Note 2: Summary of Significant Accounting Policies:

Basis of accounting:

The plan prepares its financial statements on the accrual basis of accounting.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on the accrual basis. Dividends earned by the funds are included in the unit value and, accordingly, are included in net appreciation (depreciation) in fair value of investments which includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles require the Plan Administrator to make estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from from those estimates.

Related fees are recorded as administrative expenses and are expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Note 2: Summary of Significant Accounting Policies (continued):

Excess Contributions Payable:

Expenses:
Certain expenses of maintaining the Plan are paid by thr Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements.

Note 3: Plan Termination:

Although it has not expressed an interest to do so, the Company has the right under the Plan to change or terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, amounts credited to the participant's accounts shall be fully vested and are nonforfeitable.

Note 4: Investments:

John Hancock has certified to the accuracy and completeness of investments and related income as reported in the accompanying financial statements and supplemental schedule. Refer to Schedule 1 for a detailed description of the investments.

Note 5: Fair Value Measurements:

Financial Accounting Standards Boards (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB (ASC) 820 are described as follows:

Note 5: Fair Value Measurements (continued):

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2: Inputs to the valuation methodology include
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be obervable for substantially the full term of the asset or liabilitiy.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Note 5: Fair Value Measurements (continued):

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value at December 31, 2016 and 2015:

	December 31, 2016

See independent auditor's report.

Note 6: Party-in-Interest Transactions:

The employer pays certain administrative expenses of the plan. Certain of the Plan's investments are mutual funds managed by an affiliate of the Plan's custodian.

Note 7: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securites will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

Note 8: Internal Revenue Status:

The Plan is intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986 (the "Code") and is intended to be exempt from taxation under Section 501 (a) of the Code. The Plan Administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The tax years ended December 31, 2013 through 2016 are still open for potential audit.
