The following description of the AmRisc, LP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Effective December 31, 2016, the Plan was merged into the BB&T Corporation 401(k) Savings Plan ("BB&T Plan"). Plan investments were transferred in-kind to the BB&T Plan, including notes receivable from participants.

General

The Plan was a defined contribution plan available to qualifying employees of AmRisc, LP (the "Company", "Plan Sponsor" or "Employer"). The Plan, which was established effective January 1, 2006, was amended and restated as of January 1, 2014. Oversight of the Plan was provided by members of management. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility for Participation

The Plan covered substantially all employees of AmRisc, LP who met age and service requirements. Employees were eligible to make salary reduction contributions immediately after employment with the Company and were eligible to receive matching contributions after attaining the age of 21 with one year of continuous employment in which they had worked at least 1,000 hours. Participation in the Plan was based on voluntary election by each employee.

Contributions

Participants could have elected to contribute a set dollar amount or a percentage of their eligible earnings, as defined in the Plan Agreement, on a pre-tax basis subject to the Internal Revenue Code ("IRC") limitations. Eligible participants who had attained the age of 50 could have made catch-up contributions. The Company matched 50 percent up to 6 percent of compensation that a participant contributed to the Plan, as well as a contribution equal to 3 percent of compensation (i.e. 'Safe Harbor contribution'). The Plan Sponsor could have made an additional annual contribution at the discretion of the Board. This discretionary contribution was allocated to participants based on compensation. To be eligible for the discretionary contribution, participants must have been employed on the last day of the Plan year and have 1,000 hours of service in that Plan year. For 2016, the Company made a discretionary contribution of \$597,341. Participants could have made changes in their contribution percentage at any time. Allocations among fund options offered by the Plan could have been changed on a daily basis. Participants could have contributed funds from other tax-qualified plans as rollover contributions. Contributions were subject to certain Internal Revenue Service ("IRS") limitations.

Vesting

Participants were vested immediately in their contributions, employer matching contributions and actual earnings allocated to their account.

Notes Receivable from Participants

Participants could have borrowed from their account balances an amount not to exceed the lesser of \$50,000 (less adjustments as required by the IRS) or 50 percent of their account balance. The minimum loan amount allowed by the Plan was \$1,000. Only one loan could have been taken during the Plan year and a participant could have only one loan outstanding at any time. The interest rate charged on amounts borrowed was equal to BB&T Corporation's prime lending rate plus 1 percent at the loan origination date. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

Upon termination, death or disability, a participant could elect to have distributions paid from their account in installments, a lump sum or any combination of the two. Hardship withdrawals and other in-service withdrawals were allowed by the Plan in accordance with Plan provisions and IRS regulations.

Participant Accounts

Each participant's individual account was credited with the participant's contributions and allocations of matching contributions, Safe Harbor contributions, discretionary contributions, earnings (losses) on the account and administrative expenses. Allocations of earnings (losses) and expenses were based upon the market activity and fees of the investment options selected by the participant. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Forfeitures

Forfeitures represent nonvested employer matching contributions. At December 31, 2015, forfeited accounts totalled \$1,147. Forfeitures were used to reduce Employer contributions in the following plan year.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements were prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Administrative Expenses and Investment-Related Fees

Administrative expenses were paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that were paid by the Plan Sponsor are excluded from these financial statements. The Plan Sponsor paid certain administrative fees related to professional services provided to the Plan (see Note 8). Investment-related fees were included in net appreciation (depreciation) of fair value of investments.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees were recorded as administrative expenses. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan Agreement. No allowance for credit loss was recorded as of December 31, 2016 or 2015.

Investment Valuation and Income Recognition

Participants could have directed the investment of their contributions as well as Employer contributions among various mutual funds, common/collective trusts, and an associate insured deposit account, each of which offered different degrees of risk and return. The Plan's investments were stated at fair value. The Employee Benefits Plan Committee determined the Plan's valuation policies utilizing information provided by the custodian. Refer to Note 5 for detailed disclosures of methodologies used to determine the recorded fair value of Plan investments.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was accrued when earned. Dividend income on mutual funds was recorded on the ex-dividend date. Capital gain distributions on mutual funds were included in dividend income. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation/depreciation in the fair value of its investments, which consists of the realized gains or losses and unrealized appreciation or depreciation on investments held at year end.

