1. DESCRIPTION OF PLAN

The following description of the Marders, The Landscape Store Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective January 1, 1996 (as amended January 1, 2016), is a defined contribution plan covering all full-time employees of Marders, the Landscape Store (the "Sponsor") who attained the age of 21 and have completed 250 hours of service in a consecutive three-month period or 1,000 hours of service in one year of service. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined by the Plan, not to exceed limitations set forth by applicable law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year, the Sponsor will contribute to the Plan a Safe Harbor Matching Contribution equal to 3% of the eligible participant's compensation. The Sponsor may also, at its discretion, make a profit sharing and/or matching contribution to eligible participants' accounts. Profit sharing contributions equal an amount determined by the Sponsor for participants who have completed 1,000 hours of service. Matching contributions equal an amount equal to 50% of contributions, not to exceed $2,000. The Sponsor made matching contributions for the year ended December 31, 2016. The Sponsor did not make a profit sharing contribution for the year ended December 31, 2016.

Investment options

In addition to various investment options offered to eligible participants, participants may elect to invest in life insurance contracts. The life insurance contracts are owned by and payable to the Plan, subject to provisions, as defined. Any distribution of an insurance policy or the proceeds of an insurance policy purchased pursuant to requirements under the Plan document shall be subject to the distribution requirements of the Plan document. Contributions by or on behalf of a participant have been invested at the election of the participant into one of the investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and the Sponsor's matching contributions, as well as allocations of the Sponsor's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses, if any, that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in employee contributions and employer contributions up to Safe Harbor limitations plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts in excess of Safe Harbor limitations based on a graded vesting schedule and years of service. Vesting in the Sponsor's contributions portion of their accounts is based on years of service as follows:

Years of Service	Vesting Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's accounts and bear interest at rates ranging from 4.25% to 4.50%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions over five years, except for loans used to acquire a principal residence of a participant; such loans must be repaid over a period not in excess of 15 years. Unless the loan note provides otherwise, the principal amount of the loan and accrued interest shall become immediately due and payable upon termination of employment.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled to from the Plan.

Payments of benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59½. On termination of service, a participant will receive a lump sum equal to the 100% vested amount of the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $16,668 and $12,454, respectively. Forfeitures of employer matching contributions may be used to reduce the employer contributions for the succeeding Plan year. Forfeitures of employer profit sharing contributions may be reallocated among remaining participants in the succeeding Plan year. There were no forfeitures used to reduce employer contributions or used for reallocation of profit sharing contributions for the year ended December 31, 2016.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements are prepared using the accrual basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Life insurance contracts are stated at cash surrender value, which approximates fair value.

The investment in pooled separate account is valued at the net asset value (the "NAV") per unit, as determined by Voya Retirement Insurance and Annuity Company (the "Custodian") at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair value measurements
Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurements (continued)
The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance of credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are reclassified as deemed distributions based upon the Plan document.

As of December 31, 2016, three participants defaulted on loans amounting to $26,861. The plan has issued a 1099 to report the income generated from the defaulted loan balance to the participants as of the date of the these financial statements.

Payment of benefits
Benefit payments are recorded when paid to Plan participants.

Administrative expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent events
In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through September 21, 2017, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED)

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by the Custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

3. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (UNAUDITED) (CONTINUED)

	2016	2015
Investments:		
Pooled separate accounts	$ 4,501,256	$ 4,022,982
Guaranteed investment contract	2,132,640	1,811,811
	$ 6,633,896	$ 5,834,793

The Custodian also certified as to the completeness and accuracy of the following:

	2016
Net appreciation in fair value of investments	$ 433,605
Interest on guaranteed investment contract	$ 21,374

4. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option pricing and excess earnings models).

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2016 and 2015.

Description	Total at December 31, 2016	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 271,348	$ -	$ -	$ 271,348	(b)
Investments measured at net asset value*	4,501,256				
Total investments at fair value	$ 4,772,604				

*Pooled separate accounts

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Description	Total at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Insurance contracts	$ 282,769	$ -	$ -	$ 282,769	(b)
Investments measured at net asset value*	4,022,982				
Total investments at fair value	$ 4,305,751				

*Pooled separate accounts

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Insurance contracts: are stated at the cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Significant inputs to the Level 3 measurements include the number of years to estimate the policy and the discount rates utilized.

Pooled separate accounts: are valued at the NAV per unit, as determined by the Custodian at year end. The NAV is used as the practical expedient to estimate fair value and is based on the fair value of the underlying investment held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probably that the fund will sell the investment for an amount different that the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below includes a roll-forward for investments (including the change in fair value) classified by the Plan within Level 3 of the fair value hierarchy for the year ended December 31, 2016 and 2015:

	2016	2015
Balance, beginning of year	$ 282,769	$ 277,500
Decrease in cash surrender value of policies	(11,421)	5,269
Distribution of policy proceeds	-	-
Balance, end of year	$ 271,348	$ 282,769

5. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2016 and 2015:

	Fair Value Estimated Using Net Asset Value per Share at December 31, 2016				
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 4,501,256	$ -	Daily	None	None

	Fair Value Estimated Using Net Asset Value per Share at December 31, 2015				
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 4,022,982	$ -	Daily	None	None

6. GUARANTEED INVESTMENT CONTRACT

The Plan maintains a guaranteed investment contract ("GIC") related investment option, the Voya Fixed Account. The contract underlying the investment option is considered to be fully benefit-responsive. Generally, the contract value of the Voya Fixed Account at December 31, 2016 and 2015, is equal to participant deposits, less participant withdrawals, plus credited interest. Interest credited is net of expenses. Contract value may be subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of market value adjustment.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the related GIC. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield based on actual earnings for the contract for the years ended December 31, 2016 and 2015, was 1.05% and 1.15%, respectively. The crediting interest rates to participants for the contract as of December 31, 2016 and 2015, was 1.05% and 1.15%, respectively. The Custodian makes this guarantee, and although the Custodian may credit a higher interest rate, as of December 31, 2016 and 2015, the credited rate is guaranteed not to fall below 1.05%.

6. GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Sponsor.

Certain Plan investments are managed by the Custodian of the Plan; accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $10,742 for the year ended December 31, 2016.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. TAX STATUS

The Plan uses a prototype plan document sponsored by FTWilliam.com ("FTW"). FTW received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfied the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since FTW received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
