INDEPENDENT AUDITORS' REPORT

The Plan Administrator and Participants
Diebold, Incorporated Pension Plan for Hourly Employees
North Canton, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Diebold, Incorporated Pension Plan for Hourly Employees (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 2, the Plan adopted the provisions of Financial Accounting Standards Board Accounting Standards Update 2015-12, Plan Accounting: (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures – consensuses of the Emerging Issues Task Force and 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality:	
■ Healthy	Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2031 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2023 using Scale AA).
■ Disabled	Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.
Termination	Not applicable
Disability	Not applicable
Retirement	Age 62 for former employees with at least 10 years of service, age 65 for all others
Form of payment	For valuation purposes, participants are assumed to elect the single life form.
Percent married	85% of males; 50% of females. Used to value pre-retirement surviving spouse benefits.
Spouse age	Wife three years younger than husband.
Covered pay	Not applicable
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.
Administrative expenses	Administrative expenses of \$72,538 are included in the Target Normal Cost. This is equal to the actual administrative expenses paid in the prior year \$64,516 with an adjustment for the increase in the expected 2016 PBGC variable rate premium to be paid \$8,022.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	None.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated as the actual expenses paid from the trust the preceding year and reflecting estimated increases in PBGC variable rate premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Retirement	Retirement rates were selected by the plan sponsor and represent a best estimate of future experience.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	The form of payment is based on the normal form of the plan. Other forms are considered to be actuarially equivalent.
Marital assumptions:	
■ Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
■ Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2014 to September 2015.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

Note 1: Description of the Plan

The following brief description of the Diebold, Incorporated Pension Plan for Hourly Employees (the “Plan”) is provided for general information purposes only. Participants and users of the financial statements should refer to the Plan document for more complete information.

(a) General

The Plan is a defined benefit pension plan designed to provide retirement benefits to former employees of the Canton, Ohio plant of Diebold Nixdorf, Incorporated (the “Company”) who were within the bargaining units of Lodge 1191 of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers (AFL-CIO-CFL) and the Safe Workers’ Organization, Chapter 1, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan has been amended and restated to either provide additional benefits or options, or to comply with changes in the law.

(b) Retirement Dates

The normal retirement date of a participant is the later of the 65th anniversary of his or her date of birth or the 5th anniversary of the date the employee commenced participation in the Plan. Any employee who has attained 30 or more years of benefit service may retire regardless of age. The early retirement date of a participant is the 62nd anniversary of his or her date of birth if such participant has 10 or more years of benefit service; an alternate early retirement date is the 60th anniversary of the date of birth if the participant has 10 or more years of benefit service and elects to receive actuarially reduced benefits. Any employee who has completed 15 or more years of benefit service and becomes incapacitated by total and permanent disability is retired and receives a disability retirement benefit. In addition, any participant who has five or more years of vesting service but whose service is broken before the age of 65 retains the right to receive a vested deferred pension benefit commencing at the age at which he or she could have elected to retire or would have been retired by the Company.

(c) Benefit Service

Benefit service is computed to the nearest month and is credited and computed for each calendar year for each employee on the basis of his or her total hours of service during such calendar year and prior to retiring. An employee who is credited with at least one hour of service in any week is credited with an entire week (45 hours). Any calendar year in which the employee has 1,600 or more hours of service is counted as one year of benefit service. The maximum number of years of benefit service which can be acquired by an employee cannot exceed 30 years.

(d) Trust Fund Management

Under the terms of the trust agreement between The Bank of New York Mellon (the “Trustee”) and the Plan, the Trustee manages the trust funds and executes transactions on behalf of the Plan. All investments, as of December 31, 2016 and 2015, and a portion of the investment income for the year ended December 31, 2016, are included in the financial statements have been reported to the Plan by the Trustee as having been determined through the use of fair values of all assets of the trust fund.

(e) Vested Benefits

Vested benefits means the retirement benefit to which an employee, whose service terminated after his or her vesting date, is entitled. After five years of vesting service, such vested benefit is 100 percent of the employee's accrued benefit.

(f) Preretirement Survivor Annuity

Effective January 1, 1985, an active or terminated employee who has attained his or her vesting date, is married to an eligible surviving spouse, and who dies before his or her pension starting date, has a preretirement survivor annuity provided, as of the date of death, for the eligible surviving spouse.

Note 2: Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting and are in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company has evaluated subsequent events through the date the Plan financial statements were available to be issued, October 11, 2017. There were no significant subsequent events that have occurred which would require adjustments to or disclosure in the Plan financial statements.

(b) Recently Issued Accounting Guidance

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting: Defined Benefit Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting* ("ASU 2017-06") with the objective to clarify the presentation requirements for interests in master trusts and add requirements to make information presented more useful to the reader. The amendments in this update require that interests in master trusts and any change in interest to be presented as separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. The amendment supplements the existing requirement to disclose the master trust's balances in each general type of investments by requiring the disclosure of the amount of interest in each of the general types of investments. The amendments also requires the disclosure of the master trust's other asset and liability balances, and the plan's interest in those balances. This guidance is effective for fiscal years beginning after December 15, 2018. The standard becomes effective for the Plan on January 1, 2019. The future adoption of 2017-06 will not impact the Plan's Net Assets Available for Benefits but will modify certain disclosures relating to the Plan's interest in the Diebold, Incorporated Pension Master Trust ("Master Trust").

