Infrasafe, LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Plan Description

The following description of the Infrasafe, LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

- a) *General* – The Plan is a 401(k) defined contribution plan covering substantially all full-time employees of Infrasafe, LLC (the "Company") who have completed three months of service and are age eighteen or older. The Company is a member of a controlled group of companies that include Infrasafe, LLC; Advantor Systems, LLC; Veristream, LLC; Infrasafe Management, LLC; and Infrasafe Intellectual System, LLC. Participants may enter the plan on the following dates: January 1, April 1, July 1 and October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
- b) *Contributions* – Each year participants may contribute to the Plan up to 80% of compensation, subject to certain limitation under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans.

For the year ended December 31, 2016, the Company made a matching contribution of 25% of the first 6% of compensation that each participant contributed to the Plan. The matching contributions are discretionary.

Additional profit sharing amounts may be contributed at the discretion of the Company. The Company approved a \$63,000 profit sharing contribution for the year ended December 31, 2015.

Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. Participants may change their investment options at any time via the telephone or website.

- c) *Participants Accounts* – Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances,

as defined. Administrative expenses may be charged based on account balances or charged equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

- d) *Vesting* – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution and profit sharing contributions is based on years of service. A participant is vested after 3 years of service for Company matching contributions. Profit sharing contributions vest 20% after two years of service and an additional 20% each year thereafter (100% vested upon 6 years of credited service) or upon the events of death, disability or attaining age 65.
- e) *Notes receivable from Participants* – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at the prime rate which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.
- f) *Excess Contributions Payable* – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.
- g) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution or installment payment.
- h) *Forfeited accounts* – Forfeitures of nonvested balances may be used to pay administrative expenses or reduce Company contributions. At December 31, 2016 and 2015 there were \$981 and \$971 forfeited non-vested accounts of terminees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2016 through September 12, 2017, which is the date the financial statements were available to be issued.

4. Information Prepared and Certified by the Custodian

The following information included in the accompanying financial statements and supplemental material was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

<i>December 31,</i>	<i>2016</i>	<i>2015</i>
Investments, at fair value:		
Pooled separate accounts	\$7,987,804	\$6,740,552

Investment income:	
Net appreciation in fair value of investments	\$ 693,374
Interest and dividends	10,146
Interest income – notes receivable from participants	1,978

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Infrasafe, LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts – These investments are public investment securities valued using Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments which are publicly traded on active exchanges. Pooled separate accounts are included in Level 1 of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

<i>Investment Assets at Fair Value</i>				
<i>As of December 31, 2016</i>				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$7,987,804	–	–	\$7,987,804
Total investments at fair value	\$7,987,804	–	–	\$7,987,804

<i>As of December 31, 2015</i>				
	Level 1	Level 2	Level 3	Total

6. Guaranteed investment contract (GIC)

The Plan holds investment contracts with Voya Retirement Insurance and Annuity Company (Voya). The contracts underlying this investment option are considered to be fully benefit responsive. Because the GIC is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the statement of net assets available for benefits at contract value.

Voya maintains the contributions in a general account. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. In most cases, participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. The GIC issuer is contractually obligated to repay the principal and a specified minimum interest rate that is guaranteed to the plan.

The methodology for calculating the interest crediting rate is based on a number of factors including the earnings of the underlying assets compared to the minimum interest crediting rate, as stated in the contract, mortality risks and prevailing market conditions. Interest crediting rate is reset at least monthly.

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Party-in-Interest Transactions

The Plan's investments are held and managed by the Plan custodian, Voya, and therefore these transactions qualify as party-in-interest transactions.

Infrasafe, LLC 401(k) Savings Plan

Notes to Financial Statements

December 31, 2016 and 2015

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2015 that the volume submitter plan with CODA is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

11. Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.
