Schneider Electric 401(k) Plan

Notes to Financial Statements

December 31, 2016

1. Description of the Plan

The following description of the Schneider Electric 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan, formed January 1, 2010, is designed as a defined contribution plan under Section 401(a) of the Internal Revenue Code (the Code) with a cash or deferred arrangement under Section 401(k). The Schneider Electric Holdings, Inc. (the Company) Benefit Committee controls and manages the operation and administration of the Plan. Vanguard Fiduciary Trust Company (Vanguard or the Trustee) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective on the close of business on December 31, 2016, the Schneider Electric Telvent 401(k) Plan merged into the Plan. Assets totaling \$135,598,131 were transferred into the Plan and are included in the net transfers into the plan on the statement of changes in net assets available for benefits. All eligible Telvent employees became eligible to participate in the Plan effective January 1, 2017.

Effective March 31, 2015, the InStep Software, LLC 401(k) Profit Sharing Plan and Trust merged into the Plan. All assets related to these mergers were recognized in 2015. Final assets totaling \$4,543,400 were included in the statement of changes in net assets for that year and are available for benefits. Effective January 1, 2015, all eligible InStep employees became eligible to participate in the Plan.

Eligibility and Vesting

Salaried and nonunion hourly employees of the Company are eligible to participate in the Plan on their first day of employment. Eligible participants hired on or after January 1, 2010, are automatically enrolled in the Plan unless they affirmatively decline to participate. All actively employed participants as of or after January 1, 2010, are immediately vested in their own contributions, matching contributions, and any of the Company's nonelective contributions, plus actual earnings thereon. Plan participants, as a result of a previous plan merger, are 100% vested in their accounts if they were actively employed at the time of their respective plan merger. Inactive participants at the time of their respective plan merger who had not taken a distribution of their account balances are subject to the vesting schedule as provided in their respective legacy plan.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Contributions

Each year, participants may contribute to the Plan 1% to 75% of their eligible gross earnings (as defined by the Plan), subject to limitations set by the Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed by the participant. Participants age 50 or more are eligible to make additional catch-up contributions of up to \$6,000 in 2016. The Company will make matching contributions to participants' accounts based on their employee contributions in an amount equal to 100% of the first 6% of their compensation contributed to the Plan.

Prior to January 1, 2015, in addition to the matching contributions, the Company contributed a nonelective contribution for certain participants meeting certain eligibility requirements.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan, including a self-directed brokerage feature. Participants can allocate their contributions and the Company's contributions to any of the Plan's funds (except for the Schneider Electric Stock Fund) in 1% increments, with the option to change their allocation daily. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

The Schneider Electric Holdings, Inc. Master Trust (the Master Trust) holds the investment in the Schneider Electric Stock Fund. Schneider Electric is the parent company of the plan's sponsor. The Plan and the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Retirement Savings Plan participate in the Master Trust. The assets in the Master Trust consist primarily of Schneider Electric common stock. The Schneider Electric Stock Fund was funded only by performance award contributions and is closed to new contributions; however, participants may make exchanges out of this fund at any time. Investment income or loss relating to the Master Trust is allocated to the individual plans based upon average monthly balances invested by each participating plan.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contribution, and allocations of the Plan's earnings and is charged with an allocation of any applicable administrative expenses. Plan earnings are allocated based on the participant's share of the net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Distributions

Distributions are available in the event of separation from service for any reason, at age 59.5, or in situations involving financial hardship. Terminated employees may choose to leave their vested balance in the Plan if in excess of specified dollar amounts, as defined by the Plan. The form of payment is typically a lump-sum distribution; however, participants may elect to receive annual installment payments.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. Unallocated forfeited balances as of December 31, 2016 and 2015, were \$1,398,000 and \$767,000, respectively.

Loans to Participants

Participants may borrow up to the lesser of \$50,000 or 50% of their vested balances, with a minimum loan amount of \$1,000. Loan repayments are made through payroll deductions over a period of one year to five years in one-year increments. The loans are secured by the balance in a participant's account, and the interest rate, at the prime rate plus 1% as reported by Reuters, is fixed for the life of the loan. A one-time Vanguard processing fee is deducted from the loan amount. In addition, an annual maintenance fee is deducted from any participant's account having a loan balance at the end of each year. The maintenance fee in effect at the time the loan is taken does not change for the life of the loan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan and the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 7 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Company and participants. An annual record-keeping fee of \$15 is charged directly to each participant.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected to not adopt ASU 2017-06 early.

3. Investments

Certain information related to investments held for the Plan, the Master Trust and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

3. Investments (continued)

The following table presents the net assets of the Master Trust:

	December 31	
	2016	2015
Investments, at fair value:		
Schneider Electric common stock	<u><u>\$ 30,423,427</u></u>	<u><u>\$ 28,183,357</u></u>
Plan's interest in Master Trust	<u><u>79%</u></u>	<u><u>80%</u></u>

Net investment loss of the Master Trust for the year ended December 31, 2016, is as follows:

Net appreciation in fair value of common stock	<u><u>\$ 6,849,228</u></u>
Net investment gain	<u><u>\$ 6,849,228</u></u>

4. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 28, 2013, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to the determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

5. Related-Party and Party-in-Interest Transactions

Investments in the Master Trust consist of shares of common stock of Schneider Electric SA, the parent company of the plan's sponsor. Certain plan investments are shares of mutual funds and units of common/collective trust funds managed by the Trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan terminates, participants will become 100% vested in their accounts.

7. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

7. Fair Value Measurements

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan:

Schneider Electric common stock: The Schneider Electric Stock Fund is a unitized fund consisting of Schneider Electric SA common stock and a small amount of a short-term investment fund to provide liquidity. The unitized value of the fund is based on quoted market prices of the underlying assets.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust funds: Valued at the NAV provided by the administrator of the fund.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

7. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's and Master Trust's assets carried at fair value:

^(a) This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Redemptions are permitted by participants on any business day and by the Plan within 12 months of written notice.

^(b) This category seeks to provide capital appreciation and current income consistent with its current asset allocation. These funds use an asset allocation strategy designed for investors planning to retire base on investor's target year. The trusts' asset allocation will become more conservative over time. There are no redemption restrictions on these funds.

Schneider Electric 401(k) Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 3, 2017, the date the financial statements were available to be issued.

Effective February 8, 2017, the Applied Investment Technologies 401(k) Profit Sharing Plan was merged into the Plan. Applied Investment Technologies employees became eligible to participate in the Plan effective January 1, 2017.

Effective July 12, 2017, the Renewable Choice Energy Plan was merged into the Plan. Employees of Renewable Choice Energy became eligible to participate in the Plan effective June 1, 2017.
