Note 1 Description of Plan

The Sun Products Corporation Retirement Savings Plan ("the Plan") was established on September 15, 2008 and restated effective January 1, 2016. On July 26, 2008, The Sun Products Corporation ("the Company") acquired the North American laundry business of Unilever, P.L.C. through an Asset Purchase Agreement. The Plan was established to benefit the salaried employees who formerly worked for Unilever, P.L.C., and newly hired employees of The Sun Products Corporation located in Connecticut and Maryland. On January 1, 2010, the Plan acquired the HUIH Detergents, Inc. 401(k) Profit Sharing Plan. The HUIH Plan transferred the plan assets into Sun Products Corporation Retirement Savings Plan.

The following description provides only general information. Interested parties should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a Section 401(k) defined contribution plan covering all non-union employees of the Company. Employees are eligible to participate on the first day of the payroll period following the date of hire and will be automatically enrolled on the first day of the payroll period following 60 days of employment. Employees may opt out of automatic enrollment. Otherwise, 3% of compensation will be deducted and deposited in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan also allows participants to obtain loans from the Plan in accordance with the Plan's loan policy.

B. Contributions

The Plan is funded by contributions from its participants and the Company. Participants may make pre-tax contributions from 1% to 80% of eligible compensation, which the Company matches, \$ 1 for \$ 1 up to 3% of compensation. The Company will then contribute \$.50 for every dollar of the next 2% of the participants compensation contributed as elective deferrals. The maximum the Company will contribute is 4% of eligible compensation.

At the end of the Plan Year, the Company will make true-up contributions to a participant's account if matching employer contributions ceased during the Plan year due to a participant having made accelerated contributions. The Company may elect to make a discretionary profit sharing contribution to the Plan. Profit sharing contributions are allocated based on a participant's eligible compensation in relation to all such eligible participants for the Plan Year. An allocation of profit sharing contribution for any Plan Year may not exceed 2% of any such eligible participant's compensation. All employees must be employed on December 31 of the plan year to be eligible for profit sharing.

Note 1 Description of Plan (cont'd)

C. Participant's account

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$ 1,000 up to a maximum of \$ 50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

E. Vesting

Participants are immediately vested in their voluntary contributions, employer matching contributions, employer fail safe contributions, and rollovers or transfers from other plans. Participants will be fully vested in employer profit sharing contributions when they complete at least three years of vested service. A participant will be credited with a year of service for each Plan Year during which they complete at least 1,000 hours of service. Participants may also receive credit for years of vested service while employed by Laundry Division of Unilever. For any employee employed by the Employer prior to January 4, 2010, years of service shall be calculated in accordance with the Plan then in effect.

F. Payment of benefits

Upon termination of service due to retirement, disability, death or other separation from service, the participant may elect to receive the payment of such benefits as a single lump sum distribution, a partial payment or installment payments. A lump sum distribution is automatic for account balances of \$ 1,000 or less.

Note 1 Description of Plan (cont'd)

G. Forfeitures

At December 31, 2016 and 2015 forfeited non-vested accounts totaled \$ 20,779 and \$ 29,662, respectively. These accounts can be used to pay Plan expenses or used to reduce future employer contributions. During 2016, employer contributions were reduced by \$ 29,662 from forfeited nonvested accounts.

Note 2 Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates in the preparation of financial statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Administration Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 Summary of significant accounting policies (cont'd)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Income tax status

The Internal Revenue Service (IRS) has determined and informed the company by a letter dated October 5, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Benefit payments

Benefit payments are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The date to which events occurring after December 31, 2016, the date of the most recent Statement of Net Assets Available for Benefits, have been evaluated for possible adjustment to the financial statements or disclosure is September 28, 2017, which is the date on which the financial statements were available to be issued.

Note 2 Summary of significant accounting policies (cont'd)

Change in accounting principle

During 2016, the Plan adopted the provisions of Accounting Standards Update 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962)*. Under the amendments, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. The change in accounting under these updates affects the reporting of fully benefit-responsive investment contracts by no longer measuring them at fair value, nor providing a reconciliation of contract value to fair value, when those measures differ, on the face of the financial statements. These updates have been adopted by the Plan on a retrospective basis. As a result, the common/collective trust fund as of December 31, 2015 has been increased by the effect of the adjustment from fair value to contract value in the amount of \$ 47,810. Total assets available for benefits remain unchanged.

Note 3 Fair value measurements

FASB Accounting Standards Codification 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"> ◆ Quoted prices for similar assets or liabilities in active markets; ◆ Quoted prices for identical or similar assets or liabilities in inactive markets; ◆ Inputs other than quoted prices that are observable for the asset or liability; ◆ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Note 3 Fair value measurements (cont'd)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds - valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Dividends	<u>4,314,717</u>
	<u>\$ 8,057,971</u>
Interest income on notes receivable from participants	<u>\$ 285,167</u>

Note 5 Fully benefit-responsive investment contracts

The Plan holds a traditional fully-benefit responsive guaranteed investment contract with New York Life Insurance Company (NYL) totaling \$ 16,533,167 for 2016 and \$ 16,684,574 for 2015. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include (1) the Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code, (2) premature termination of the contracts, (3) Plan termination or merger, (4) changes to the Plan's prohibition on competing investment options, (5) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 6 Related-Party transactions and party-in-interest transactions

The Plan invests in shares of mutual funds managed by an affiliate of John Hancock Trust Company LLC (JH). JH acts as trustee for only these investments as defined in the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

JH provides certain administrative services to the Plan pursuant to a Service Agreement between the Company and JH. JH receives revenue from mutual fund service providers for services JH provides to the funds. This revenue is used to offset certain amounts owed to JH for its administrative services to the Plan.

If the revenue received by JH from such mutual fund service providers exceeds the amount owed under the Service Agreement, JH remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocate to the accounts of the participants. During 2016, excess amounts totaled \$ 234,081, and are included in other income on the statement of changes in net assets available for benefits. The Plan or Plan Sponsor may make a payment to JH for administrative expenses not covered by revenue sharing.

Note 7 Plan termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
