1. DESCRIPTION OF PLAN:

The following description of the Cheviot Savings Bank 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Cheviot Savings Bank (the "Bank" and "Employer") maintained the Cheviot Savings Bank 401(k) Plan & Trust which was a qualified, tax-exempt profit sharing plan with a salary deferral feature under Section 401(k) of the Internal Revenue Code (the "Code"). Employees who had attained age 21 and completed one year of employment were eligible to participate. Employees were entitled to enter the Plan on the first January 1 or July 1 occurring after the employee became eligible to participate in the Plan.

In May 2016, MainSource Financial Group acquired all of the common stock of Cheviot Financial Corporation. As part of this acquisition, Cheviot Savings Bank, a wholly owned subsidiary of Cheviot Financial Corporation, was merged into MainSource Bank, a wholly owned subsidiary of MainSource Financial Group. The Plan was amended to approve the termination of the Plan due to the acquisition of Cheviot Financial Corporation by MainSource Financial Group. All participants became fully vested at the termination date. The Plan was terminated and all assets were disbursed by December 21, 2016.

Contributions

Under the Plan, participants could elect to defer a percentage of their compensation each year instead of receiving that amount in cash equal to the lesser of (i) a maximum percentage of compensation as indicated in a notice received from the Plan administrator or (ii) an indexed dollar amount set by the Internal Revenue Service, which was \$18,000 for 2016. In addition, for participants that were age 50 or older by the end of any taxable year, the participant could elect to defer additional amounts (called "catch-up contributions") to the Plan. The additional amounts could be deferred regardless of any other limitations on the amount that a participant may defer to the Plan. The maximum catch-up contribution that a participant could make in 2016 was \$6,000.

Each plan year, Cheviot Savings Bank would contribute to the Plan the following amounts: (a) the total amount of the salary reduction a participant elected to defer; (b) in the discretion of Cheviot Savings Bank, a matching contribution equal to a percentage of the amount of the salary reduction a participant elected to defer; and (c) a discretionary amount equal to 3% of a participant's plan compensation (generally the sum of a participant's Form W-2 wages and other compensation for the year plus a participant's before-tax contributions to the Plan and any other benefit plans of Cheviot Savings Bank, up to a legal limit (which was \$265,000 for 2016) for the year plus 3% of a participant's plan compensation for the year in excess of 50% of the Social Security Taxable Wage Base for old-age retirement benefits for the year (\$59,250 for 2016) plus any additional amount that did not match a participant's salary reduction and that was determined by Cheviot Savings Bank in its discretion.

Participant accounts

Each participant's account was credited with the participant's contributions and the Bank matching contributions, as well as allocations of the Bank's additional discretionary contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant

transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Bank's contribution portion of their accounts was based on years of continuous service. A participant was 100 percent vested after six years of credited service. All participants became fully vested on the date of termination.

Payment of benefits

Plan benefits were paid to each participant in the form of a single cash payment at normal retirement age unless earlier payment was selected. If a participant died prior to receipt of the entire value of his or her Plan accounts, payment would generally have been made to the beneficiary in a single cash payment as soon as possible following the participant's death. Payment would be deferred if the participant had previously elected a later payment date. If the beneficiary was not the participant's spouse, payment would be made within one year of the date of death. If the spouse was the designated beneficiary, payment would be made no later than the date the participant would have attained age 70 1/2. Normal retirement age under the Plan was age 65. Early retirement age was age 59.5 with six years of service.

Forfeited accounts

At December 31, 2015, the forfeited nonvested accounts totaled \$2,701. These balances were added to the employer discretionary contribution and allocated to eligible participants.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan were prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment advisers and custodians.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Payment of benefits

Benefits were recorded when paid.

Expenses

Certain expenses of maintaining the Plan were paid directly by the Bank and were excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Accounting changes

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. The Plan elected to adopt this ASU in 2016. This change had no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS:

The Plan management elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Capital Bank and Trust Company and First Bankers Trust Services, Inc., the custodians, certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 21, 2016 and the related investment activity reflected in the statement of changes in net assets available for benefits for the period from January 1, 2016 to December 21, 2016.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Certificate of deposit fund: The fair value of certificates of deposit fund was calculated using a discounted cash flow analysis that calculates the present value of the projected cash flows from the portfolio. Interest rates used were based on current market rates of comparable instruments.

The following table sets forth by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2015:

	<u>Investments at fair value as of December 31, 2015</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 5,120,175	-	-	5,120,175
Common stock	3,591,880	-	-	3,591,880
Certificate of deposit	<u>-</u>	<u>1,092,973</u>	<u>-</u>	<u>1,092,973</u>
Total investments at fair value	\$ <u>8,712,055</u>	<u>1,092,973</u>	<u>-</u>	<u>9,805,028</u>

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

In 2016, the Plan purchased 9,466 common shares of the Cheviot Financial Corp. at a cost of \$140,144. Cheviot Financial Corp. was the holding company of Cheviot Savings Bank. As part of the acquisition, all common shares of Cheviot Financial Corp. were converted to MainSource Financial Group common shares. All common shares of MainSource Financial Group were subsequently sold to cover cash outflows associated with the participant distributions.

The Plan had an investment in a certificate of deposit fund ("CD's") in which participants could invest in certificates of deposit of the Cheviot Savings Bank. The CDs were held in safe keeping at Cheviot Savings Bank. The Bank charged no fees on this fund.

Certain Plan investments were shares of mutual funds managed by American Funds and Capital Bank and Trust Company. Capital Bank and Trust Company was the custodian of the mutual funds as defined by the Plan and, therefore, these transactions qualified as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. The Bank paid directly any other fees related to the plan's operations.

6. TAX STATUS:

The Bank adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Services (IRS) dated August 20, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has since been amended. While the Bank did not obtain its own determination letter on the Plan, management believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
