Note A - Description of Plan

The following description of the Kopf Group Employee Benefit Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Kopf Construction Corp., Sweetbriar Management Company, VIP Property Management Co., and 32421 Walker Rd. Investments Ltd. (collectively referred to as the "Company"). Participants are eligible to participate upon completion of six consecutive months of employment or you are credited with a year of service and attainment of age 18. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a specific percentage or dollar amount of their compensation. At the Company's discretion each year it may choose to contribute a matching contribution and/or an additional discretionary contribution. Participants direct the investment of their contributions into various investment options offered by the Plan. No discretionary contributions were made for years ended December 31, 2016 and 2015.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participant's nonvested accounts. Allocations are based on participant account balances plus time weighted transactions in the participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive the value of the vested interest in their account in either a lump-sum amount, annual installments over a specified number of years or a joint or survivor annuity. On termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. A lump-sum distribution will be automatically made to terminated participants whose vested account balance does not exceed \$5,000.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Generally, the term of the loans must not exceed five years. The loans are secured by the balance in the participant's account. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements.

KOPF GROUP EMPLOYEE BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

Note B - Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of registered investment companies and stocks are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. See Note H for discussion of fair value measurements.

Interest and dividend income is recorded on the accrual basis. Realized gains and losses from security transactions and unrealized appreciation and depreciation of investments are determined using an average cost basis.

Payment of Benefits

The Benefit payments to participants are recorded upon distribution.

Plan Expense

The Plan is sponsored by the Company. Personnel within the employer organization perform various administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as Plan expenses. The majority of all administrative expenses of the Plan are paid by the Company and are therefore excluded from these financial statements.

Concentrations

The Plan's participants are employed by the Company which is located in the Northeastern Ohio area.

Recently Adopted Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the current plan year.

Date of Management Review

Subsequent events were evaluated through September 27, 2017, which is the date the financial statements were available to be issued.

Note D - Information Certified by the Custodian

Note E - **Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Annually, information tax returns are prepared and filed with the Department of Labor.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note F - **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the short-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G - **Reconciliation of Financial Statements to Schedule H of Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Schedule H of Form 5500:

	December 31,	
	2016	2015
<u>Net assets available for benefits:</u>		
Per the financial statements	\$ 2,584,644	\$ 2,466,529
Adjustment due to difference in contract value vs. fair market value of Guaranteed Funds	2,935	503
Per Schedule H to the Form 5500	<u>\$ 2,587,579</u>	<u>\$ 2,467,032</u>
	Year ended December 31,	
	2016	2015
<u>Net Increase (Decrease) in Assets available for benefits:</u>		
Per the financial statements	118,115	(181,623)
Change in value Guaranteed Funds	<u>2,432</u>	<u>(96)</u>
Per Schedule H to the Form 5500	<u>120,547</u>	<u>(181,527)</u>

For Form 5500 - Schedule H, the Guaranteed funds are reported at contract value. On the financial statement according to generally accepted accounting principles, the Guaranteed Funds are reported at fair market value resulting in the difference shown above.

Note H - Fair Value Measurements

The framework for measuring fair values provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <i>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</i>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled Separate Accounts: Valued at the Net Asset Value (NAV) of units of the fund held by the Plan based on the fair market value of the underlying investments of the fund. The funds do not have a finite life, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. The unit values are calculated by John Hancock Insurance Co.

Guaranteed Interest Accounts: Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent that such market rates exceed crediting rates.

Cash Surrender Value Life Insurance: Contract value as specified in the life insurance policy comprised of accumulated premiums less surrender charges and outstanding loans and interest.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
