1. DESCRIPTION OF PLAN:

The following description of the Supply Chain Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which began on January 1, 1962, and was restated January 1, 2015, is a defined contribution plan covering all employees who are employed in certain payroll divisions of Exel Inc. (the Employer) and who meet the service and age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All full-time associates and those part-time associates who have attained eighteen years of age and have completed three months of service are eligible to participate in the Plan. All full-time associates and those part-time associates who have attained eighteen years of age and have completed three months of service are eligible for Employer matching contributions. All full-time associates and those part-time associates who have attained eighteen years of age and have completed six months of service are eligible for Employer discretionary contributions. Employees may enter the Plan on the first day of the month immediately after meeting Plan eligibility requirements.

Contributions

Participant contributions – Participants may elect to defer up to 75% of eligible compensation, as defined. Participants direct Plan contributions in 1% increments to any of the Plan's investment fund options. The participants' elective deferrals are not taxed as compensation in the year of deferral. Participants may also make rollover contributions which represent distributions from other qualified defined benefit or contribution plans. Participants who reach age 50 may elect to make catch-up contributions.

Employer matching contributions – The Employer has elected to apply the safe harbor provisions of the Internal Revenue Code (IRC). During 2016 and 2015, the Employer made safe harbor matching contributions equal to 100% of the first 4%, and 50% of the next 2% of compensation deferred by the participant.

Employer discretionary contributions – The Employer may also make additional discretionary contributions, which are not in excess of the maximum amount permissible as a deductible expense for Federal income tax purposes. The Employer made no discretionary contributions for the years ended December 31, 2016 or 2015.

Contributions are subject to limitations on annual additions and other limitations imposed by the IRC as defined in the Plan agreement.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer matching and discretionary contributions, and earnings and losses thereon. The Plan's investments are participant-directed.

Vesting

All participants are 100% vested in elective deferrals, rollover contributions and Employer safe harbor matching contributions. Participants are 25% vested after one year, 50% vested after two years, 75% vested after three years and fully vested after four years of service in Employer non safe harbor contributions.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer and are excluded from these financial statements. Investment related fees are included in net appreciation (depreciation) in fair value of investments. Fees related to participant directed transactions are charged directly to the participant's account and are included in administrative expenses.

Participant notes receivable

Participant notes receivable are permitted under certain circumstances and are subject to limitations. Participants may borrow from their funds up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Notes are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest rates as determined reasonable by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, total or permanent disability or retirement, a participant may receive a lump sum amount equal to the value of his or her account. Normal retirement is age 62; however, a participant may elect early retirement on or after age 55. The Plan also provides for early payment of benefit after reaching age 59 ½. The nonvested portion of the account is treated as a forfeiture. Hardship withdrawals are permitted in accordance with the Internal Revenue Service (IRS) guidelines.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Compensation & Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes receivable

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Upon default (as defined), the plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participant's vested account balance.

Contributions

Employee deferrals are recognized when withheld from a participant's pay and Employer matching contributions are recognized at the same time. Employer discretionary contributions are recognized when the Employer makes a commitment for such contributions.

Payment of benefits

Benefits are expensed when paid.

Risks and uncertainties

The Plan invests in various investment securities. Investments securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

Accounting changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2015; in 2016, the Plan adopted Part I of the ASU, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits. Part III is not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassifications

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements.

The Plan has evaluated subsequent events through August 8, 2017, the date that the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2016 and 2015 was obtained from data that has been prepared and certified to as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee as defined by the Plan:

Investments
Net appreciation (depreciation) in fair value of investments
Interest and dividend income
Assets held at the end of year

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

- Mutual funds: The fair value of these securities is based on the net asset value (NAV) of shares held by the Plan at year end which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.
- Interest-bearing cash: The carrying value approximates fair value.

- Common collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. FORFEITED ACCOUNTS:

Forfeited non-vested accounts totaled \$1,669 and \$12,779 as of December 31, 2016 and 2015, respectively. Forfeited Employer contributions will be used to first restore the balance of participants who are rehired and had forfeited balances, then to reduce future Employer contributions and then to pay plan administrative expenses. During 2016 and 2015, Employer matching contributions were reduced by \$59,026 and \$162,378, respectively.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are managed by Fidelity, the trustee, and, therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. TAX STATUS:

On October 28, 2016, the IRS determined that the Plan was in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

1. DESCRIPTION OF PLAN:

The following description of the Supply Chain Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which began on January 1, 1962, and was restated January 1, 2015, is a defined contribution plan covering all employees who are employed in certain payroll divisions of Exel Inc. (the Employer) and who meet the service and age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All full-time associates and those part-time associates who have attained eighteen years of age and have completed three months of service are eligible to participate in the Plan. All full-time associates and those part-time associates who have attained eighteen years of age and have completed three months of service are eligible for Employer matching contributions. All full-time associates and those part-time associates who have attained eighteen years of age and have completed six months of service are eligible for Employer discretionary contributions. Employees may enter the Plan on the first day of the month immediately after meeting Plan eligibility requirements.

Contributions

Participant contributions – Participants may elect to defer up to 75% of eligible compensation, as defined. Participants direct Plan contributions in 1% increments to any of the Plan's investment fund options. The participants' elective deferrals are not taxed as compensation in the year of deferral. Participants may also make rollover contributions which represent distributions from other qualified defined benefit or contribution plans. Participants who reach age 50 may elect to make catch-up contributions.

Employer matching contributions – The Employer has elected to apply the safe harbor provisions of the Internal Revenue Code (IRC). During 2016 and 2015, the Employer made safe harbor matching contributions equal to 100% of the first 4%, and 50% of the next 2% of compensation deferred by the participant.

Employer discretionary contributions – The Employer may also make additional discretionary contributions, which are not in excess of the maximum amount permissible as a deductible expense for Federal income tax purposes. The Employer made no discretionary contributions for the years ended December 31, 2016 or 2015.

Contributions are subject to limitations on annual additions and other limitations imposed by the IRC as defined in the Plan agreement.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer matching and discretionary contributions, and earnings and losses thereon. The Plan's investments are participant-directed.

Vesting

All participants are 100% vested in elective deferrals, rollover contributions and Employer safe harbor matching contributions. Participants are 25% vested after one year, 50% vested after two years, 75% vested after three years and fully vested after four years of service in Employer non safe harbor contributions.

Administrative expenses

Certain expenses incurred in the administration of the Plan are paid by the Employer and are excluded from these financial statements. Investment related fees are included in net appreciation (depreciation) in fair value of investments. Fees related to participant directed transactions are charged directly to the participant's account and are included in administrative expenses.

Participant notes receivable

Participant notes receivable are permitted under certain circumstances and are subject to limitations. Participants may borrow from their funds up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Notes are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest rates as determined reasonable by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, total or permanent disability or retirement, a participant may receive a lump sum amount equal to the value of his or her account. Normal retirement is age 62; however, a participant may elect early retirement on or after age 55. The Plan also provides for early payment of benefit after reaching age 59 ½. The nonvested portion of the account is treated as a forfeiture. Hardship withdrawals are permitted in accordance with the Internal Revenue Service (IRS) guidelines.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Compensation & Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes receivable

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Upon default (as defined), the plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participant's vested account balance.

Contributions

Employee deferrals are recognized when withheld from a participant's pay and Employer matching contributions are recognized at the same time. Employer discretionary contributions are recognized when the Employer makes a commitment for such contributions.

Payment of benefits

Benefits are expensed when paid.

Risks and uncertainties

The Plan invests in various investment securities. Investments securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

Accounting changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2015; in 2016, the Plan adopted Part I of the ASU, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits. Part III is not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassifications

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements.

The Plan has evaluated subsequent events through August 8, 2017, the date that the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2016 and 2015 was obtained from data that has been prepared and certified to as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee as defined by the Plan:

Investments
Net appreciation (depreciation) in fair value of investments
Interest and dividend income
Assets held at the end of year

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

- Mutual funds: The fair value of these securities is based on the net asset value (NAV) of shares held by the Plan at year end which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.
- Interest-bearing cash: The carrying value approximates fair value.

- Common collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:
