EDEN FOODS, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Eden Foods, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code, including a 401(k) salary reduction provision, and is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to enable employees of Eden Foods, Inc. (the Company) to accumulate capital for retirement.

Eligibility: An employee becomes a participant of the Plan on the first day of the month coinciding with the employee having completed three months of service and attained the age of 18.

Contributions: Participants may elect to contribute up to the maximum percentage of their annual compensation permissible under Section 402(g) of the Internal Revenue Code not to exceed the limits of Code Sections 401(k), 404 and 415. The Company's matching contribution shall be determined by the company with respect to each plan year.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions to any of the investment options. Participants can individually direct both employee and employer contributions made on their behalf.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Forfeited Accounts: At December 31, 2016 and 2015 forfeited non-vested accounts totaled \$9,384 and \$9,842 respectively. These accounts will be used to reduce future employer contributions or plan expenses. The total of forfeitures applied to employer contributions totaled \$31,586 in 2016.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 20% vested after their second year of credited service and an additional 20% each subsequent year until 100% vested after six years of credited service.

Payment of Benefits: Upon termination of service, a participant receives a lump sum distribution of the vested portion of his or her account.

Notes Receivable from Participants: The Plan provides that participants may borrow from their account a minimum of \$1,000 up to 50% of their vested account balance or \$50,000, whichever is less. The loans are secured by the balance in the participant's account and all current loans bear interest at a rate of 3.25% in 2016. Principal and interest is paid ratably through employer payroll deductions.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

The principles and policies which significantly affect the determination of net assets and results of operations are summarized below.

Basis of Accounting: Plan transactions are recorded on the accrual basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefit of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the contract value of the fully benefit-responsive investment contract.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivables from Participants: Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: All expenses of administering the Plan are paid by the Company except loan application and maintenance fees are paid by the participant borrowers.

NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4 – TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated May 5, 2009, that the Plan is designed in accordance with applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and tax-exempt.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 – TAX STATUS (continued)

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax returns generally remain open for examination by the various tax authorities for a period of three years.

NOTE 5 – CERTIFIED INVESTMENTS

The information related to investments and notes receivable from participants held at December 31, 2016 and 2015, and the net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, disclosed in the accompanying financial statements and supplemental schedules, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company & Reliance Financial Corporation (the trustee of the Plan) and Massachusetts Mutual Life Insurance Company (investment manager and recordkeeping).

NOTE 6 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10-50, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

- Mutual funds as separate investment accounts: Valued at the net asset value (NAV) of shares held by the plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 6 – FAIR VALUE MEASUREMENTS (continued)

- Guaranteed investment contract: Valued at contract value by the insurance company (see note 6). Because the participants transact at contract value, it is the relevant measurement. Certain inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016 and 2015.

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 156,597	\$ 5,901,228	\$ -	\$ 6,057,825
Investments at fair value	<u>\$ 156,597</u>	<u>\$ 5,901,228</u>	<u>\$ -</u>	<u>\$ 6,057,825</u>
Assets at Fair Value as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ -	\$ 5,514,644	\$ -	\$ 5,514,644

NOTE 7 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT - GUARANTEED INTEREST ACCOUNT WITH MASSMUTUAL RETIREMENT SERVICES

MassMutual Retirement Services (MMRS) SAGIC is a DFE (direct filing entity) and is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. The Plan's total investment in this contract at December 31, 2016, and 2015 was \$1,668,730 and \$1,640,637 respectively. Under the terms of the SAGIC group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance in the SAGIC investment option at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Liquidation value is the market value of the assets in the separate account. MMRS considers the SAGIC to be fully benefit responsive notwithstanding the liquidation value events under the contract that limit the ability of the plan to transact at contract value, because it is considered valued at NAV at the Pooled Separate Account level.

Because the SAGIC is fully benefit responsive; contract value is the relevant measurement attribute for that portion of the net assets available for benefits.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoff or early retirement programs. Consult the Plan's group annuity contract for further information.

NOTE 7 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT - GUARANTEED INTEREST ACCOUNT WITH MASS MUTUAL RETIREMENT SERVICES (continued)

The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2016	2015
Based on actual earnings	2.75%	2.99%
Based on interest rate credited to participants	2.75%	2.99%

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain investments and shares of mutual funds are managed by MassMutual, the trustee, and qualify as party-in-interest transactions. Professional fees for the administration and audit of the Plan are paid by the Company.

NOTE 10 – CORRECTIVE DISTRIBUTIONS

The Plan did issue corrective distributions of \$7,805 and \$10,112 in 2016 and 2015 respectively (thus correcting a contribution) in order to comply with the Nondiscrimination Actual Deferral Percentage (ADP) Compliance Test limits. The Internal Revenue Code requires nondiscrimination testing each plan year to assure that highly compensated employees ("HCEs") are not contributing at a substantially greater rate of compensation than non-highly compensated employees ("NHCEs").

NOTE 11 – SUBSEQUENT EVENTS

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through October 2, 2017, the date the financial statements were available to be issued.
