Note 1 - Description of Plan

The following description of the Intersection Parent, Inc. 401(k) Retirement Plan (formerly Titan 401(k) Retirement Plan) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective February 1, 2016, the plan sponsor elected to change the name of the Plan to Intersection Parent 401(k) Retirement Plan.

General

The Plan is a defined contribution plan covering all eligible full-time employees of Intersection Parent, Inc. (the "Company") who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective February 1, 2016, the Plan was amended and eligible employees are now able to participate in the Plan immediately after hire. Prior to February 1, 2016, an employee was eligible to participate in the Plan after completing six months of service. In September 2015, the Company and Control Group, Inc. ("Predecessor Employer") were parties in a business combination which resulted in a plan merger (See Note 6). Effective February 1, 2016, the Plan was amended to allow for this merger, whereby prior service with the Predecessor Employer will count for eligibility and vesting conditions.

The Board of Trustees is responsible for oversight of the Plan. The Plan's investment advisors determine the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options at any time.

The Company may contribute matching contributions at the option of the Company's Board of Directors. The Company contributed 25% of participant deferrals, not to exceed 8% of compensation, for the period from February 1, 2016 through December 31, 2016. In January 2016, the Company contributed 50% of participant deferrals, not to exceed 6% of compensation. The matching Company contribution is invested in various options offered by the Plan at the option of the participants. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. During the year ended December 31, 2016, the Company made no profit sharing contributions to the Plan. Participants also direct the investment of Company contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Effective February 1, 2016, the Plan was amended to allow for 100% vesting after three years of credited service, as defined. Prior to February 1, 2016, a participant became 100% vested after four years of credited service, as defined.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. On November 21, 2012, in accordance with Appendix B to the Adoption Agreement, the loan interest rate was set at 2% above the prime rate for all loans issued subsequent to this date (5.50% at December 31, 2016). Prior to November 21, 2012, the loan interest rate was set at 1% above the prime rate. Fees to administer the loans are paid by the participant. Principal and interest are paid ratably through payroll deductions.

Payment of benefits
On termination of service due to death, disability, retirement, or other reasons, a participant with a vested account balance of more than $5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or their investments will remain in the Plan. If a participant's vested balance is $5,000 or less, a lump-sum distribution equal to the value of the vested interest in his or her account will be made automatically within a reasonable amount of time after termination of service.

Forfeited accounts
At December 31, 2016 and 2015, forfeited non-vested accounts totaled $10,840 and $3,169, respectively. These accounts will be used to reduce future employer contributions to the Plan or pay Plan expenses. Also in 2016, employer contributions were reduced by $28,994 from forfeited non-vested accounts.

Note 2 - Summary of accounting policies

Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The

Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance companies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015.

Excess contributions payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through October 5, 2017, the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 *Fair Value Measurements and Disclosures* are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,000,443	$ -	$ -	$ 14,000,443
Total investments at fair value	$ 14,000,443	$ -	$ -	$ 14,000,443

	2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,052,260	$ -	$ -	$ 9,052,260
Total investments at fair value	$ 9,052,260	$ -	$ -	$ 9,052,260

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Note 4 - Fully benefit-responsive investment contract

The Plan holds a traditional guaranteed investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The traditional investment contract held by the Plan is a guaranteed investment contract. With traditional investment contracts, the Plan owns only the contract itself. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer

but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with its fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.

2. Premature termination of the contracts.

3. Plan termination or merger.

4. Changes to the Plan's prohibition on competing investment options.

5. Bankruptcy of the Plan sponsor of other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines

2. A breach of material obligation under the contract

3. A material misrepresentation

4. A material amendment to the agreements without the consent of the issuer.

Note 5 - Rollovers contributions

An aggregate of $317,725 was rolled into the Plan during the year ended December 31, 2016 and is included in rollovers on the statement of changes in net assets available for benefits.

Note 6 - Transfers to Plan

On April 28, 2016, the Control Group Inc. 401(k) Profit Sharing Plan merged into the Plan. An aggregate of $2,124,628 was transferred into the Plan during the year ended December 31, 2016 and is included in transfers to Plan on the statement of changes in net assets available for benefits.

Note 7 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and a guaranteed investment contract managed by Mass Mutual Retirement Services ("MMRS"); therefore, these transactions qualify as party-in-interest transactions.

MMRS provides certain administrative services to the Plan pursuant to an agreement between the Company and MMRS. MMRS receives revenue from mutual fund and guaranteed investment contract service providers for services MMRS provides to the funds. This revenue is used to offset certain amounts owed to MMRS for its administrative services to the Plan.

If the revenue received by MMRS from such mutual fund or guaranteed investment contract service providers exceeds the amount owed under the agreement, MMRS remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2016, there were no excess amounts. The Plan or Plan sponsor may make a payment to MMRS for administrative expenses not covered by revenue sharing.

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Tax status

The prototype plan document, which the Plan has adopted via a non-standardized adoption agreement, obtained its latest opinion letter on February 20, 2015, in which the IRS stated that the prototype plan and related trust are designed in accordance with applicable sections of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2016 and 2015, and investment income and interest income on notes receivable from participants for the year ended December 31, 2016, that is disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at

End of Year) (Schedule H, Line 4i), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

Note 12 - Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:

Deemed distributions of notes receivable from participants	45,621
Excess contribution payable	86,542
Net increase in net assets available for benefits per Form 5500	$ 3,078,826

Note 13 - Nonexempt transactions

As reported on the supplemental Schedule of Delinquent Participant Contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the custodian within the time frame specified by the DOL's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the years ended December 31, 2016 and 2015 in the amount of $138,316 and $321,980 respectively. The Company is currently in the process of correcting the delinquent participant contributions for the year ended December 31, 2016, in accordance with the DOL's Voluntary Fiduciary Correction Program (the "Program"). The 2015 delinquent participant contributions were corrected in 2016 under this Program.

Note 14 - Operational error

Management identified instances within certain participants' employee contributions and/or employer matching contributions during the 2015 audit that were not in accordance with the Plan document. Management has consulted with its ERISA attorney and is currently determining the corrective course of action. Management has determined that such errors did not have a significant impact on the 2015 financial statements and management has not identified any errors in the 2016 Plan year.

Note 15 - Subsequent events

The Plan was amended subsequent to the December 31, 2016 year end to allow for automatic enrollment of eligible participants. This feature was effective January 1, 2017.
