Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. ("BNY"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Other Matter – 2015 Financial Statements

The financial statements as of December 31, 2015 were audited by Babush, Neiman, Kornman & Johnson, LLP (“BNKJ”), who merged with Carr, Riggs & Ingram, LLC as of March 1, 2017. As permitted by 29 CFR 2520.103-8 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed BNKJ not to perform, and they did not perform, any auditing procedures with respect to the information certified by BNY. Their report, dated October 4, 2016, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1: PLAN DESCRIPTION

The following description of the Riverwood International Employees Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more information.

General

The Plan is a noncontributory defined benefit pension plan covering all eligible salaried employees at Graphic Packaging International, Inc. (the “Company”) who have 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Significant Event – Transfers from Plan

At its meeting on November 10, 2016, the Retirement Committee adopted and approved resolutions, effective as of the close of business on December 31, 2016, to merge the Plan, Graphic Packaging Retirement Plan, Riverwood International Hourly Retirement Plan, Field Container Company, L.P. and Related Entities Pension Plan and Mid-America Packaging Retirement Plan, which are all sponsored by the Company and participants in the Graphic Packaging International, Inc. Master Trust, into the Altivity Pension Plan for Hourly Employees, without modifying the accrued benefits payable to participants and beneficiaries under any of the plans. Further, the resolution renames the Altivity Pension Plan for Hourly Employees to GPI US Consolidated Pension Plan. As of December 31, 2016, the transfer of the Plan assets to the GPI US Consolidated Pension Plan is recorded as a Transfer from plan payable in the Statements of Net Assets Available for Benefits and as a Transfer from plan in the Statements of Changes in Net Assets Available for Benefits.

Funding Policy

The Company’s funding policy is to make contributions to the Plan in amounts sufficient to provide for the participants’ benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015. In accordance with the requirements of the Pension Protection Act of 2006 the Plan has elected Funding Relief.

Pension Benefits

Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who are at least age 55 and have 10 years of vesting service. Effective January 1, 2007, normal retirement benefits under the Plan are based upon the participant’s years of benefit service and average final salary (generally the highest four consecutive years of pensionable earnings in the last 10 years of employment). Early retirement benefits are based upon the participant’s earned benefit reduced by 5% for each year prior to normal retirement age or age 62 for participants with at least 25 years of vesting service. For participants hired prior to January 1, 2007, the accrued benefit as of December 31, 2006 applies as a grandfathered minimum benefit.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Pension Benefits (Continued)

Effective December 31, 2007, the Plan was closed to employees hired, rehired, or transferred into an eligible employment class on or after January 1, 2008. Effective July 1, 2011, if a member was under age 50 or has fewer than five years of vesting service under the Plan, his benefit service was frozen as of June 30, 2011 and his average final salary and covered compensation was frozen as of December 31, 2011. Members who were at least age 50 with at least five years of vesting service as of July 1, 2011, continue to accrue benefits under the Plan but the percentage of average final salary for service in excess of 35 years accrued after June 30, 2011 changed from 1.20% to 0.90%.

Participants may elect to receive their benefits in various forms such as a single life annuity or other optional forms of payment under the Plan.

Effective January 1, 2015, the Plan was amended and restated. This restatement incorporates all amendments since the previous restatement, updates the Plan's definition of "Spouse" to comply with guidance from the Internal Revenue Service ("IRS"), and updates the Plan's provisions related to funding-based benefit restrictions under the Internal Revenue Code ("IRC").

Effective November 1, 2015 and 2014, a Special Commencement Right was implemented to allow for a lump sum window election for certain terminated vested participants.

Death and Disability Benefits

If an active participant dies after becoming eligible for a benefit under the Plan but before commencing payment, their surviving spouse will be entitled to a benefit. Eligible participants will continue to accrue vesting and benefit service under the Plan if they meet the criteria to receive benefits under the Company's long term disability program. Disabled participants may elect to commence payment of their benefit under the early retirement or vested retirement benefit provisions of the Plan if they meet the requirements for these benefits. Vesting and benefit service accruals will cease if a disabled participant elects to commence prior to normal retirement.

Vesting

An employee must complete five years of service to become eligible to receive a benefit under the Plan. If an employee does not complete five years of service, they forfeit the right to receive benefits under the Plan. Participants hired on or after January 1, 2007 no longer become immediately vested upon attainment of age 55.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

Investments in the Graphic Packaging International, Inc. Master Trust ("the Master Trust") are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the GPI Master Trust's net income which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Valuation of Financial Instruments

The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in a Master Trust, which invests in a combination of stocks, bonds, mutual funds, common/collective trusts, forward, futures and swap contracts, and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Company.

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation. There is no effect on the net assets and changes in net assets previously reported due to these reclassifications.

NOTE 3: INTEREST IN MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the Master Trust. The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following investment information was obtained from data that has been prepared and certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., in accordance with DOL Regulations, and was not subjected to any auditing procedures, except for comparing such information to the amounts included in the Plan's financial statements.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 3: INTEREST IN MASTER TRUST (UNAUDITED INFORMATION) (CONTINUED)

At December 31, 2016 and 2015, the assets of the Master Trust were held by the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust was approximately 27% at December 31, 2016 and 2015.

