Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the UPMC Basic Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 4, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2016 and 2015, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content With Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UPMC Basic Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan

General

The UPMC Basic Retirement Plan (the Plan) is a noncontributory defined benefit plan covering eligible active employees of UPMC (Plan Sponsor) and its subsidiary corporations and affiliates under the Urban and Community Plan Designs, as outlined in the plan document. All active employees may participate after meeting eligibility requirements as outlined in the plan document.

Periodically, defined benefit plans of UPMC's subsidiary corporations merge with and into the Plan, and the pension plan assets of the subsidiary's defined benefit pension plans are transferred into the Plan.

Benefits

The benefit formula (Cash Balance Formula) is based on age, years of benefit service, annual salary, and certain other factors.

- The Urban Plan Design annual retirement credits range from 2.5% to 5.0% of eligible pay based on age and benefit service.
- The Community Plan Design annual retirement credits range from 3.5% to 6.0% of eligible pay based on age and benefit service.
- Interest credit is based on 30-year Treasury bond rate.

When a UPMC subsidiary corporation or affiliate adopts the Plan, each active participant's accrued benefit, if any, is converted to a lump-sum present value representing a notional opening balance that will accrue daily interest based on the 30-year treasury bond rate which is compounded on a quarterly basis plus retirement credits as discussed above. Certain transition credits were granted to active participants who met specific age and service criteria. The transition credits offered, if any, were dependent upon the entity's prior defined benefit plan in effect at the time of the conversion date. The age and service points used to determine eligibility for transition credits is measured as of December 31 or, in some instances, the day which precedes the Cash Balance Formula conversion date. The Cash Balance Formula will provide annual retirement credits based on each eligible participant's age and years of benefit service for all participating employers. Under either scenario, the Cash Balance Formula age and service (if applicable) "points" are determined as of December 31 of the preceding calendar year.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The accrued benefit is the benefit produced by the Cash Balance accumulation, but no less than the accrued benefit earned under any prior plan in effect prior to the introduction of the Cash Balance Plan.

Funding

UPMC contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants, to maintain the Plan at the appropriate level to avoid paying Pension Benefit Guaranty Corporation (PBGC) variable rate premiums, and to satisfy the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirement. The plan has met the ERISA minimum funding requirements for 2016 and 2015.

Plan Termination

Although it has not expressed an intention to do so, UPMC reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Plan Merger

The Hamot Health Foundation Cash Account Pension Plan, Home Nursing Agency Pension Plan, Pension Plan for Employees of St. Francis Hospital of New Castle and the Pension Plan for Employees of Jameson Health System, Inc. were merged into the Plan. The Hamot Health Foundation Cash Account Pension Plan was merged into the Plan effective June 30, 2016. The Home Nursing Agency's Pension Plan, Pension Plan for Employees of St. Francis Hospital of New Castle and the Retirement Plan for Employees of Jameson Health System, Inc. were merged into the Plan effective December 31, 2016. The net assets transferred to the Plan, which include receivables transferred of \$9,052,695, are reflected on the statements of changes in net assets available for benefits as a transfer from other qualified plan.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The above brief description of the Plan is provided for general information purposes only. Participants should refer to the plan document and summary plan description for complete information about the Plan, the vesting and benefit provisions, the allocation of the Plan's assets in the event the Plan terminates, and the PBGC's benefit guarantee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan reports its financial statements on the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

All administrative expenses are paid by the Plan, which includes trustee's fees, actuary's fees, and other pension plan related fees.

Subsequent Events

Management evaluated subsequent events for the Plan through October 10, 2017, the date the financial statements were available to be issued.