Notes to Financial Statements

December 31, 2016 and 2015

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements* ("Topic 820"), provides a framework for measuring fair value which requires that an entity determine asset and liability fair values based on the exit price from the principal market for the asset or liability being measured. Fair value measurements are discussed further in Note 5.

Payment of Benefits

Benefits claims were recorded when they had been approved for payment and paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the dates of the financial statements and the reported changes in net assets available for benefits during the reported periods. Actual results could differ from those estimates.

3. New Accounting Pronouncements

In May 2015, the FASB issued new guidance related to *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share*. This guidance modifies the disclosure requirements for certain investments in the Plan's financial statements. The Plan adopted this guidance effective January 1, 2016. The adoption of this guidance did not have a material effect on the Plan's financial statements.

4. Information Certified by the Trustee

Branch Banking and Trust Company (the "Trustee") has been retained to perform trustee responsibilities for the Plan.

The following is a summary of the Plan's financial information and data disclosed in the accompanying financial statements which has been certified by the Trustee at December 31, 2016 and 2015 and for the year ended December 31, 2016 as complete and accurate in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rule and Regulations for Reporting and Disclosure under ERISA:

	2016	2015
Investments, at fair value	\$ -	\$ 21,282,585
Notes receivable from participants	-	316,089
Interest	26,876	
Dividends	265,905

5. Fair Value of Financial Instruments

Topic 820 defines fair value as the exchange price that would be received on the measurement date to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants.

Topic 820 also establishes a three-level fair value hierarchy that describes the inputs used to measure assets and liabilities. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1

Level 1 asset and liability fair values are based on quoted prices in active markets for identical assets and liabilities. Level 1 assets and liabilities include mutual funds traded on an exchange or listed market.

Mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end funds that are registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Level 2

Level 2 asset and liability fair values were based on observable inputs that include: quoted market prices for similar assets or liabilities in an active market not defined by Level 1; quoted market prices for identical or similar assets or liabilities in markets that were not active; or other inputs that were observable in the market and could have been corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities included a common/collective trust.

The fair value of the common/collective trust was based on NAV, as provided to the Trustee. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. Participants' transactions (purchase and sales) could have occurred daily. The common/collective trust had a readily determinable fair value in that NAV was determined and made available to the Plan daily, and was the basis for current transactions. The common/collective trust had a daily redemption frequency, redemption notice period of 30 days and no unfunded commitments.

Level 3

Level 3 assets and liabilities are financial instruments whose value was calculated by the use of pricing models and/or discounted cash flow methodologies, as well as financial instruments for which the determination of fair value required significant management judgment or estimation. These methodologies could have resulted in a significant portion of the fair value being derived from unobservable data. As of December 31, 2016 and 2015, there were no Level 3 assets or liabilities.

The preceding methods described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

Notes to Financial Statements

December 31, 2016 and 2015

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	December 31, 2015		
	Total	Level 1	Level 2
Mutual funds	\$ 19,790,722	\$ 19,790,722	\$ -
Common/collective trust	1,491,863	-	1,491,863
Total investments at fair value	<u>\$ 21,282,585</u>	<u>\$ 19,790,722</u>	<u>\$ 1,491,863</u>

There were no transfers between levels during 2016 or 2015.

6. Tax Status

The Plan was designed under the provisions of a non-standardized 401(k) prototype plan offered by the Trustee. The IRS has determined and informed the Trustee by a letter dated March 31, 2008 that the prototype utilized by the Plan is designed in accordance with applicable sections of the IRC. Although there have been amendments to the Plan since this opinion letter date, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

7. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks.

8. Related Party and Party-In-Interest Transactions

During 2016, included in the Plan investment options were mutual funds advised by a subsidiary of BB&T, and an associate insured deposit account with Branch Banking & Trust Company. Income and transactions related to these investments were party-in-interest transactions under ERISA. During the year ended December 31, 2016, interest on the associate insured deposit account totalled \$161 and dividends on investments in mutual funds that were advised by a subsidiary of BB&T totalled \$30,585.

Recordkeeping and trust services were provided by a related party, the Trustee. The cost of administrative services rendered by the Trustee was \$742 for the year ended December 31, 2016. The expenses paid through the Plan included only transactional charges such as loan issuance fees, Qualified Domestic Relations Order fees and check reissues.

9. Subsequent Events

The Plan has evaluated subsequent events and determined that there were none requiring adjustment or disclosure through October 4, 2017, the date the financial statements were available to be issued.
