NOTE 1 - PLAN DESCRIPTION

Description of the Plan

The following description of the Pacific Steel Group 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Pacific Steel Group (the "Company" or "Employer"). Employees may enter or change the amount of contributions on any date during the Plan year. There are no age or service requirement for participants to be eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Ineligible employees generally include non-resident aliens, leased employees, those whose employment is covered by a collective bargaining agreement, and certain other classes of employees as specified in the Plan document. Plan assets are held by Great-West Trust Company, LLC (the "Custodian").

Plan Contributions

The 401(k) salary deferral option allows employees to defer a portion of their salaries for income tax purposes through contributions to the Plan. Participants may contribute up to 80% of eligible Plan year compensation up to the maximum allowed under the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may opt out of the Plan or change the deferral percentage at any time.

Participants are eligible for matching contributions after completing one year of service which is equivalent to 1,000 hours. The Company has a guaranteed matching contribution where it will match 100% of the participant's contributions up to 6% of the participant's total contribution. In addition, the Company provides for discretionary matching contributions and profit sharing contributions to eligible participants. For the year ended December 31, 2016, the Company made guaranteed matching contributions of $412,175 and $0 discretionary matching contributions and profit sharing contributions.

Rollover Contributions

The Plan provides for rollover contributions, which represents contributions by participants from other tax-qualified retirement plans. The maximum amount of a participant's rollover contribution is not affected by the limits otherwise applicable to participant contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with Plan losses. Allocations are based on participant earnings or account balances, as defined. Participants direct the investments in their respective accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - PLAN DESCRIPTION (Continued)

Vesting
Participants are immediately vested in their contributions as well as in the Employer's guaranteed matching contributions. The Plan's discretionary matching contributions and profit sharing contributions vest at a rate of 20% per year beginning after two years of service, whereby a participant is fully vested after six years.

Notes Receivable from Participants
The Plan allows loans to participants. The loan must be at least $1,000 and cannot exceed the lesser of 50% of the participant's vested account or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 4.50%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. All loans must be repaid over a period not to exceed five years except for the purchase of a participant's principal residence and at termination of employment.

Hardship Withdrawals
Participants may request a hardship withdrawal as defined by the Plan. After a hardship withdrawal, a period of 6 months must lapse before a participant can make additional salary reduction contributions.

Payment of Benefits
Upon a participant's disability or normal retirement, as defined in the Plan, and if the vested benefits are $5,000 or less, the participant will receive a lump-sum distribution. If vested benefits exceed $5,000, the participant may choose to have benefits disbursed through a lump-sum distribution, an annuity contract, or a combination of both. In the case of death, the participant's entire account balance will be paid to the participant's beneficiary. For termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. As of December 31, 2016 and 2015, $0 were payable to Plan participants.

Forfeitures
Forfeitures of Employer contributions to the Plan shall be applied to reduce future Employer contributions to the Plan or administrative expenses. Forfeited non-vested amounts used to reduce Employer contributions and pay administrative expenses was $0 for the year ended December 31, 2016. At December 31, 2016 and 2015, there was $0 and $0 in unallocated forfeitures, respectively.

Administrative Expenses
The Employer provides, at no cost to the Plan, certain administrative, accounting, and legal services and also pays the cost of certain outside services for the Plan. All transaction costs and certain Plan administrative expenses are paid for by the Plan. Administrative expenses incurred by the Plan are covered by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 4). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Plan administrator determines the Plan's valuation policies utilizing information provided by its investment advisors and the Custodian. See Note 5 for further discussion and disclosures related to the fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value includes the Plan's gains (losses) on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess Contribution Payable
Amounts payable to the participants for contributions in excess are recorded as a liability with a corresponding reduction to contributions. As of December 31, 2016 and 2015, $8,204 and $6,457, respectively were payable.

Payment of Benefits
Distributions to participants are recorded when paid.

Subsequent Events
The Plan has evaluated events and transactions for potential recognition or disclosures through August 31, 2017, which is the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Great-West Trust Company, LLC, the Custodian, has certified to the Plan administrator the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015;
- Net appreciation (depreciation) in fair value of investments, and interest and dividend income reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2016; and
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 4 - GROUP ANNUITY CONTRACT

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

(a) Amendments to the Plan document (including complete or partial Plan termination or merger with another plan),

(b) Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,

NOTE 4 - GROUP ANNUITY CONTRACT (Continued)

(c) Bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or

(d) The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 5 - FAIR VALUE MEASUREMENTS

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

    - Quoted prices for similar assets and liabilities in active markets
    - Quoted prices for identical or similar assets or liabilities in markets that are not active
    - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

- Level 3 - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include managements own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methods used for assets measured at fair value. There have been no significant changes in methodologies used at December 31, 2016, as compared to December 31, 2015.

- Mutual Funds - The fair values of these securities are based on observable market quotations for identical assets and are priced on a daily basis at the close of business.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31 2016 and 2015:

		Fair Value Measurements at Reporting Date Using		
	December 31, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 3,803,438	$ 3,803,438	$ -	$ -
Total assets at fair value	$ 3,803,438	$ 3,803,438	$ -	$ -

		Fair Value Measurements at Reporting Date Using		
	December 31, 2015 (Unaudited)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 2,736,003	$ 2,736,003	$ -	-
Total assets at fair value	$ 2,736,003	$ 2,736,003	$ -	$ -

NOTE 6 - PARTY-IN-INTEREST

The Custodians manage certain Plan investments and are also the custodians of Plan assets. Accordingly, these investment management transactions qualify as exempt party-in-interest transactions.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Persons handling Plan funds or other Plan property generally must be covered by a fidelity bond to protect the Plan against loss resulting from fraud and dishonesty by those covered by the bond. For the full year ended, the Plan was not in compliance with the fidelity bonding requirements of ERISA. The Plan obtained a policy effective December 1, 2016, and therefore was not covered for the period leading up to this date.

NOTE 9 - INCOME TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008 that the Plan is qualified and the trust is exempt from Federal income taxes under certain provisions of the Internal Revenue Code (the "Code"). Pursuant to such Code provisions, participating employees are not subject to Federal income taxes on contributions, or on income accruing to their accounts, until they receive distributions from the plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure within the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 10 - PROHIBITED TRANSACTIONS

During the year ended December 31, 2016, the Company failed to timely deposit participant contributions and loan repayments (approximately $177,000) within the timeframe required by DOL regulations. These late deposits are considered prohibited transactions, however, these deposits were deposited into the participant's accounts within no more than 14 days from the date that the funds were withheld.
