Note 1. Plan Description

General

The following description of the Magnolia Lodging, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Magnolia Lodging, LLC (the "Company" or "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2014, the Plan was amended to require that employees hired on or after that date have three consecutive months of service and are twenty-one years of age before they are eligible to participate.

Funding

Participants may contribute up to 60% of their annual eligible compensation from the Company, subject to legal maximum limitations. In addition, an employee may contribute up to 100% of any employer paid bonus (subject to the annual contribution limits). Participants age fifty or older may also make "catch-up" contributions as defined by the Internal Revenue Code (IRC). With certain limitations, a participant may "roll over" amounts from other qualified retirement plans into the Plan.

Participants may voluntarily contribute a percentage of their annual compensation from the Company, as either pre-tax or "Roth" (after-tax) deferrals, subject to legal limitations. Each year the Plan Sponsor may also match a percentage of participant pre-tax contributions at the discretion of the Company's Board of Directors.

The Company is required to make a Safe Harbor Match equal to 100% of a participant's elective deferrals up to 3% of participant's compensation, plus 50% of deferrals that exceeds 3% of compensation, but do not exceed 5% of compensation.

Any discretionary or profit sharing contribution is made annually to participants employed on the last day of the Plan year. The Company did not make a discretionary contribution for the year ended December 31, 2016.

Allocation

Investment income or loss is allocated daily based on the ratio of each participant's account balance at the end of each day.

Forfeitures

Unvested Company contributions remaining in a participant's account at termination are forfeited by the participant and may be used by the Company to reduce the Company's contribution funding. Amounts remaining in the forfeiture account were $100 and $5,755 at December 31, 2016 and 2015, respectively. During 2016, forfeitures totaling $5,585 were used to partially fund the Company's 2015 matching contribution and $425 were used to pay Plan expenses.

Note 1. Plan Description (Continued)

Expenses

Substantially all of the Plan's operating expenses are absorbed by the Plan Sponsor.

Vesting

Participants are immediately vested in their voluntary contributions, roll-over transfers from other plans, and safe harbor contributions from the Plan Sponsor, plus allocated earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest of his or her account, or one of various installment payments available under the Plan.

Termination

Although the Company has not expressed any intent to do so, the Board of Directors has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all their employer contributions.

Participant Loans Receivable

Participants may not borrow from their fund accounts.

Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan sponsor by a letter dated July 1, 2009, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. Tax returns of the Plan are generally open to examination by the relevant taxing authorities for a period of three years from the date the returns are filed.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to GAAP and have been consistently applied in the preparation of the financial statements.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invested in investment contracts through a general account in 2016 and 2015. Contract value for this general account was based on the net asset value of the fund as reported by the custodian, Transamerica Life Insurance Company (Transamerica). At December 31, 2016 and 2015, contract value approximated the fair market value.

Date of Management's Review

Subsequent events have been evaluated for potential recognition or disclosure through September 29, 2017, which is the date the financial statements were available to be issued.

Note 3. Party-in-Interest and Related Party

The Plan invests in a stable value fund and mutual funds managed by Transamerica, who acts as custodian of the Plan's assets, as defined by the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules.

Note 4. Fully Benefit Responsive Investment Contract

The Plan holds a stable value fund with Transamerica. The contributions are maintained in a general account. The stable value fund option issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the stable value fund is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. At December 31, 2016 and 2015, contract value approximated the fair market value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example divesture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exempt under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The interest crediting rate of the investment contract was .75% at December 31, 2016 and 2015. The average yield was .75% for 2016 and 2015.

Note 5. Information Prepared and Certified by Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Transamerica.

Note 6. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund – Valued based on the contractual terms of the underlying contracts held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016
