1. DESCRIPTION OF PLAN:

The following description of the Columbus Radiology Corp 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which began December 23, 1969 and was restated January 1, 2016, is a defined contribution plan covering all employees, subject to certain exclusions, as defined, of Columbus Radiology Corp (the Employer). An eligible employee may participate in the Plan immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual eligible compensation to the Plan, as defined, subject to certain limitations of the Internal Revenue Code (IRC). The participants' elective deferrals are not taxed as compensation in the year of deferral. Participants may also make Roth elective contributions and rollover contributions representing distributions from other qualified defined benefit or contribution plans. Participants who reach age 50 may elect to make catch-up contributions.

The Employer elected to apply the safe harbor provisions of the IRC and make an Employer safe harbor nonelective contribution equal to 3% of compensation. Participants must be age 21 and have completed one year of service to be eligible for the nonelective contribution. The Employer could also make an additional discretionary matching contribution. During the year ended December 31, 2016, the Employer made no additional discretionary matching contribution.

The Employer may also make an additional discretionary profit sharing contribution to participants. For the year ended December 31, 2016, the Employer made an additional discretionary profit sharing contribution totaling \$2,407,523.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer contributions, and allocations of Plan investment earnings and appreciation in value. Each participant's account is credited with allocations of Plan investment income, appreciation in value, and charged for administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan's investments are participant-directed.

Vesting

All participants are 100% vested in elective deferrals, rollover contributions and Employer safe harbor contributions made to the Plan. Participants are 25% vested after two years, 50% vested after three years, 75% vested after four years and fully vested after five years of service in Employer discretionary contributions.

Payment of benefits

Upon termination of service, or termination due to death, disability or retirement, a participant or his or her beneficiary will receive a lump sum amount equal to the value of his or her account, or another payment option available under the Plan. Normal retirement age for an employee hired prior to October 1, 2016 is age 55; effective October 1, 2016, normal retirement age is age 65 for an employee hired on or after October 1, 2016.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer and are excluded from these financial statements. Investment related fees are included in net appreciation in fair value of investments. Fees related to participant directed transactions are charged directly to the participant's account and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The Plan's transactions are reported on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Profit Sharing Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Accounting changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan adopted Parts I and II of ASU 2015-12 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits. Part III is not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through October 9, 2017, the date that the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedules as of December 31, 2016 and 2015 and for the year ended December 31, 2016 was obtained from data that has been prepared and certified to as complete and accurate by Newport Trust Company (Newport), formerly Verisight Trust Company, the trustee as defined by the Plan:

Investments
Net appreciation in fair value of investments
Interest and dividend income
Assets held at end of year

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

- *Mutual funds*: The fair value of these securities is based on the net asset value (NAV) of shares held by the Plan at year end which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.
- *Exchange traded funds*: The fair value of these securities is based on the NAV of shares held by the Plan at year end which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.
- *Common collective trust*: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.
- *Cash and cash equivalents*: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

5. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested.

6. FORFEITED ACCOUNTS:

Forfeited nonvested accounts totaled \$129,971 and \$76,517, respectively, as of December 31, 2016 and 2015. Forfeited nonvested accounts shall be used to reduce future Employer contributions. During 2016, Employer discretionary profit sharing contributions were reduced by forfeited nonvested accounts of \$92,441.

7. SUBSEQUENT EVENT:

Effective January 1, 2017, the Plan was amended to merge into the Radiology Partners, Inc. 401(k) Profit Sharing Plan. Transfers of assets from the Plan are expected to be completed during 2017.

8. TAX STATUS:

The Employer elected to adopt a volume submitter plan of the plan administrator. The Internal Revenue Service issued an opinion letter dated March 31, 2014 which stated the volume submitter plan was in compliance with the applicable requirements of the IRC. The prototype plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the statements of net assets available for benefits.

10. NONEXEMPT TRANSACTIONS:

During 2016, certain participant elective deferral contributions totaling \$223,015 were not remitted to the Plan on a timely basis within the Department of Labor guidelines. Those contributions constituted nonexempt prohibited transactions. The Employer plans on taking necessary corrective actions for all the affected participants.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to total assets per Schedule H of Form 5500 as of December 31, 2016 and 2015:
