Participants may make voluntary, pre-tax contributions in the form of salary reductions subject to certain limitations under the terms of the Internal Revenue Code (IRC) Sections 402(g) and 415. Upon meeting eligibility criteria, participants receive a profit sharing contribution, which is based on their length of employment. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or define contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants direct the investment of their contributions and the Company's contributions into various options offered by the Plan. Each participant's account is credited with the participant's contributions, employer profit sharing contributions, employer safe harbor contributions, rollover contributions, as applicable and actual earnings thereon.

Vesting

Participants are immediately vested in their voluntary contributions, employer safe harbor contributions, plus actual earnings thereon. Vesting in employer profit sharing contributions plus earnings thereon is based on years of service, as follows:

Years of Service	Percent Vested
1	0%
2	20%
3	40%
4	60%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. Loan terms may be for a period of up to 5 years, unless the loan is for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with prevailing rates charged on similar loans under like circumstances. Interest rates are determined upon loan issuance and are fixed for the duration of the loan. Principal and interest are paid ratably through weekly payroll deductions.

Forfeitures

If an individual's participation in the Plan is terminated prior to being 100% vested in employer profit sharing contributions plus actual earnings thereon, then the non-vested portion is forfeited as of the earlier of (i) the distribution of the vested potion of the participant's account balance or (ii) the last day of the plan year in which the former participant incurs 5 consecutive one-year breaks in service. Forfeitures of employer contributions may be used to pay administrative expenses and/or reduce future employer contributions. In 2016 and 2015, forfeitures totaling $6,594 and $17,380, respectively, were applied to employer contributions. At December 31, 2016 and 2015, forfeitures totaling $4,885 and $3,677, respectively, were available for use.

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Plan Amendments

On January 1, 2015, the Plan was amended to include bonuses as eligible compensation for participants to defer to the plan. In addition, the Plan was amended again on September 30, 2015 to add the Company's division, Adirondack Insurance Service, Inc. to the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies are determined utilizing information provided by the investment advisers and custodians. The 401(k) Trustee Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Payment of Benefits

Benefits are recorded when paid.

Upon termination of service due to death, disability, or retirement, participants (or their beneficiary) may elect to receive a distribution of their vested account balance in the form of a single lump-sum payment or rollover contribution to another qualified plan. Participants who have either attained age 65 or have been a participant in the Plan for at least 5 years are also eligible for in-service distributions of their vested account balance.

Hardship withdrawals from the Plan are permitted under certain circumstances.

Administrative Expenses

Recordkeeping and investment advisory fees are paid from Plan assets. Participants should refer to the Participant Fee Disclosure Statement for a more complete description of fees charged by the Plan's custodian. The Company pays all other administrative expenses and these expenses are excluded from these financial statements.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Management has evaluated subsequent events through September 19, 2017, which is the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the Custodian of the Plan, has certified to the completeness and accuracy of all information provided by them as of December 31, 2016 and 2015 and for the years then ended. Information included in the accompanying financial statements and notes as to investments, investment related assets, interest and dividend income, and net appreciation and depreciation in fair value of investments, and all information in the supplemental schedule, is presented in reliance solely upon those certifications.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:

    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at Fair Value as of December 31, 2016

NOTE 5 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the prototype plan sponsor by a letter dated March 31, 2014 that the Plan, which is a prototype plan, and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated since receiving the determination letter, the Plan Administrator believes that the Plan and the underlying trust have operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY TRANSACTION

The Plan's assets included shares of mutual funds managed by Massachusetts Mutual Life Insurance Company. This entity served as the Plan's record-keeper during the respective year and, therefore, these transactions qualify as party-in-interest transactions. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.
