Report on the financial statements

We were engaged to audit the accompanying financial statements of the Qualitor, Inc. Master Union Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, the statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note C, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2016 and 2015, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedules of Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016 and Schedule H, Part IV, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2016 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for disclaimer of opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note C, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2016 and 2015

Note A – Plan Description

The following description of the Qualitor, Inc. Master Union Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for complete information. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

General

The Plan was established by Qualitor, Inc. (the "Company") effective May 14, 1999. The Plan is a noncontributory defined benefit plan which is administered by the Company, with input from affected union employees as part of the collective bargaining process, and covers certain Qualitor, Inc. union employees at International Brake Industries, Inc. and McGuane Industries, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). On May 20, 2011 the International Brake operation in Ohio was permanently closed. All International Brake Industries, Inc. participants were fully vested at termination of employment on the date of closure. Hourly union employees of the International Brake Industries, Inc. represented by UAW Local 1975, became active participants in the Plan immediately after a probationary period set forth in the collective bargaining agreement. Union employees of McGuane Industries, Inc., represented by UAW Local 708, become active participants in the Plan on the first day of the month after a probationary period set forth in the collective bargaining agreement. An eligible employee is an employee represented by a collective bargaining unit. On February 15, 2016, the McGuane facility was shut down and at this time, the remaining active participant's benefits in the Plan were fully frozen and fully vested.

Funding Policy

All contributions to the Plan are made by the Company. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2016 and 2015, the Company made contributions of \$80,635 and \$70,859, respectively. The Company's contributions for 2016 and 2015 exceeded the minimum funding requirements of ERISA. Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA. No participant contributions are permitted.

Pension Benefits

Employees who reach the age of 65 will obtain non-forfeitable rights to a normal retirement benefit, provided the participant is employed by the Company until retirement. An employee with 5 or more years of service is entitled to early retirement benefits beginning at age 55, provided that the participant is employed by the Company at the time of early retirement. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. When an employee terminates employment for any reason, they may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement. The benefit level received is based upon years of credited service times a benefit multiplier as detailed in the plan document.

Note A – Plan Description (Continued)

Death and Disability Benefits

Employees who die after retirement shall have their annual pension benefits paid to their surviving spouse. For employees who are vested and die prior to receiving retirement benefits and are survived by a spouse to whom the participant had been married for at least one year prior to death, annual pension benefits are paid to the participant's spouse. Employees with 10 or more years of service and are determined by the Plan administrator to have become totally and permanently disabled during the course of employment are entitled to annual pension benefits.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable to employees based upon services rendered under the Plan's provisions. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on a formula which includes years of service as defined in the Plan document, and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

Notes to Financial Statements – Continued

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (Continued)

The actuarial present value of accumulated plan benefits is determined by an independent actuary from MWM Consulting Group. The latest actuarial valuation is dated December 31, 2015, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The computations of the actuarial present value report of accumulated plan benefits were made as of January 1, 2016 and 2015. Had the valuations been performed as of December 31, there would be no material differences.

Significant actuarial assumptions underlying the computations in 2015 are as follows:

Actuarial Present Value of Accumulated Plan Benefits

Long-term Rate of Return: 7.0% per annum for both periods

Mortality For 2015 RP-2014 projected to 2016 with scale MP-2016; For 2014 RP-2014 projected to 2014 with scale MP-2015

Normal retirement age 65 years of age for both periods

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connections with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investments related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Newly Adopted Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"), which updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value ("NAV") per share (or its equivalent). The updated guidance applies to reporting entities that elect to measure the fair value of certain investments valued using the NAV per share (or its equivalent) of the investment as a practical expedient. Currently, investments using the practical expedient are categorized within the fair value hierarchy on the basis of when the investment is redeemable with the investee at NAV. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measures using the NAV per share practical expedient. The amendments are effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. ASU 2015-07 is not applicable to this Plan.

Qualitor, Inc. Master Union Employees' Pension Plan

Notes to Financial Statements – Continued

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

Parts I and III are not applicable to the Plan, but the Company has adopted Part II. Accordingly, the amendments were retrospectively applied. The disclosures of individual investments that represent 5% or more of net assets available for benefits, and the net appreciation or depreciation in fair value of investments by general type have been removed. The level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

Subsequent Events

The Plan has evaluated subsequent events through September 20, 2017, the date that the financial statements were available to be issued.

Note C - Information Certified by Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fifth Third Bank (the "Trustee") certified that the following data included in the financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- Net investment income (loss), as shown in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2016 and 2015.
- Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016.
- Schedule H, Part IV, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2016.

Note C - Information Certified by Trustee (Continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Bond funds: Valued based on either the closing price reported on the active market on which the underlying securities are traded, the market for similar securities or on estimated fair value. Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31 2015:

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	\$149,843	\$ -	\$ -	\$ 149,843
Bond funds	-	444,532	-	444,532
Mutual funds	776,084	-	-	776,084
Total assets at fair value	<u>\$925,927</u>	<u>\$444,532</u>	<u>\$ -</u>	<u>\$1,370,459</u>

Note E – Tax Status

The Plan obtained its latest determination letter as of September 24, 2012, in which the Internal Revenue Service ("IRS") states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company's management is not aware of any uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note F – Plan Termination

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document, in the order indicated below:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note G – Party-in-Interest Transactions

Certain Plan investments are managed by the Trustee and, therefore, these transactions qualify as party-in-interest transactions.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Qualitor, Inc. Master Union Employees' Pension Plan

Notes to Financial Statements – Continued

December 31, 2016 and 2015

Note I – Risks and Uncertainties (Continued)

The Plan's contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22, Description of Weighted Average Retirement Age

QUALITOR, INC. MASTER UNION EMPLOYEES' PENSION PLAN EIN/PN: 38-3464466 / 002

The retirement age shown is based on an employee who fulfilled the minimum requirement for early eligibility and is calculated in accordance with the following formula which generally assumes employees terminate at the middle of the year.

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_r ERA + t) * (ERA + t + \frac{1}{2})$$

Note (1)

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_r ERA + t)$$

Note (1) the $\frac{1}{2}$ in the formula shown above is not used for $t = FRA-ERA$.

In the formula shown above ${}_t p_{ERA}$ is calculated using all of the decrements, and the $q_r ERA + t$ represents the sum of the applicable retirement decrements.

Also, ERA represents the earliest retirement age and FRA represents the age at which everyone is assumed to retire.
