NOTE A - DESCRIPTION OF THE PLAN

The following description of the Meritas 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was formed and adopted by The Village School, L.P. (the Village) effective July 1, 1989. In 2007, the Village was acquired by Meritas, LLC (the Company). The Plan name was changed to Meritas 401(k) Plan effective April 1, 2010. The Plan is a defined contribution plan covering all employees of the Company who are age 21 years or older, with a service requirement of one month. The Plan is also a salary reduction plan, or 401(k) plan, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, up to the Plan agreement and statutory limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has the right to make discretionary contributions. For the year ended December 31, 2016, the discretionary Company contribution was $192,954. Contributions are subject to certain limitations.

Rollovers

Any employee may roll over funds from prior qualified employer retirement plans after meeting eligibility requirements for participation in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (1) the Company's contribution and (2) Plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Investment Options

The Plan currently offers an insurance investment contract with American United Life Insurance Company (AUL, or the Custodian), which includes a guaranteed investment contract or general account (AUL Fixed Fund) and pooled separate investment account options for participants.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is ratably vested over three years of credited service.

Forfeitures

Forfeitures represent the portion of non-vested benefits remaining from employees who have withdrawn from the Plan before becoming fully vested, which can be used to reduce administrative expenses or Company contributions. Forfeited non-vested accounts from Company contributions totaled approximately $11,000 and $-0- at December 31, 2016 and 2015, respectively. During 2016 and 2015, the Company used approximately $-0- and $500, respectively, of forfeitures to offset Company contributions. There were approximately $1,300 and $12,000 of forfeitures used to reduce administrative expenses in 2016 and 2015, respectively.

Administrative Expenses

A participant with a loan is directly charged a processing fee upon origination of the loan. Other administrative costs of the Plan are generally paid by the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or $50% of their account balance, whichever is less. A participant cannot have more than one outstanding loan at any given time, unless a second loan was in existence when the Plan was amended to limit the number of loans from two to one. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates, as determined by the Plan administrator, and fixed as of the loan origination date. Principal and interest are paid ratably through payroll deductions over a period generally not exceeding five years from the date of the loan.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in the form of a life or joint and survivor annuity. For termination of service for other reasons and for amounts less than $5,000, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based on the terms of the Plan agreement. No allowance for credit loss has been recorded as of December 31, 2016 and 2015.

Investment Valuation and Income Recognition

Except for the Plan's investment option in the AUL Fixed Fund (note E), investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent),* which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2016. Management elected to adopt the provisions of this standard during the current year. Accordingly, the amendment was retrospectively applied, resulting in the removal of the Plan's investment for which fair value is measured using the NAV per share as practical expedient from categorization within the fair value hierarchy.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practice Expedient.* This three-

part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. Part III is not applicable to the Plan, but management elected to adopt Part I and Part II during the current year.

Accordingly, the amendments were retrospectively applied, resulting in the Plan's investment in the AUL fixed fund (note E) being reported only at contract value in the accompanying statements of net assets available for benefits and the removal of certain fair value disclosures related to this investment. The disclosures of individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type, and the investment strategy for the Plan's investment measured at NAV have been removed, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

NOTE C - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AUL has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts - Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments are traded on a daily basis and there is no restriction on redemptions.

The following table summarizes pooled separate investments for which fair value is measured using NAV per share as practical expedient as of December 31, 2016 and 2015.

	Fair value as of December 31, 2016	Fair value as of December 31, 2015
Pooled separate accounts		
International (a)	$ 287,025	$ 256,472
Growth (b)	918,420	1,051,595
Value (c)	677,696	517,486
Index (d)	753,788	623,664
Asset allocation (e)	5,857,053	5,021,991

(a) The international fund invests primarily in international equity securities.

(b) The growth fund invests in common stocks and other equity securities in emerging markets to provide an opportunity for a strong investment return.

(c) Value funds invest at least 80% of assets in common stocks and other equity securities in U.S. companies with very large market capitalization. They may invest in securities of small companies that offer growth potential.

(d) Index funds invest in equity securities to mirror the performance of public indices.

(e) Asset allocation funds provide investment returns in line with retirement age.

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive guaranteed investment contract with AUL (AUL Fixed Fund or GIC). AUL maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

NOTE F - TAX STATUS

The Plan is currently under a national Internal Revenue Service (IRS) approved prototype plan sponsored by AUL that has received a favorable determination letter dated March 31, 2008, under the applicable provisions of the Internal Revenue Code (IRC). Companies who adopted this plan without changes could rely on the sponsor's determination letter. The Company adopted the AUL prototype plan without any changes. However, the Plan has been amended since the latest determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires management of the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has

concluded that, as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE G - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Company provides to the Plan certain accounting and administrative services for which no fees are charged. Certain Plan investments are managed by AUL. AUL is considered a party-in-interest, as defined by ERISA, since it provides services to the Plan as investment custodian; therefore, these transactions qualify as party-in-interest transactions.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following table reconciles net assets available for benefits per the financial statements as of December 31, 2016 and 2015, to that reported on the Form 5500:

	2016	2015
Net assets available for benefits per financial statements	$9,118,454	8,152,159
Excess contributions payable to participants	-	26,080
Net assets available for benefits per Form 5500	$9,118,454	$8,178,239

The following is a reconciliation of net increase per the financial statements for the year ended December 31, 2016, to the Form 5500:

Net increase per financial statements	966,295
Less excess contributions payable to participants	(26,080)
Net income per Form 5500	$940,215

NOTE I - SUBSEQUENT EVENTS

Plan management evaluated the Plan's December 31, 2016, financial statements for subsequent events through October 6, 2017, the date the financial statements were available to be issued. Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
