulated pension benefits are forfeited. Inactive participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid when the employee reaches the earliest retirement age and are computed as though they had been employed to the retirement age with their annual compensation remaining the same as at the time they become disabled.

Plan Changes and Amendments

There were no Plan changes or amendments in regard to the 2016 Plan year. Effective for 2015, the annual pay limit increased under IRC Section 401(a)(17) from $260 in 2014 to $265 in 2015.

Note 2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Accounting Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Inactive Plan's investment in the Master Trust is based on the Plan's relative aggregate contributions, benefit payments, and other relevant factors. The Inactive Plan's sole investment consists of an interest in the Master Trust (see Note 3). The individual investments in the Master Trust are as follows: common/collective trusts, real estate funds, investments in hedge funds of funds, and short-term investments. Investments in real estate funds, common/collective trusts, and hedge funds of funds are stated at net asset value of shares held at year end. Fair value measurements of investments in the hedge fund of funds employ combinations of the market, income, and cost approach, depending upon the nature of the underlying investments. Short-term investments are composed of highly liquid investments with an original maturity of three months or less and are recorded at fair value as traded in active markets or at net asset value.

Plan interest in the Master Trust is presented in the Statements of Changes in Net Assets Available for Benefits and consists of realized gains and losses and unrealized appreciation and depreciation in the fair value of investments and interest and dividend income on Master Trust investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan Administrator will determine, in its sole discretion, whether the expenses incurred in administrating the Plan will be paid by the Company or by the Inactive Plan. The Bank of New York Mellon ("BONY") serves as the Trustee of the Master Trust, and will pay all expenses incurred by the Plan in connection with the investments of the Plan and/or administration of the Plan. The Plan Administrator may direct the Trustee to reimburse the Company for expenses they have paid directly on behalf of the Inactive Plan.

Note 2. Summary of Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Inactive Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died and (c) present participants or their beneficiaries. Benefits under the Plan are based on participants' highest five years of compensation since 1983. The accumulated plan benefits for Inactive participants are based on their average compensation during the last five years as of December 31, 2015, the date used by the Plan's consulting actuaries to calculate the Inactive Plan's present value of accumulated plan benefits. Benefits payable because of the retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Aon Hewitt (the Plan's actuary) and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, termination or retirement) between the valuation date and the expected date of payment.

On the Statement of Changes in Accumulated Plan Benefits, 'Assumption Changes' reflects the changes of the discount rate from 3.88% as of December 31, 2014 to 4.21% as of December 31, 2015; changes in the interest rate assumption for lump sum payments from segment rates from 1.40%, 3.98%, and 5.04% for 2016 and beyond as of December 31, 2014 to 1.69%, 4.11 %, and 5.07% as of December 31, 2015; and changes in the mortality assumption scales from the RP-2014 Mortality Tables projected with Scale MP-2014 to RP-2014 Mortality Tables projected with Scale MP-2015. "Other" consists of human resources changes and pay increases for active participants, the addition of participants to the Plan from certain plants, and benefits that have been accrued by new participants or calculated for new retirees and terminated vested participants that are different from expected.

The significant assumptions underlying the actuarial computations as of December 31, 2015 and 2014 are as follows:

Long-term rate of return	–	7.35% and 7.55%, respectively
Discount rate	–	4.21% and 3.88%, respectively
Mortality basis	–	The RP-2014 Mortality Tables with Blue Collar Adjustments projected with Scale MP-2015 for Annuitants and Non-Annuitants (Nondisabled Lives) The RP-2014 Disabled Retiree Mortality Tables with Blue Collar Adjustments projected with Scale MP-2015 (Disabled Lives); The RP-2014 Mortality Tables with Blue Collar Adjustments projected with Scale MP-2014 for Annuitants and Non-Annuitants (Nondisabled Lives) The RP-2014 Disabled Retiree Mortality Tables with Blue Collar Adjustments Projected with Scale MP-2014 (Disabled Lives), respectively
Retirement	–	Average age of 62.0

Note 2. Summary of Accounting Policies (Continued)

New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued ASU 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Employee Benefit Master Trust Reporting,* which requires that a plan's interest in a master trust and any change in that interest to be presented as separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits. The amendments under ASU 2017-06 are effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company is still assessing the impact of ASU 2017-06 on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12 *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*, which simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient for plans with a fiscal year-end that does not coincide with a month-end. The guidance in this ASU does not apply to the financial reporting for the plan sponsor; it applies only to the plan's financial statements. The amendments under ASU 2015-12 are effective for the Plan effective January 1, 2016. The amendments in Parts I and III are not applicable to the Plan and the amendments in Part II have been applied retrospectively. Accordingly the disclosures of individual investments that represent 5% of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type have been removed. The level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics, and risks.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. This guidance became effective for reporting periods beginning after December 31, 2015, with retrospective application to all periods presented. Accordingly, common collective trusts and certain other investments are no longer categorized within the fair value hierarchy in Note 8.

Note 3. Sonoco Pension Master Trust

At December 31, 2016 and 2015, the Inactive Plan had an undivided interest in the net assets of the Master Trust of approximately 57.34% and 59.65%, respectively, and a total reported net asset value of the Plan's undivided interests in the Master Trust of $582,852 and $593,417, respectively. Net investment income, gains and losses, and related investment expenses are allocated to the individual participating plans based upon beginning monthly balances of each Plan. Net assets and investment income of the Master Trust for years 2016 and 2015 is presented below in Note 6.

Note 4. Funding Policy

The Company contributes actuarially determined amounts to provide for normal costs plus amortization of any unfunded liability equal to or greater than the minimum funding requirements of ERISA. These contributions provide assets to pay benefits to Plan participants. The yield (interest, dividends and net realized and unrealized gains and losses) on Plan investments affects future contributions that would otherwise be required to provide funds for these benefits. Employee contributions are neither required nor permitted. There are no participant directed investments.

The Company was not required to make a contribution to the Plan in either 2016 or 2015, nor were any voluntary contributions made in those years.

Although it has not expressed any intention to do so, the Company has the right under the Inactive Plan to discontinue its contributions at any time and to terminate the Inactive Plan subject to the provisions set forth in ERISA.

Note 5. Plan Termination

Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the rules set forth by the PBGC. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. The premiums paid to the PBGC are presented in the Statements of Changes in Net Assets Available for Benefits as "trustee fees and other expenses." A full description of the defined benefit plan termination priorities is available in the Summary Plan Description and Rules and Regulations.

Note 6. Investments Certified by The Bank of New York Mellon

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the Master Trust investments and investment income/loss certified by The Bank of New York Mellon, the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The Trustee also certified the Plan interest in Master Trust as presented in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015, and the Plan interest in Master Trust investment income/loss as presented in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2016 and 2015.

The following table presents the information certified complete and accurate by the Trustee. The amounts presented represent the net assets of the Master Trust, which include the net assets of both the Active Plan and Inactive Plan and the commingled 401(h) assets (see Note 7).

Note 7. Retiree Health Benefits

Pursuant to the provisions of Section 401(h) of the Internal Revenue Code ("IRC"), the Company sets aside a percentage of assets to pay for retiree health care claims. In accordance with IRC Section 401(h), the Master Trust's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from a defined benefit pension plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the Plan year must be transferred out of the account to the pension plan. The related obligations for health benefits are not included in this Plan's obligations in the statement of accumulated plan benefits but are reflected as obligations in the financial statements of the Sonoco Health and Group Benefits Plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined as needed and are at the discretion of the Plan Sponsor.

Note 8. Fair Value Measurements

The following tables set forth information regarding the Master Trust's financial assets as of December 31, 2016 and 2015 that are measured at fair value in a three-tier value hierarchy to prioritize the inputs in measuring fair value as follows:

Level 1 – Observable inputs such as quoted market prices in active markets;

Level 2 – Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

(a) Common/Collective Trusts: consist of domestic and international large and mid-capitalization equities, including emerging markets and funds invested in both short-term and long-term bonds. Investments are generally valued at closing prices from national exchanges. Commingled funds, private securities, and limited partnerships are valued at unit values or net asset values provided by the investment managers, which are generally based on the fair value of the underlying investments. For those common/collective trusts funds with redemption restrictions, redemption notices are required 1 month prior to liquidation.

(b) Short-term Investments: includes several money market funds used for managing overall liquidity. Underlying investments are generally valued at closing prices from national exchanges. Commingled funds are valued at unit values provided by the investment managers. For those short-term investments with redemption restrictions, redemption notices are required 95 business days prior to liquidation.

(c) Hedge Funds of Funds: includes investments in a number of funds representing a variety of strategies intended to diversify risks and reduce volatility. It includes event-driven credit and equity investments targeted at economic policy decisions, long and short positions in U.S. and international equities, arbitrage investments, and emerging market equity investments. Redemption notices that must be written are required 95 business days prior to liquidation for certain investments within hedge funds of funds.

(d) Real Estate Funds: includes investments in real estate funds (including office, industrial, residential, and retail) primarily throughout the United States. Underlying real estate securities are generally valued at closing prices from national exchanges. Commingled funds, private securities, and limited partnerships are valued at unit values or net asset values provided by the investment managers. For those real estate funds with redemption restrictions, quarterly redemption notices are required with 45 day notice prior to quarter end.

(e) Certain assets that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

Note 8. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. A pro rata portion of the 401(h) assets previously classified as common/collective trusts were reclassified to various other investment type assets held within the Company's pension trust assets as of December 31, 2015.

The Master Trust currently has no nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis. None of the Master Trust's financial assets or liabilities is measured at fair value using significant unobservable inputs. There were no transfers in or out of Level 1, Level 2, or Level 3 fair value measurements during the years ended December 31, 2016 or 2015.

Note 9. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 27, 2017 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the submission for a determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

US GAAP requires plan management to evaluate tax positions taken by the Inactive Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Inactive Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Party-in-Interest

The Bank of New York Mellon oversees the distribution of Master Trust funds to participants. The Bank of New York Mellon is the Trustee as defined by the Inactive Plan and qualifies as a party-in-interest. The Master Trust does not invest in the common stock of the Company.

Note 11. Risks and Uncertainties

The Master Trust invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the investment securities will occur in near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is prepared based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Note 12. Subsequent Events

In 2017, the Plan was amended to allow certain terminated vested participants in the Plan the opportunity to receive their benefits early as either a lump sum or annuity. At the close of the election period, approximately 51% of the eligible participants elected to take the early payment. As a result $55,300 in lump sum payments were made from Inactive Plan assets in May and June 2017. The Plan has evaluated subsequent events for recognition or disclosure through September 29, 2017, the date these financial statements were available to be issued and has determined that no further events have occurred that would require, in accordance with U.S. GAAP, recognition or disclosure.

1st Segment Rate	4.43%
2nd Segment Rate	5.91%
3rd Segment Rate	6.65%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2015), without regard to interest rate stabilization.
1st Segment Rate	1.34%
2nd Segment Rate	4.03%
3rd Segment Rate	5.06%
Optional payment form election percentage	
Crellin participants	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment of their pre-1995 accrued benefit. All other Crellin participants elect a life annuity.
Hayes participants	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment of their pre-2002 accrued benefit. All other Hayes participants elect a life annuity.
Hutchinson, KS participants	50% elect a life annuity and 50% elect a joint and 50% survivor annuity.
Master Plan participants who elected to freeze benefits as of December 31, 2009	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment. All other Master Plan participants elect a life annuity.
All other participants	53% elect a life annuity, 22% elect a joint and 50% survivor annuity, and 25% elect a joint and 100% survivor annuity.
Optional Payment Form Conversion Interest Rate	Same as funding interest rates above for lump sums.

Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.

The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets	
2014 Plan Year	7.55%, limited to 6.99%.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- The retirement rates for active participants have been updated to better reflect future anticipated experience.
- A change in the lump sum election for participants under age 55 from 70% to 55%.
- A change in the unlimited expected rate of return on plan assets from 7.55% to 7.35%.

These changes were made to better reflect the anticipated plan experience. None of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.

1st Segment Rate	4.43%
2nd Segment Rate	5.91%
3rd Segment Rate	6.65%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2015), without regard to interest rate stabilization.
1st Segment Rate	1.34%
2nd Segment Rate	4.03%
3rd Segment Rate	5.06%
Optional payment form election percentage	
Crellin participants	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment of their pre-1995 accrued benefit. All other Crellin participants elect a life annuity.
Hayes participants	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment of their pre-2002 accrued benefit. All other Hayes participants elect a life annuity.
Hutchinson, KS participants	50% elect a life annuity and 50% elect a joint and 50% survivor annuity.
Master Plan participants who elected to freeze benefits as of December 31, 2009	70% of participants greater than or equal to age 55 and 55% of participants under age 55 elect a lump sum payment. All other Master Plan participants elect a life annuity.
All other participants	53% elect a life annuity, 22% elect a joint and 50% survivor annuity, and 25% elect a joint and 100% survivor annuity.