UPMC Basic Retirement Plan

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments, which are held in the UPMC Master Trust (Master Trust), are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

The interest in Master Trust includes investments in partnership interests, representing investments in hedge funds approximating \$206,617,076 and \$214,677,732 and venture capital funds approximating \$468,770,806 and \$422,524,335 as of December 31, 2016 and 2015, respectively. As of December 31, 2016, UPMC has outstanding commitments to invest up to \$214,621,761 in private capital funds from the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-15, *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* (ASU 2014-15). ASU 2014-15 defines management's responsibility to evaluate whether there is a substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. In connection with preparing financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about an organization's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 is effective for fiscal years ending after December 15, 2016. Management has performed this assessment as of the date these financial statements were available to be issued, and no going-concern uncertainties were identified.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In February 2017, the FASB issued ASU 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the effect that the provisions of ASU 2017-06 will have on the Plan's financial statements.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of employees who have died, and (c) active participants or their beneficiaries. Benefits are based on the cash balance accounts. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included in the calculation of the accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the plan year. The actuarial present value of accumulated plan benefits as of the end of the previous plan year is as follows:

	December 31, 2015
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 289,413,167
Vested benefits for other participants	952,845,993
Total vested benefits	1,242,259,160
Nonvested benefits	10,074,456
Total actuarial present value of accumulated plan benefits	<u><u>\$ 1,252,333,616</u></u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits as of beginning of year January 1, 2015	\$ 1,261,712,134
Increase (decrease) during the year attributed to:	
Interest accumulation	95,986,686
Benefits accumulated	47,397,103
Assumption change	(26,620,179)
Benefits paid	(126,142,128)
Net increase	<u>(9,378,518)</u>
Actuarial present value of accumulated plan benefits as of end of year December 31, 2015	<u><u>\$ 1,252,333,616</u></u>

The assumption changes include the following:

- A change in the mortality assumption from the 2006 base rates from the RP-2014 mortality study projected generationally from 2006 with Scale MP-2015, to the 2006 base rates from the RP-2014 mortality study projected generationally from 2006 with Scale MP-2016.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

- A change in the optional payment form election percentage for new terminated vested and disabled participants from 50% elect an immediate lump sum and 50% receive an annuity deferred to age 62, to 50% elect an immediate lump sum and 50% receive a lump sum deferred to age 62.
- A change in the cash balance interest crediting rate from 3.36% to 2.60%.

Significant assumptions underlying the actuarial computations are:

Assumed rate of return on investment	8%
Mortality basis	Healthy and Disabled: 2006 base rates from the RP-2014 mortality study projected generationally from 2006 with Scale MP 2016
Retirement rate	Retirement at varying percentages for the ages of 55 through 69 with 100% of participants assumed to retire by age 70

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2016. There were no significant changes to the Plan that would have changed the valuation had it been performed as of December 31, 2015. The accumulated plan benefits information presented herein does not include the effects of the merger of the Hamot Health Foundation Cash Account Pension Plan, Home Nursing Agency Pension Plan, Pension Plan for Employees of St. Francis Hospital of New Castle and the Pension Plan for Employees of Jameson Health System, Inc. (see Note 1).

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

4. Investments

All investment information, other than the fair value of the limited partnership interests and related net appreciation, disclosed in the accompanying financial statements and footnotes, including investments held at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments and interest and dividend income from interest in Master Trust for the years ended December 31, 2016 and 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee, The Bank of New York Mellon/BNY Mellon, N.A. The Plan Sponsor recorded the fair value of the partnership interests using valuations obtained directly from the partnerships through December 31, 2016 and 2015, in the accompanying financial statements.

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and another UPMC-sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2016 and 2015, the Plan's interest in the net assets of the Master Trust was approximately 99.86% and 96.52%, respectively.

Total net appreciation (depreciation) in fair value and interest and dividend income	<u>\$ 173,286,867</u>	<u>\$ (7,802,342)</u>

5. Fair Value Measurements

Fair value is defined under Accounting Standards Codification (ASC) 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment in the Master Trust measured at fair value:

Cash is valued at amortized cost which approximates fair value.

Corporate stocks, ETFs and U.S. REITS are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies are valued based on quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

U.S. government securities are valued at fair value using quoted market prices. The quoted market price is available in an active market.

Asset and mortgage-backed securities, money market and corporate debt instruments are valued at fair value, which is estimated using quoted prices of securities with similar characteristics. The quoted market prices for the specific securities are not available in an active market.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Common/collective trust funds (funds) are valued at NAV.

