Note 1 - Description of Plan

The Alpin Haus Ski Shop, Inc. 401(k) Profit Sharing Plan (Plan) was established effective March 1, 1993. The Plan was restated effective January 1, 2016 to comply with the Pension Protection Act of 2006. The Plan is sponsored by Alpin Haus Ski Shop, Inc. (Company).

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan with a 401(k) feature covering all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan assets are held and administered by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan. Company contributions, participant elective deferrals, and participant accounts are also held and managed by the Custodian, who invests cash received and income from investments based on instructions from the Company and participants, and makes distributions to participants. The Plan's Trustees are responsible for the oversight of the Plan, including investment offerings and monitoring investment performance of the Plan.

b. Contributions

Each year, participants may contribute a percentage or fixed dollar amount of their pre-tax annual compensation to the Plan. In addition, participants may contribute after-tax Roth elective deferral contributions to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was $18,000 for both the Plan years ended December 31, 2016 and 2015. Participants who have attained age 50 before the end of the Plan year are also eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make matching contributions equal to a discretionary percentage of the employee's elective deferral (up to a maximum of 5% and 6% of the participant's total compensation for the years ended December 31, 2016 and 2015, respectively). The Company's discretionary matching contributions totaled $36,167 and $38,906 for the years ended December 31, 2016 and 2015, respectively.

The Company may also make a discretionary profit sharing contribution at the option of its Board of Directors. There were no discretionary profit sharing contributions made for the years ended December 31, 2016 and 2015.

Participants direct the investment of contributions into various investment options offered by the Plan. Participants may change their rate of contribution at any time effective with the first possible payroll after the request is received.

Note 1 - Description of Plan - Continued

c. Plan Eligibility

Employees are eligible to enter the Plan after they have attained the age of twenty-one and have completed one year of service. One year of service is defined as being credited with 1,000 hours of service in a consecutive twelve-month period. Entry dates of the Plan are January 1 and July 1. Upon joining the Plan, participants will share in the employer's discretionary matching contributions regardless of service completed during the year or employment status at the end of the Plan year. Participants who are actively employed at the end of the Plan year and have completed 1,000 hours of service during the Plan year will share in the allocation of the employer's discretionary profit sharing contribution. Participants who are not actively employed at the end of the year due to death, total and permanent disability, or early or normal retirement, but otherwise meet eligibility requirements, will share in the employer's discretionary profit sharing contributions.

d. Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary matching and profit sharing contributions (if any); (b) the Plan's investment earnings (losses), net of investment expenses, (c) forfeitures of the nonvested portion of terminated participants' accounts, and (d) administrative expenses paid by the Plan. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately vested in their contributions and rollovers, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions is subject to a graduated vesting schedule. A participant is 100% vested upon: (1) disability, (2) death,
(3) normal retirement at age 62 with five years of participation, or (4) termination of the Plan. A participant shall have a vested and nonforfeitable interest in his or her account determined by the number of years of service as follows:

Years of Service	Vesting %
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Note 1 - Description of Plan - Continued

f. Participants Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000, or 50% of their vested account balance. In addition, the $50,000 limit is reduced by the highest outstanding loan balance (of any previous loans made) in the previous twelve months. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through regular payroll deductions.

g. Payment of Benefits

Upon death, disability, attainment of normal retirement age, or termination of service, a participant (or their beneficiary upon death) may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment. The Plan may distribute account balances to participants (or their beneficiary upon death) whose account balance is $5,000 or less. The Plan also allows hardship distributions up to the participant's vested account balance and in-service distributions for participants upon attaining age 59½.

h. Forfeiture Accounts

The nonvested portion of terminated participants' accounts, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce Company contributions. During the year ended December 31, 2015 the Company used forfeitures to reduce Company contributions by $1,600. During the year ended December 31, 2016, no forfeitures were used to reduce Company contributions. As of December 31, 2016 and 2015, the Plan had $766 and $603, respectively, of forfeitures available to reduce future Company contributions.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution plans.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

b. Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - Continued

c. Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts which are reported at contract value). Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants on the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and Custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Participant Notes Receivable

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Loans treated as distributions totaled $210 for the year ended December 31, 2016. No loans were treated as distributions for the year ended December 31, 2015.

e. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants before March 15, 2017.

f. Payment of Benefits

Benefits are recorded when paid.

g. Administrative Expenses

Administrative expenses of the Plan are paid by the Plan and the Company. Fees related to the administration of participant notes receivable and distributions are charged directly to the participant's account and are included in administrative expenses. Other administrative expenses paid by the Plan are allocated proportionately to participants based on the value of their account balances. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

h. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through October 5, 2017, the date the financial statements were available to be issued.

Note 3 - Information Certified by Custodian (Unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information, certified by the Custodian of the Plan as complete and accurate, except for comparing such information certified by the Custodian to information including the Plan's financial statements and supplemental schedule:

	December 31,	
	2016	2015
Investments, at fair value	$ 4,200,771	$ 4,532,844
Fully benefit-responsive investment contract, at contract value	696,408	433,045
Participant notes receivable	54,374	24,162
Net appreciation (depreciation) in fair value of investments	262,169	(12,568)
Interest on participant notes receivable	1,187	1,635

Note 4 - Investments and Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Investments and Fair Value Measurement - Continued

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2016 and 2015. There have no changes to the methodologies used at December 31, 2016 and 2015.

Cash, held for investment: The carrying amounts of cash approximate fair value because of the short maturity of these instruments.

Pooled Separate Accounts: Unit value is calculated based on the net assets of the underlying mutual funds, which are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's asset at fair value:

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts				
Mutual funds	$ -	$ 4,200,765	$ -	$ 4,200,765
Cash, held for investment	6	-	-	6
	$ 6	$ 4,200,765	$ -	$ 4,200,771

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts				
Mutual funds	$ -	$ 4,532,838	$ -	$ 4,532,838
Cash, held for investment	6	-	-	6
	$ 6	$ 4,532,838	$ -	$ 4,532,844

Note 5 - Guaranteed Investment Contract

The Plan has entered into a fully benefit-responsive investment contract with MassMutual Retirement Services (MassMutual). This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. As described in Note 2, contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because that is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Note 5 - Guaranteed Investment Contract - Continued

MassMutual maintains the contributions in a general account. MassMutual is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by MassMutual, which is reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party insurer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract with participants, is probable.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1) An uncured violation of the Plan's investment guidelines;
2) A breach of material obligation under the contract;
3) A material misrepresentation; and
4) A material amendment to the Plan without the consent of the issuer.

Upon contract termination, at the Plan's direction, payment may be made in one lump sum according to contract provisions or in annual installment payments.

Note 6 - Related Party and Party-in-Interest Transactions

The Company paid for certain administrative expenses on behalf of the Plan, which totaled $17,952 and $19,286 for the years ended December 31, 2016 and 2015, respectively.

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation for such functions from the Plan.

Certain pooled separate accounts offered as investment options are managed by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax Status

On July 1, 2014, the Internal Revenue Service (IRS) stated that the volume submitter Plan document adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

The Plan's management evaluates tax positions taken by the Plan and recognizes a tax liability or asset if an uncertain tax position was taken and it is more likely than not that the tax position would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Prohibited Transactions

For the Plan year ended December 31, 2016, the Company failed to remit to the Plan's Custodian employee contributions totaling $9,842 within the time period described in 29 CFR 2510.3-102, which states that participant contributions must be transmitted by the earliest date on which such contributions or repayments can reasonably be segregated from the employer's general assets. The Company made the contributions to the affected participants' accounts, together with interest and lost earnings, in August 2017.
