The following brief description of the Anthony Thomas Candy Co., Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General – The Plan is a defined contribution plan, established under the provisions of Section 401(a) of the Internal Revenue Code (the IRC) with a 401(k) arrangement covering all full-time employees of the Anthony Thomas Candy Co., Inc. and Anthony Thomas Candy Stores, Inc. (a related employer under common ownership) (collectively, the Company) who have one year of service and are age twenty-one or older. Upon meeting the eligibility requirements, employees may enter the Plan on the first day of the calendar quarters. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration – The Plan is administered by the President and Vice-President of the Company. Effective January 2012, the Company contracted with Advanced Pension Solutions, Inc. for administrative services and with Nationwide Financial Services, Inc. to act as custodian of the Plan's investments.

Contributions – Eligible employees may contribute up to the maximum allowed by law, as defined in the Plan, subject to certain limitations under the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various mutual fund investment options offered by the Plan. The Company may contribute to the Plan an amount of matching contributions determined by the Company at its discretion. For the years ended December 31, 2016 and 2015, the Company elected to match 10% of the employee elective deferral. Additional profit sharing amounts may be contributed at the option of the Company. Discretionary matching and profit sharing contributions are invested in a portfolio of mutual fund investments in proportion to the participant directed mutual fund investments. For the years ended December 31, 2016 and 2015, a profit sharing contribution was not authorized.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contribution. Participant accounts are charged for administrative expenses that have been paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Investment Options – Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Trustees. Participants may change their investment options any time throughout the year via internet or direct phone access to Nationwide Financial Retirement Plans. The change becomes effective the next business day.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan term may not be greater than five years unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and bear an interest rate of 1% above the prime rate at the time of issuance. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments subject to required minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

DESCRIPTION OF PLAN – Continued

Administrative Expenses – The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan Document.

Forfeited Accounts – Forfeited balances of terminated participants' non-vested accounts are first used to pay Plan expenses or used to reduce future Company contributions. Forfeited accounts of \$1,050 and \$0 were used during the years ended December 31, 2016 and 2015, respectively. The balance of unallocated forfeitures at December 31, 2016 and 2015 was \$3,290 and \$3,932, respectively.

Termination of the Plan – Although it has not expressed any intention to do so, the Company may terminate or amend the Plan in whole or in part at any time. If such an event occurs, the participants become fully vested in their account balances.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan prepares its financial statements using the accrual basis of accounting. Following are the significant accounting policies followed by the Plan:

Basis of Accounting – The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and those common to employee benefit plans.

Contributions - Contributions are recorded as earned on the accrual basis when withheld from the participant's earnings.

Investment Valuation and Income Recognition – Investments are recorded at fair value as determined by publicly quoted market prices or net asset values at year end. Income from investments is recorded as earned on the accrual basis of accounting. Cost of investments is determined on a first-in first-out (FIFO) basis and is used to determine the realized gain or loss from disposition.

Investments in benefit-responsive investment contracts are presented at contract value rather than fair value since contract value is the amount at which participants may initiate and settle transactions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Income Taxes - The Plan is exempt from income taxes as a profit sharing plan under Internal Revenue Service Code Section 401(a). Accordingly, no provision for income taxes has been presented in the accompanying financial statements.

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2016 and 2015

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Income Taxes - Continued - The Plan complies with Accounting Standards Codification (ASC) 740-10 related to uncertain tax positions. The standard prescribes a recognition threshold and a measurement attribute for the financial recognition and measurement of a tax position taken or expected to be taken on a tax return. Plan administration is not aware of any tax positions taken by the Plan on its tax returns that they consider to be uncertain. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2013.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on the Plan administrator's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Risks and Uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Standards – In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan elected to early adopt the provisions of this new standard as of December 31, 2016. The adoption of this ASU had no impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits as of December 31, 2016 and 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960): Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. The Plan adopted the provisions of this new standard and the ASU has been applied retrospectively to December 31, 2015. The impact of adopting this ASU resulted in the elimination of footnote disclosures only and did not have an impact on the statements of net assets available for benefits or statements of changes in net assets available for benefits.

In January 2016, FASB issued ASU 2016-01, *Financial Instruments (Subtopic 825-10) - Overall Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-01 amended ASC 825, *Financial Instruments*, and eliminates the requirement to disclose the fair value of financial instruments not recorded at fair value required under ASC 825. This ASU is effective for years beginning after December 15, 2018. The Company does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan are paid directly by the Company and are not charged to the Plan.

ANTHONY THOMAS CANDY CO., INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS - Continued

December 31, 2016 and 2015

REPORTABLE TRANSACTIONS

The Plan's assets are participant-directed, and thus, the schedule of reportable transactions is not required.

INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investments of the Plan consist of balanced, debt and equity mutual funds maintained by Nationwide Financial Services, Inc. These investments are reported at the closing net asset values on the year end date.

The Plan also maintains a benefit-responsive investment contract. The contract is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses. Because the investment contract is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate, which is adjusted quarterly, was 2.05% and 1.51% for the years ended December 31, 2016 and 2015, respectively. There were no reserves against the contract value for credit risk of the contract issuer or otherwise. The difference between the contract value and fair value was not significant, so no adjustment was made.

Certain events limit the ability of the Plan to transact at contract value with the issuer such as mass layoffs, Plan termination, mergers, early retirement incentives or other events. The Plan administrator does not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with the participant is probable.

INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Financial Services, Inc., the custodian of the Plan, has certified to the completeness and accuracy of:

Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015.

Net appreciation/depreciation in fair value of investments, dividends, and interest, reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015.

Investments reflected on the schedule of assets (held at end of year).

INCOME TAX STATUS

The Company has executed an Adoption Agreement to be a participating employer in the Defined Contribution Prototype Plan as administered by Advanced Pension Solutions, Inc. ("APS"). The Internal Revenue Service has determined and informed APS by letter dated March 31, 2008 that the APS Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The APS Plan has been amended since receiving the determination letter. The Trustees under the guidance of the administrator believe that the APS Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

FAIR VALUE MEASUREMENTS

The Plan complies with ASC 820, *Fair Value Measurements and Disclosures*, to account for and report fair value. ASC 820 provides a single definition of fair value, a framework for measuring fair value and expanded disclosures concerning fair value. The standard defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Fair values of certain assets are determined based on the fair value hierarchy established in this standard, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that reflect assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The standard describes three levels within its hierarchy that may be used to measure fair value which are:

Level 1 – Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Values are generated from unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities. These unobservable inputs would reflect management's estimates of assumptions that market participants would use in pricing related assets or liabilities. Valuation techniques might include the use of pricing models, discounted cash flow models or similar techniques.

FAIR VALUE MEASUREMENTS – Continued

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2016 and 2015:

		Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Identical Assets Level (1)	Significant Other Observable Inputs Level (2)	Significant Unobservable Inputs Level (3)
	Fair Value			
December 31, 2016				
Money market funds	\$ 1,375	\$ -	\$ 1,375	\$ -
Balanced mutual funds	176,755	176,755	-	-
Bond mutual funds	198,143	198,143	-	-
Equity mutual funds	1,746,258	1,746,258	-	-
Total investment assets in the fair value hierarchy	<u>\$ 2,122,531</u>	<u>\$ 2,121,156</u>	<u>\$ 1,375</u>	<u>\$ -</u>
December 31, 2015				
Money market funds	\$ 1,067	\$ -	\$ 1,067	\$ -
Balanced mutual funds	182,741	182,741	-	-
Bond mutual funds	95,671	95,671	-	-
Equity mutual funds	1,635,817	1,635,817	-	-
Total investment assets in the fair value hierarchy	<u>\$ 1,915,296</u>	<u>\$ 1,914,230</u>	<u>\$ 1,067</u>	<u>\$ -</u>

The fair value of mutual funds are valued at the net asset value of shares held by the Plan at year end. As a result, they are considered Level 1.

The fair value of the money market funds are based on quoted prices for similar assets or liabilities in active markets. As a result, they are considered Level 2.

The benefit-responsive investment contract is excluded from the fair value table since it is reported at contract value.

DESCRIPTION OF PLAN – Continued

Administrative Expenses – The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan Document.

Forfeited Accounts – Forfeited balances of terminated participants' non-vested accounts are first used to pay Plan expenses or used to reduce future Company contributions. Forfeited accounts of \$1,050 and \$0 were used during the years ended December 31, 2016 and 2015, respectively. The balance of unallocated forfeitures at December 31, 2016 and 2015 was \$3,290 and \$3,932, respectively.

Termination of the Plan – Although it has not expressed any intention to do so, the Company may terminate or amend the Plan in whole or in part at any time. If such an event occurs, the participants become fully vested in their account balances.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan prepares its financial statements using the accrual basis of accounting. Following are the significant accounting policies followed by the Plan:

Basis of Accounting – The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and those common to employee benefit plans.

Contributions - Contributions are recorded as earned on the accrual basis when withheld from the participant's earnings.

Investment Valuation and Income Recognition – Investments are recorded at fair value as determined by publicly quoted market prices or net asset values at year end. Income from investments is recorded as earned on the accrual basis of accounting. Cost of investments is determined on a first-in first-out (FIFO) basis and is used to determine the realized gain or loss from disposition.

Investments in benefit-responsive investment contracts are presented at contract value rather than fair value since contract value is the amount at which participants may initiate and settle transactions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Income Taxes - The Plan is exempt from income taxes as a profit sharing plan under Internal Revenue Service Code Section 401(a). Accordingly, no provision for income taxes has been presented in the accompanying financial statements.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Income Taxes - Continued - The Plan complies with Accounting Standards Codification (ASC) 740-10 related to uncertain tax positions. The standard prescribes a recognition threshold and a measurement attribute for the financial recognition and measurement of a tax position taken or expected to be taken on a tax return. Plan administration is not aware of any tax positions taken by the Plan on its tax returns that they consider to be uncertain. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2013.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on the Plan administrator's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

Risks and Uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Standards – In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan elected to early adopt the provisions of this new standard as of December 31, 2016. The adoption of this ASU had no impact on the statements of net assets available for benefits or the statements of changes in net assets available for benefits as of December 31, 2016 and 2015.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960): Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. The Plan adopted the provisions of this new standard and the ASU has been applied retrospectively to December 31, 2015. The impact of adopting this ASU resulted in the elimination of footnote disclosures only and did not have an impact on the statements of net assets available for benefits or statements of changes in net assets available for benefits.

In January 2016, FASB issued ASU 2016-01, *Financial Instruments (Subtopic 825-10) - Overall Recognition and Measurement of Financial Assets and Financial Liabilities*. ASU 2016-01 amended ASC 825, *Financial Instruments*, and eliminates the requirement to disclose the fair value of financial instruments not recorded at fair value required under ASC 825. This ASU is effective for years beginning after December 15, 2018. The Company does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan are paid directly by the Company and are not charged to the Plan.

REPORTABLE TRANSACTIONS

The Plan's assets are participant-directed, and thus, the schedule of reportable transactions is not required.

INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investments of the Plan consist of balanced, debt and equity mutual funds maintained by Nationwide Financial Services, Inc. These investments are reported at the closing net asset values on the year end date.

The Plan also maintains a benefit-responsive investment contract. The contract is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses. Because the investment contract is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate, which is adjusted quarterly, was 2.05% and 1.51% for the years ended December 31, 2016 and 2015, respectively. There were no reserves against the contract value for credit risk of the contract issuer or otherwise. The difference between the contract value and fair value was not significant, so no adjustment was made.

Certain events limit the ability of the Plan to transact at contract value with the issuer such as mass layoffs, Plan termination, mergers, early retirement incentives or other events. The Plan administrator does not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with the participant is probable.

INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Financial Services, Inc., the custodian of the Plan, has certified to the completeness and accuracy of:

Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015.

Net appreciation/depreciation in fair value of investments, dividends, and interest, reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015.

Investments reflected on the schedule of assets (held at end of year).

INCOME TAX STATUS

The Company has executed an Adoption Agreement to be a participating employer in the Defined Contribution Prototype Plan as administered by Advanced Pension Solutions, Inc. ("APS"). The Internal Revenue Service has determined and informed APS by letter dated March 31, 2008 that the APS Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The APS Plan has been amended since receiving the determination letter. The Trustees under the guidance of the administrator believe that the APS Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

FAIR VALUE MEASUREMENTS

The Plan complies with ASC 820, *Fair Value Measurements and Disclosures*, to account for and report fair value. ASC 820 provides a single definition of fair value, a framework for measuring fair value and expanded disclosures concerning fair value. The standard defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Fair values of certain assets are determined based on the fair value hierarchy established in this standard, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that reflect assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The standard describes three levels within its hierarchy that may be used to measure fair value which are:

Level 1 – Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Values are based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Values are generated from unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities. These unobservable inputs would reflect management's estimates of assumptions that market participants would use in pricing related assets or liabilities. Valuation techniques might include the use of pricing models, discounted cash flow models or similar techniques.

FAIR VALUE MEASUREMENTS – Continued

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2016 and 2015:

		Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Identical Assets Level (1)	Significant Other Observable Inputs Level (2)	Significant Unobservable Inputs Level (3)
	Fair Value			
December 31, 2016				
Money market funds	\$ 1,375	\$ -	\$ 1,375	\$ -
Balanced mutual funds	176,755	176,755	-	-
Bond mutual funds	198,143	198,143	-	-
Equity mutual funds	1,746,258	1,746,258	-	-
Total investment assets in the fair value hierarchy	<u>\$ 2,122,531</u>	<u>\$ 2,121,156</u>	<u>\$ 1,375</u>	<u>\$ -</u>
December 31, 2015				
Money market funds	\$ 1,067	\$ -	\$ 1,067	\$ -
Balanced mutual funds	182,741	182,741	-	-
Bond mutual funds	95,671	95,671	-	-
Equity mutual funds	1,635,817	1,635,817	-	-
Total investment assets in the fair value hierarchy	<u>\$ 1,915,296</u>	<u>\$ 1,914,230</u>	<u>\$ 1,067</u>	<u>\$ -</u>

The fair value of mutual funds are valued at the net asset value of shares held by the Plan at year end. As a result, they are considered Level 1.

The fair value of the money market funds are based on quoted prices for similar assets or liabilities in active markets. As a result, they are considered Level 2.

The benefit-responsive investment contract is excluded from the fair value table since it is reported at contract value.
