ROONEY ENGINEERING, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Rooney Engineering Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator ("the Administrator").

General - The Plan is a defined contribution plan sponsored by Rooney Engineering, Inc. (the "Company") for the benefit of its full-time employees who have six months of consecutive service and are at least 20 and ½ years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the Administrator. The Administrator has overall responsibility for the operation and administration of the Plan. The Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Participants may contribute pre-tax elective deferrals of their eligible compensation, subject to Internal Revenue Code ("IRC") statutory limitations. Eligible compensation is comprised of W-2 wages, increased by certain pre-tax elective deferral amounts. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into investment options offered by the Plan. The Company makes an elective contribution currently equal to 100% on the first 6% of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

In November, 2016, the Company amended the Plan's definition of eligible compensation to exclude reimbursements for allowances, fringe benefits, moving expenses, and statutory and non-statutory stock options, restricted awards and discounted stock purchase rights. This amendment was effective as of November 10, 2016.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment options at any time.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ROONEY ENGINEERING, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Vesting - Participants' contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
Less than One	0%
1	25%
2	50%
3	75%
4	100%

Participants' allocation of employer contributions also become 100% fully vested when the participant reaches the age of 65, incurs a disability as defined by the Plan, or upon death. Additionally, if the Plan is terminated or contributions to the Plan are discontinued, participants become 100% vested.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments in accordance with the requirements of the IRC. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$0 and \$24,796, respectively. These accounts are used at the discretion of the Administrator to reduce future employer contributions. During the year ended December 31, 2016, \$57,216 of the forfeited non-vested accounts were used to offset employer contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassifications - Certain reclassifications to the 2015 financial statement have been made to conform to the current year presentation. Net assets available for benefits are unchanged due to this matter.

(3) Information prepared and certified by the trustee

The Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate with respect to investments:

- Investments at fair value
- Interest and dividend income
- Net appreciation in fair value of investments
- Notes receivable from participants
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

ROONEY ENGINEERING, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(3) Information prepared and certified by the trustee (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

ROONEY ENGINEERING, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(4) Fair value measurements (continued)

Common / collective trusts - Valued at the daily closing price as reported by the trust. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

Investments at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total

Total investments at fair value	<u>\$ 10,217,845</u>	<u>\$ 1,961,087</u>	<u>\$ -</u>	<u>\$ 12,178,932</u>

(5) Plan termination

Effective July 3, 2017, the Plan Administrator terminated the Plan, and the participants of the Plan were transferred to the Tetra Tech, Inc. and Subsidiaries Retirement Plan ("Tetra Tech Retirement Plan"), a plan sponsored by the Company's parent.

Upon the transition date, all participants of the Plan became 100% vested in employer contributions made by the Company prior to the plan termination.

(6) Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated March 31, 2008, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been

ROONEY ENGINEERING, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

(6) Tax status (continued)

amended since receiving the determination letter, the Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been made in the accompanying financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(7) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(8) Subsequent events

The Plan has evaluated subsequent events through August 11, 2017, which is the date the financial statements were available to be issued.

As disclosed in Note 5 to the financial statements, effective July 3, 2017, the Plan Administrator terminated the Plan, and the participants of the Plan were transferred to the Tetra Tech, Inc. and Subsidiaries Retirement Plan ("Tetra Tech Retirement Plan"), a plan sponsored by the Company's parent.
