(the Company or Employer), as well as employees of McGohan Brabender Financial, LLC, MB Senior Solutions, LLC and WellVibe. Effective August 15, 2016, the multiple employer plan participation agreements with McGohan Brabender Financial, LLC and WellVibe were dissolved. As of that date, employees of these companies are no longer eligible to participate in the Plan. Employees must have completed six months of continuous service and be age 21 or older to be eligible to participate and receive the Employer match and profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may contribute up to the maximum percentage allowable not to exceed the limits of Section 401(k) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company matches participant deferrals up to 6% of a participant's compensation as defined by the Plan document. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. There were no profit sharing contributions made in 2016. Contributions are subject to certain limitations.

Rollovers: The plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan sponsor. Participants are fully vested in these amounts.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Employer's contributions and the plan's earnings. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account. Each participant directs both separately and distinctly, into which investment the participant contribution and Employer contributions are to be invested.

Vesting: Participants are immediately vested in their contributions, Employer matching contributions and Employer profit sharing contributions, as well as actual earnings on those contributions.

Notes receivable from participants: Participants may borrow from their vested fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans bear interest at an agreed-upon percentage based on prevailing market rates. Loan terms are for a period not exceeding five years, unless it is used to purchase a primary residence.

Each loan is collateralized by the remaining balance in the participant's account. Principal and interest is paid ratably through payroll deductions. Interest rates on notes receivable ranged from 3.25% to 4.25% as of December 31, 2016 and 2015.

Payment of benefits: If a participant's employment ceases as a result of normal retirement, death or disability, the participant or the participant's beneficiaries are entitled to receive the entire value of the participant's account. If a participant terminates for any other reason, the participant is entitled to receive only the value of the vested interest in their account. Participants will receive benefits in a single lump sum or substantially equal installments.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Forfeited, nonvested accounts totaled \$668 at December 31, 2016 (\$1,024 at December 31, 2015). Forfeited accounts will be used to reduce future Employer contributions or will be allocated to the remaining participants' accounts. During 2016, \$1,863 of forfeitures were used to reduce Employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investments: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend income.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits payments to participants are recorded when paid.

Administrative expenses: The Company has elected to pay certain costs associated with Plan administration from its operating assets.

Subsequent events: Subsequent events have been evaluated through October 6, 2017 the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Custodian

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2016 and 2015 and for the year ended December 31, 2016 was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodian that information provided to the Plan administrator by the custodian related to these Plan investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedule related to the Plan's investments.

The custodian of the Plan also certified to the completeness and accuracy of \$1,084,054 of net appreciation in fair value of investments and \$657,099 of dividends and interest for the year ended December 31, 2016. The remaining appreciation of \$221,090 and dividends and interest of \$77,052 relates to investment income from self-directed brokerage accounts and was not certified by the custodian.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets or liabilities through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed brokerage accounts: Valued at the fair value of the underlying assets in the individual brokerage accounts at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of Levels 1, 2, or 3.

Assets measured at fair value on a recurring basis: The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

<u>At December 31, 2016</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total investments at fair value	\$ 26,819,642	\$ 106,427	\$ -	\$ 26,926,069

<u>At December 31, 2015</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total investments at fair value	\$ 23,935,286	\$ 102,404	\$ -	\$ 24,037,690

Note 5. Investment Contract with Insurance Company

The Plan has one traditional investment contract with Standard Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and is therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

401(k) Profit Sharing Plan**

Notes to Financial Statements

Note 5. Investment Contract with Insurance Company (Continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on Standard Insurance Company's ability to meet its financial obligations. Standard Insurance Company's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value, is probable. The Plan may terminate the contract at any time with 30 days advance written notice.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include the following: contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, plan disqualification and failure to adopt the plan in a reasonable period of time. Upon termination, a market value adjustment or other withdrawal restrictions may apply.

Note 6. Related Party Transactions

Certain Plan investments are insurance company general accounts managed by Standard Insurance Company. Standard Insurance Company is the current recordkeeper as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

In addition, Plan assets are invested in individual brokerage accounts with Charles Schwab & Co., Inc. Thus, Charles Schwab & Co., Inc., as a custodian defined by the Plan, qualifies as a party-in-interest.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

401(k) Profit Sharing Plan**

Notes to Financial Statements

Note 9. Income Tax Status

The Plan has adopted a standardized form of a prototype plan sponsored by Standard Retirement Services, Inc. The prototype plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan opinion letters have been relied upon by the Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2013.

Note 10. Prohibited Transactions

During the Plan year ended December 31, 2015, the Company inadvertently failed to deposit \$24,065 of participant contributions and loan repayments within the required timeframe as stated by the United States Department of Labor (DOL) regulations. These contributions were remitted to the plan in 2015. The Company reimbursed the Plan for lost earnings in the amount of approximately \$26 in 2016 to correct this failure.

Note 11. Subsequent Event

Effective July 19, 2017 the Plan was amended to change to Milliman, Inc. as its recordkeeper and trustee from The Standard Insurance Company (recordkeeper) and Reliance Trust Company (trustee). The investments of the Plan were liquidated and settled with the broker on August 11, 2017.