Total investment income	\$ 76,609,794	\$ 6,236,708

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED INFORMATION)

Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC") 820, *Fair Value Measurements* ("ASC 820"), defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are observable as of the reporting date. These inputs include quoted prices for similar assets in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED INFORMATION) (CONTINUED)

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Common/collective trusts (the "CCTs"): The Master Trust's interest in the CCTs are valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the CCTs, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2016 and 2015, there were no unfunded commitments or redemption restrictions on the Plan's investment in the CCTs.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

103-12 investment entity (the "LLC"): The Master Trust's interest in the LLC is stated at fair value. The value is determined by the NAV, based on the underlying investments, as reported by the LLC on the valuation date. As of December 31, 2016 and 2015, there were no unfunded commitments or redemption restrictions on the Plan's investment in the LLC.

U.S. government, corporate debt, state and municipal and foreign government securities: Valued at the bid prices or the average of the bid and asked prices from published sources.

Forward contracts: Valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Futures contracts: Valued at the last settlement price at the end of each day on the exchange upon which they are traded.

Swap contracts: Valued by an independent pricing service that is widely used by market participants. The swap contracts are priced via observable market assumptions with appropriate adjustments for liquidity and credit risk and are cleared daily through Chicago Mercantile Exchange.

Cash and cash equivalents, including foreign currency: Valued at cost, which approximates fair value.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 4: FAIR VALUE MEASUREMENTS (UNAUDITED INFORMATION) (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2016 and 2015. There were no level 3 investments as of December 31, 2016 and 2015.

NOTE 5: DERIVATIVES

The Master Trust transacts in a variety of derivative instruments including forward, futures, and swap contracts. Certain of the investment managers are permitted to use certain specified types of derivatives instruments as part of their respective strategies. The use of derivatives instruments is primarily as a risk management tool and not for trading purposes with each instrument's primary risk exposure being foreign exchange, interest rate, credit and market risk. Use of derivatives for the purpose of speculation is prohibited.

Forward Contracts

The Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

NOTE 5: DERIVATIVES (CONTINUED)

Futures Contracts

Beginning in 2016, the Master Trust enters into exchange traded U.S. government securities futures contracts to primarily mitigate interest rate risk by managing the duration and curve structure of the Master Trust's investments.

Swap Contracts

Beginning in 2016, the Master Trust enters into interest rate swap contracts to primarily mitigate interest rate risk by managing the duration of the Master Trust's fixed income investments.

Upon entering into futures and swap contracts, the Plan is required to deposit either in cash an amount ("initial margin") equal to a certain percentage of the nominal value of the contract as collateral. Pursuant to the futures and swap contracts, the Plan agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin" which are generally settled daily and are included in the net appreciation (depreciation) of fair value of investments.

The following table presents the gross values of the derivatives and cash being held as collateral at the broker included in the investments of the Master Trust as of December 31, 2016 and 2015.

<i>As of December 31, 2016</i>	Fair Market Value of Assets	Fair Market Value of Liabilities	Total Fair Market Value	Collateral Cash

The derivatives within the Master Trust are subject to enforceable master netting arrangements or similar agreements. Under the terms of the master netting agreements, all transactions between the Trust and the counterparty constitute a single business relationship such that in the event of default, the non-defaulting party is entitled to set off claims and apply property held by that party in respect of any transaction against obligations owed. Any payments, deliveries or other transfers may be applied against each other and netted.

NOTE 6: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service and average final salary, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 6: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2015 were:

Interest rate:	6.20% per year
Mortality basis - healthy lives:	RP - 2014 white collar table adjusted back to 2006 by removing Scale MP - 2014 and the RP - 2014 disabled retirement table adjusted back to 2006 by removing Scale MP - 2014
Normal retirement age:	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rate used to determine the actuarial present value of accumulated plan benefits was changed to 6.20% from 7.35%. The mortality rates used to determine the actuarial present value of accumulated plan benefits were changed to RP-2014 white collar adjusted back to 2006 by removing Scale MP-2014 and the RP-2014 disabled retirement table adjusted back to 2006 by removing Scale MP-2014. The effect of these changes was to increase the actuarial present value of accumulated plan benefits by \$19,768,617.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

Riverwood International Employees Retirement Plan Notes to Financial Statements

NOTE 7: PLAN TERMINATION (CONTINUED)

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

NOTE 8: INCOME TAX STATUS

The Plan obtained a determination letter dated June 10, 2015, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the letter, the plan administrator, the plan actuary and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9: PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2016 and 2015, the Plan incurred and accrued trustee and miscellaneous fees of \$308,944 and \$198,747, actuary fees of \$64,066 and \$14,856, and investment management fees of \$433,336 and \$470,243, respectively.

NOTE 10: SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 10, 2017, which is the date the financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under the *Subsequent Events* topic of the FASB ASC.
