Note 1. Description of Plan

The following description of STI Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective August 1, 2015, the Plan was amended and restated, and the name of the Plan was changed from Southeast Texas Industries, Inc. 401(k) Plan to STI Group 401(k) Plan.

General: The Plan is a defined contribution plan that covers all employees of STI Group (the Company) who are age 19 or older and have completed two months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan administration: The Plan is administered by the Company. The Plan's recordkeeper is One America Company, agent for American United Life Insurance Company, the trustee of the Plan. American United Life Insurance Company is responsible for the custody and management of the Plan's assets.

Contributions: Employer matching contributions and additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. No employer contributions were made for the year ended December 31, 2016.

Participants may elect to contribute up to 100 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, if any, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching and profit sharing contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest as determined by the Plan Administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeitures: Participant forfeitures of nonvested balances may be used to reduce future employer contributions and pay the expenses of the Plan. During 2016, no forfeitures were used. At December 31, 2016 and 2015, unallocated forfeitures totaled $9,000 and $11,471, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants in May 2017. The Plan distributed 2015 excess contributions in June 2016.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i – schedule of assets (held at end of year).

Payment of benefits: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent events: The Plan has evaluated subsequent events through September 26, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets.

	December 31	
	2016	2015
Investments, at fair value	$ 5,579,575	$ 5,015,668
Notes receivable from participants	295,877	330,561

The trustee also certified the completeness and accuracy of $398,656 of net appreciation in fair value of investments, interest and dividends of $7,185 related to the aforementioned investments and $13,354 of interest income from notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the ASC, Fair Value Measurements and Disclosures, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Stable value fund: The stable value fund is primarily valued at net asset value (NAV) per share used as a practical expedient. This practical expedient would not be used if it is determined to be probable that the trust would sell the investment for a different amount than the reported NAV.

Registered investment companies: Registered investment companies are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2105:

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 4,880,141	$ -	$ -	$ 4,880,141
Stable value fund (a)				699,434
Total investment assets at fair value				$ 5,579,575

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 4,162,965	$ -	$ -	$ 4,162,965
Stable value fund (a)				852,703
Total investment assets at fair value				$ 5,015,668

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV or its equivalent have not been classified in the fair value hierarchy. The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2016 and 2015:

	Fair Value at December 31		Unfunded	Redemption	Redemption
	2016	2015	Commitment	Frequency	Notice Period
Stable value fund (a)	$ 699,434	$ 852,703	$ -	Immediate	None

(a) This is an interest-earning investment option, backed by AUL's general account assets. All contributions and transfers to the stable value account will earn interest at the guaranteed rate in effect at the time such contribution or transfer is made. All monies in the stable value account will earn interest at that guaranteed rate until that guaranteed rate is changed. AUL may declare a new guaranteed rate for the stable value account that becomes effective on January 1 of each calendar year. AUL bears the investment risk for the AUL stable value account values and for paying interest.

Note 5. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by American United Life Insurance (AUL). AUL is the trustee, as defined by the Plan, and therefore, these investments qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Plan sponsor contributions.

Note 7. Tax Status

Effective July 1, 1997, the Plan adopted a standardized form of a prototype plan. The Plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving this determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various types of investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31	
	2016	2015
Net assets available for benefits per the financial statements	$ 5,838,090	$ 5,352,585
Add excess contributions payable	51,687	3,504

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
