1. Description of the Plan

The following description of The Raymond Corporation Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution 401(k) salary reduction and profit sharing plan. Substantially all employees of The Raymond Corporation and Raymond Muscatine Inc. (the "Company") are eligible to participate in the Plan. Prior to April 1, 2016, employees became eligible for elective deferral and employer match portions of the Plan subsequent to completion of three months of service and attaining the age of 21. As explained below, the Plan was amended on April 1, 2016. Beginning April 1, 2016, employees become eligible for elective deferral and employer match portions of the Plan subsequent to completion of 30 days of service and attaining the age of 18. Once an employee meets the eligibility requirements, the Plan automatically enrolls them under its Automatic Enrollment feature. Under Automatic Enrollment, a participant is automatically enrolled to begin making elective contributions of 5% of their annual compensation to the 401(k) plan. This deferral percentage is increased automatically by 1% each year, up to a maximum of 10%, unless the participant elects a different percentage or expressly elects not to participate in the Plan. Employees become eligible to receive an allocation of any employer profit sharing contributions upon completion of one year of service and being employed by the Company on the last day of the Plan year. In addition, any participant who died, terminated employment after attaining normal retirement age, or became disabled during the Plan year will be eligible to receive an allocation of any employer profit sharing contribution that is made. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is administered by the Company's Investment Committee.

Change in Trustees and Plan Amendment

During the 2016 plan year, the Plan changed trustees. Plan assets were transferred from Bank of America, N.A., to Fidelity Management Trust Company and the Plan adopted the Fidelity Basic Plan Document No. 17, a volume submitter plan, on April 1, 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (Continued)

Contributions

Prior to April 1, 2016, participants could contribute up to 50% pretax annual compensation and beginning April 1, 2016, participants may contribute up to 75% pretax income subject to the maximum allowable contributions under the Internal Revenue Code of $18,000 for 2016. Participants who are at least 50 years of age by the end of the calendar year are allowed to make additional "catch-up contributions" of $6,000 for 2016. Participants are immediately vested in their contributions and profit sharing contributions plus actual earnings thereon. The Company matches 25% of the first 5% of the participant's contribution. The Company match, Qualified Automatic Contribution Arrangement (QACA) non-elective, and discretionary profit sharing contributions, plus actual earnings thereon, are fully vested after two years. Participants who have less than two years of vesting service have no vested interest in the Company match, QACA non-elective, and discretionary profit sharing contributions or actual earnings thereon. Participant contributions can be changed daily. The Company will make a 3% QACA non-elective contribution to the account of each eligible participant.

The Plan accepts rollover contributions and transfers from other qualified plans.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to $50,000 reduced by their highest outstanding loan balance in the previous twelve months or 50% of their account balance, whichever is less. Participants may only borrow against their own contributions and accrued earnings thereon and may not borrow against the Company's matching contributions and accrued earnings thereon. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined yearly by the Company's Administrative Committee. Principal and interest are paid ratably through payroll deductions. The current interest rates range from 4.25% to 9% for outstanding loans as of December 31, 2016 and 2015. Interest income on the statement of changes in net assets available for benefits included $132,469 of interest received on notes receivable from participants for the period end December 31, 2016.

Payment of Benefits

Distributions resulting from retirement, death, or termination are made in the form of lump sum payments representing the entire amount of the participant's account at the valuation date. Upon termination of employment, if the account balance is greater than $1,000 but less than $5,000 and the participant does not make an election to either rollover or take a payout, the account balance is automatically rolled into an IRA in the participant's name. If the account balance is less than $1,000, the participant will receive a single lump sum amount equal to the value of his or her account. If the account balance is $5,000 or greater, the participant may elect to defer payment up to age 70-1/2. A nonspouse surviving beneficiary must withdraw within five years and a surviving spouse may elect to defer payment up to age 70-1/2. Hardship withdrawals of up to 100% of employee contributions are available if Internal Revenue Service guidelines are met. Distributions, without penalty, may be made upon the attainment of age 59-1/2.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce employer contributions. During 2016, forfeited non-vested funds were used to reduce employer contributions by $52,791. Forfeited non-vested funds available to reduce future employer contributions are $215,736 and $52,791 at December 31, 2016 and 2015, respectively.