Limited partnerships are valued at NAV.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2016:

5. Fair Value Measurements (continued)

- (a) The investment objective for these funds is to achieve long-term capital growth. One fund also seeks to achieve total return in excess of the Morgan Stanley Capital International Inc. Emerging Markets Index through investing in emerging stock markets. Liquidity provisions vary per fund, with redemptions being permitted on the valuation date with written notification at least one month prior to redemption. The valuation date varies per fund, but ranges mainly from weekly to monthly.
- (b) The investment objective of these limited partnerships is to invest in commercial real estate properties and real estate related assets. On an individual basis, these partnerships have a finite life. At December 31, 2016, it is estimated that the underlying assets of these partnerships will be liquidated over an average of eight years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. Some of these partnerships may elect to extend their term at their discretion. The outstanding commitment to invest in these funds is up to \$24,103,405.
- (c) The investment objective of these limited partnerships is to acquire energy assets such as oil and natural gas production, oilfield services, power generation, and other natural resources-related industries that have the potential for meaningful capital appreciation. On an individual basis, these partnerships have a finite life. At December 31, 2016, it is estimated that the underlying assets of these partnerships will be liquidated over an average of nine years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. Some of these partnerships may elect to extend their term at their discretion. The outstanding commitment to invest in these funds is up to \$41,078,359.
- (d) The investment objective for these limited partnerships is to invest with the goal of generating a positive real return without correlation to general markets. While specific liquidity provisions vary by fund, redemptions are generally permitted on a monthly or quarterly basis. While fund managers reserve the right to suspend redemptions under certain market conditions, no such conditions exist as of December 31, 2016, and through the date these financial statements were available to be issued.
- (e) The investment objective for these limited partnerships is to invest with the goal of generating a return similar to equity markets with less volatility. While specific liquidity provisions vary by fund, redemptions are generally permitted on a monthly, quarterly, or annual basis. While fund managers reserve the right to suspend redemptions under certain market conditions, no such conditions exist as of December 31, 2016, and through the date these financial statements were available to be issued.
- (f) The investment objective of these limited partnerships is to achieve long-term capital appreciation through a diversified portfolio of leveraged buyout, growth equity, venture capital, structured equity and distressed debt investment opportunities throughout the globe. On an individual basis, these partnerships have a finite life. At December 31, 2016, it is estimated that the underlying assets of these partnerships will be liquidated over an average of seven years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. Some of these partnerships may elect to extend their term at their discretion. The outstanding commitment to invest in these funds is up to \$149,439,997.

Notes to Financial Statements (continued)

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 1, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was restated and amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related Master Trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Related-Party and Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the optional payment form election percentage for new terminated vested and disabled participants from 50% elect an immediate lump sum and 50% receive an annuity deferred to age 62, to 50% elect an immediate lump sum and 50% receive a lump sum deferred to age 62.
- An increase in the salary merit increase scale by 0.1% through 2020 to better reflect anticipated future experience.

The plan does not have more than \$50 million in unfunded vested benefits, so approval of the Commissioner is not required for these assumption changes.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Disability Rates	See Table 4
Decrement Timing	Beginning of year decrements
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are four years older than their spouses.
Valuation Compensation	2014 Pensionable earnings rolled forward one year with the salary increase assumption
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2014 Plan Year	8.00%, limited to 6.99%
2015 Plan Year	8.00%, limited to 6.81%

Plan Changes Since the Prior Year

The funding valuation reflects the following plan change:

- A change in the mortality basis for lump sum payments from the 2015 plan year IRC section 417(e)(3) mortality table to the 2016 plan year IRC section 417(e)(3) mortality table.
- The merger of the Hamot Health Foundation Cash Account Pension Plan effective June 30, 2016.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the optional payment form election percentage for new terminated vested and disabled participants from 50% elect an immediate lump sum and 50% receive an annuity deferred to age 62, to 50% elect an immediate lump sum and 50% receive a lump sum deferred to age 62.
- An increase in the salary merit increase scale by 0.1% through 2020 to better reflect anticipated future experience.

The plan does not have more than \$50 million in unfunded vested benefits, so approval of the Commissioner is not required for these assumption changes.
