ADVANCED DIAGNOSTIC IMAGING, P.C. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF RETIREMENT PLAN

The following description of Advanced Diagnostic Imaging, P.C. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the summary plan document for a more complete description of the Plan’s provisions. The Plan covers eligible employees of Advanced Diagnostic Imaging, P.C. (the “Company”) and other participating employers. During 2016, the participating employers were Advanced Diagnostic Imaging, P.C., PhyData, LLC, and NOL, LLC.

General

The Plan is a defined contribution plan originally effective January 1, 2003 and amended and restated effective January 1, 2016. The Plan provides for participation by employees over the age of 18 after completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employee Contributions

The Plan allows participants to contribute a portion of their eligible compensation, as defined in the plan document, up to the maximum amount allowed by the Internal Revenue Code, which is \$18,000 for 2016. Participants may elect two types of salary deferrals, pre-tax deferrals and Roth deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions

The Plan allows the Company to make various contributions to participant accounts.

In order to maintain safe harbor status, the Company may make a contribution equal to 3% of compensation. The Company made the 3% contribution during 2016 amounting to \$2,001,693.

The Company may make a discretionary matching contribution equal to a uniform percentage of salary deferrals up to 6% of compensation contributed to the Plan. During 2016, there were no discretionary matching contributions.

The Company may also make a discretionary profit sharing contribution to the Plan. Profit sharing contributions are allocated to participants based upon provisions in the plan document. Profit sharing contributions amounted to \$4,381,396 in 2016.

NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF RETIREMENT PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions, qualified matching contributions, safe harbor contributions and qualified non-elective contributions and related earnings. A participant is vested in non-qualified employer matching and profit sharing contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

Payment of Benefits

Upon termination of service or upon death, disability or retirement, a participant may receive payments based on Plan provisions. Married participants will automatically be paid via a joint and 50% survivor annuity, unless an alternative form of payment is elected. Unmarried participants will automatically receive a life annuity, unless an alternative form of payment is elected. Participants with vested account balances not exceeding \$5,000 will be paid in a single lump-sum payment. Participants electing an alternative form of payment may receive a single lump-sum payment or may purchase a different form of annuity. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$86,902 and \$72,878, respectively. These account balances will primarily be used to pay administrative expenses of the Plan and to reduce employer matching and profit sharing contributions. Forfeitures of \$193 were used in 2016 to offset the employer profit sharing contributions receivable at December 31, 2015.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 – DESCRIPTION OF RETIREMENT PLAN (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants will become 100% vested in their accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements and supplemental schedule of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses

Certain direct expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the participant recordkeeping and participant withdrawals are charged directly to the participant's account and are included in administrative expenses. Indirect investment related expenses are included in net (depreciation) appreciation of fair value of investments.

NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Adoption of New Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit – Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides for a measurement-date practical expedient. Parts I and II should be applied retrospectively as required by the ASU, and Part III should be applied prospectively. All three parts are effective for fiscal years beginning after December 31, 2015 with early application permitted.

The retrospective adoption of Part II resulted in the removal of disclosures for individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation in fair value of investments by general type, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks. Parts I and III are not applicable to this Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Management of the Plan evaluated subsequent events through October 11, 2017 when these financial statements were available to be issued. Management was not aware of any significant events that occurred subsequent to the statement of net assets available for benefits date but prior to the filing of this report that would have a material impact on the financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the Fair Value Measurement and Disclosure Topic of the Financial Accounting Standards Board Accounting Standards Codification are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include the following:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2016 and 2015. A description of the valuation methodologies used for assets measured at fair value is as follows:

Mutual funds – valued at the net asset values of shares held by the fund at year end.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Self-directed brokerage accounts – stated at fair value as determined by quoted market prices and quoted net asset values of the investments held therein.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments:

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by Capital Bank and Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

NOTE 5 – INCOME TAX STATUS

The Plan obtained its latest determination letter on September 10, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 6 – TRANSACTIONS WITH PARTIES-IN-INTEREST

Transactions with parties-in-interest include purchases and sales of assets through the trustee, contributions made by the Company and fees paid for the trustee, accounting and other services. The Plan invests in shares of mutual funds managed by the Plan's recordkeeper. Fees incurred by the Plan for the Trustee's investment management services are included in net (depreciation) appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan pays directly any other fees related to Plan operations, including Plan recordkeeping fees.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