2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash and Cash Equivalents
The Company considers all highly liquid instruments purchased with an original maturity of three months or less as cash equivalents.

Investment Valuation and Income Recognition
Investments held by the Plan are stated at fair value with the exception of common collective trust funds which are valued at the net asset value as a practical expedient as reported by the sponsor of the fund.

The Wells Fargo Stable Return Fund is an investment option that is a collective common trust fund made up of investment contracts and security-backed contracts, which are mainly publicly traded securities. Common collective trust funds are valued at net asset value (NAV) per share, which serves as a practical expedient to estimate its fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The NAV of a common collective trust account is based on the market value of its underlying investments. The NAV is not a publicly quoted price in the active market, however is based on the fair value of the underlying investments held by the funds less its liabilities, with each of the individual prices of the underlying investments able to be obtained from the respective market price. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no redemption restrictions or unfunded commitments as of December 31, 2016 or 2015. Investments measured at NAV per share as a practical expedient are not required to be classified in the fair value hierarchy presented in Note 3.

Investments in mutual funds are valued at the latest quoted sales price on the last business day of the year, which represents the value of shares held by the Plan at year end.

These methods may produce a calculation of value that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the valuation of certain financial instruments could result in a different measurement of value at the reporting date.

The net appreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation on those investments, is presented in the statement of changes in net assets available for benefits.

Purchases and sales of securities are reflected on a trade-date basis. Gains or losses on sales of securities are based on the specific cost of investments sold.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned.

2. Significant Accounting Policies (Continued)

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable, become material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year, because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statement of changes in net assets available for benefits and deducted from the receivable balance.

Payment of Benefits
Benefit payments are recorded when paid.

Administrative Expenses
Certain administrative expenses of the Plan were paid by the Company with the remainder being paid by the Plan.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan provides for various participant-directed investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events
The Plan has performed an evaluation of subsequent events through October 9, 2017, which is the date the financial statements were available for issuance.

3. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. US GAAP describes three levels of inputs that may be used to measure fair value, which are provided in the table below. The related fair market value of these financial instruments is estimated using market based Level 1 inputs obtained from independent quoted market prices for identical instruments with identical maturities and Level 2 inputs obtained from independent quoted market prices for similar instruments with similar maturities.

Level 1: Quoted prices in active markets for identical assets or liabilities, which includes listed equities.

3. Fair Value Measurements (Continued)

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes auction rate securities where independent pricing information was not able to be obtained.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies - The investment portfolio consists of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

Money Market Funds - Managed portfolios including commercial paper and other fixed income securities issued by U.S. and foreign corporations, asset-backed commercial paper, U.S. Government securities, obligations of foreign governments and U.S. and foreign banks, valued at the closing price reported on the active market on which the individual security is traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used at December 31, 2016 or 2015.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

4. Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as of December 31, 2016, and for the period April 1, 2016 through December 31, 2016, Fidelity Management Trust Company and, as of December 31, 2015, and for the period January 1, 2016 through March 31, 2016, Bank of America, N.A., the Plan's Trustees, have certified that the information included in the accompanying financial statements as of and for the years ended December 31, 2016 and 2015, and supplemental schedule as of December 31, 2016, is complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except to compare such information to the related information included in the financial statements and supplemental schedule.

5. Income Tax Status

The Internal Revenue Service has determined and informed the trustee by a letter dated March 31, 2014 that the volume submitter plan, used by the Plan, is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan sponsor and the Plan's legal counsel believe that the Plan is currently designed and operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, at any time, to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, each participant would become fully vested in the value of his or her account. At termination, the net assets of the Plan would be distributed to each participant based upon his or her account balance as of the distribution date.

7. Related-Party Transactions

The Company pays certain legal, accounting and other administrative fees of the Plan which approximated $78,000 in 2016. Certain plan investments for the period April 1, 2016 through December 31, 2016, are funds managed by Fidelity Management Trust Company, and certain plan investments for the period January 1, 2016 through March 31, 2016, were funds managed by Bank of America, N.A., the Trustees of the Plan, as defined by the plan agreement. These investments qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.
