Note 1. Plan Description

Overview

The Wabash Electric Supply, Inc. 401(k) Plan (the "Plan") is a defined contribution plan sponsored by Wabash Electric Supply, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information.

Eligibility

The Plan covers all employees of the Employer who are 18 years of age and have completed at least one year of service. Employees may enter the Plan on January 1, April 1, July 1, and October 1 following completion of the eligibility requirements.

Contributions

Employees may make voluntary pre-tax contributions of 1% to 100% of compensation, up to the dollar limits set by the Internal Revenue Code.

Employees are eligible for a discretionary match contribution from the Employer provided the participants have completed at least one year of service. The Employer may provide a matching contribution of the participants' elected salary reduction, subject to a 5% maximum of the employee's compensation. The Employer provided a 50% matching contribution for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, Employer contributions, if provided, plus an allocation of Plan earnings, and is charged with certain fees, administrative expenses, and withdrawals. Plan earnings are allocated to participants' accounts on a pro rata basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants have the option of directing their contributions into various pooled separate accounts and one guaranteed investment contract offered through United of Omaha Life Insurance Company. All amounts in the participant accounts are participant-directed.

Benefit Payments

Upon termination of employment, retirement, disability, or death, distributions are made in lump-sum, installment payments, or annuity contracts equal to the value of the participant's vested interest in his or her account. In-service distributions from vested amounts may be made to a participant who has not separated from service provided he or she has attained age 59 1/2. Hardship distributions are also allowed as described in the Plan.

Note 1. Plan Description (Continued)

Vesting

Vesting is based on years of service. Participants begin vesting in Employer contributions after two years of service at 20% and increase 20% each year until full vesting after six years of service, or at normal retirement age, early retirement age, or death. Participants are always 100% vested in any salary deferral contribution to the Plan.

Forfeitures

Participants who terminate from the Plan prior to becoming fully vested must forfeit a percentage of their Employer contributions. These forfeitures are used to reduce future Employer contributions and pay Plan expenses. There was approximately $7,875 and $2,800 available in the forfeiture account to offset future Employer contributions and cover Plan expenses as of December 31, 2016 and 2015, respectively. No forfeitures were used to pay Plan expenses for the year ended December 31, 2016.

Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and insurance company. See Note 4 for discussion of fair value measurements.

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in the net appreciation in fair value of investments.

Subsequent Events

Management of the Plan has evaluated events and transactions for possible recognition or disclosure through September 26, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified by the Insurance Company

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the United of Omaha Life Insurance Company, and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying statements of net assets available for benefits.

b. Net investment income, as shown in the accompanying statement of changes in net assets available for benefits, including interest income and net realized and unrealized appreciation in fair value of investments.

c. Schedule of assets (held at end of year).

Note 4. Fair Value Measurements

Fair value measurements are based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, and are determined by either the principal market or the most advantageous market.

Inputs used in the valuation techniques to derive fair values are classified based on a three-level hierarchy to prioritize the inputs used in the valuation techniques to derive fair values. The basis for fair value measurements for each level within the hierarchy is described below with Level 1 measurements having the highest priority and Level 3 measurements having the lowest priority.

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2: Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts ("PSA"): Valued at net asset value ("NAV") at the end of the Plan year. PSA's are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV is based on the value of the underlying assets owned by the PSA, minus any liabilities, and then divided by the number of shares outstanding. The NAV of a PSA is not a publicly quoted price in an active market, therefore, the NAV is used as a practical expedient to estimate fair value. The Plan's PSA investments have a daily redemption frequency, do not require a redemption notice period, and have no unfunded commitments as of December 31, 2016 and 2015, respectively.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2016 and 2015.

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts measured at net asset value	$ -	$ -	$ -	$ 5,383,289

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts measured at net asset value	$ -	$ -	$ -	$ 4,648,345

Note 5. Guaranteed Investment Contract

The Plan holds a traditional investment contract, the Guaranteed Investment Contract, with United of Omaha Life Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with United of Omaha Life Insurance Company. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 6. Transactions with Parties-In-Interest

The Employer provides certain accounting, recordkeeping, and administrative services for the Plan for which it receives no compensation. Administrative expenses for legal, accounting, and other services are rendered by parties-in-interest and are paid by the Employer. The Plan invests in pooled separate accounts affiliated with and a fixed income fund sponsored by United of Omaha Life Insurance Company.

Note 7. Income Tax Status

The Plan is a prototype plan of Retirement Financial Services, Inc., which obtained its latest determination letter on March 31, 2014, stating that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the opinion letter. The Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Subsequent Change in Custodian

In February 2017, certain net assets of the Plan were transferred from United of Omaha Life Insurance Company to Fidelity Management Trust Company.