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts ("FBRIC") and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU became effective for fiscal years beginning after December 15, 2015 with Parts I and II to be applied retrospectively and Part III to be applied prospectively. The Plan adopted the provisions of Part I and Part II of ASU 2015-12 for the year ended December 31, 2016 and has applied the update retrospectively to the year ended December 31, 2015. Part III is not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07 which removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient. The ASU became effective for fiscal years beginning after December 15, 2015. The Plan adopted ASU 2015-07 effective December 31, 2016 and applied it retrospectively to the 2015 financial statements, however, it did not have an impact on the financial statements of the Plan.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Due to investments in partnerships within the Master Trust not being traded on an active market, the values as of any particular date are not necessarily indicative of amounts that may ultimately be realized as a result of future sales or other dispositions of investments held. The estimated values may differ significantly from the values that would have been used had an active market for the securities existed. Actual results could differ from those estimates.

DIEBOLD, INCORPORATED PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements

December 31, 2016 and 2015

(d) Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. Significant assumptions underlying the actuarial computations include:

- Assumed retirement based at age 62 for employees who have 10 years of service and age 65 for all others;
- Assumed valuation interest rates for 2016 and 2015 of 7.40 percent and 7.75 percent, respectively, compounded annually;
- Assumed turnover and disability rates based on published statistical data and tables;
- Assumed mortality rates based upon the RP-2014 Combined Health Mortality Table ("RP-2014") with separate male and female rates modified to remove the post-2006 projections using the MP-2014 mortality improvements scale with the MP-2016 generational projection scale, projected to the valuation date (January 1, 2017) for December 31, 2016 results.
- Assumed mortality rates based upon the RP-2014 with separate male and female rates, projected to the valuation date (January 1, 2016) for December 31, 2015 results.

The actuarial cost method used by the actuary is the unit credit cost method. This is a method under which an accrued benefit is calculated as of the beginning of the year and as of the end of the year for each benefit that may be payable in the future. The accrued benefit is based on the Plan's accrual formula and upon service as of the beginning or end of the year. For benefits where the Plan's accrual formula is not relevant, benefits are assumed to accrue on a straight-line basis over the period during which the employee earns credited service. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for the employed participants and is the present value of all benefits for other participants.

The December 31, 2016 calculation of the actuarial present value of accumulated benefits contains a \$147,260 change in actuarial assumption due to a 0.35 percent decrease in the interest discount rate and a change in the mortality generational projection scale from MP-2014 projected to the valuation date (January 1, 2016) to MP-2016 projected to the valuation date (January 1, 2017).

(e) Reclassifications

The Plan has reclassified the presentation of certain prior-year information to conform with current presentation.

Note 3: Funding Policy

The Company met the minimum funding requirements of ERISA for 2016 and 2015.

Note 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of permanent termination of the Plan, the assets then remaining in the trust fund, subject to provision for expenses incident to such termination, are allocated in the following priority: first, to retirees who began receiving benefits at least three years before termination, including benefits to individuals who would have received benefits for at least three years had they retired that long ago; second, to all other individuals guaranteed under the termination insurance provisions of ERISA; third, among all other non-forfeitable benefits; and fourth, among all other benefits under the Plan. In the event the Plan assets are not sufficient to accomplish the above method of termination, the assets are distributed pro rata to participants based on the present value at termination date of their individual benefits, with all accrued funded rights non-forfeitable in any case.

DIEBOLD, INCORPORATED PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements

December 31, 2016 and 2015

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the amount of an individual’s monthly benefit that the PBGC guarantees.

Note 5: Investments

The Company has adopted a pension investment policy designed to achieve an adequate funding status based on expected benefit payouts and to establish an asset allocation that will meet or exceed the return assumption while maintaining a prudent level of risk. The Company utilizes the services of an outside consultant in performing asset / liability modeling, setting appropriate asset allocation targets along with selecting and monitoring professional investment managers.

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investment information is certified complete and accurate or derived from information certified complete and accurate by the Trustee as of December 31, 2016 and 2015, and the year ended December 31, 2016 with the exception of certain partnership/joint venture interests within the Master Trust. The fair value of these investments within the Master Trust was \$12,975,224 and \$16,852,109 as of December 31, 2016 and 2015, respectively, with related appreciation of \$1,216,772 for the year ended December 31, 2016.

Assets of the Plan are maintained on a commingled basis with assets of one other pension plan of the Company in a Master Trust for investment purposes, with the allocation of assets, earnings, and expenses among the funds maintained by the Trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016. The Plan’s equitable share of the Master Trust’s assets was approximately 3.4 percent and 3.6 percent at December 31, 2016 and 2015, respectively.

The assets of the Master Trust as reported by the Trustee at December 31 were:

	2016	2015

Note 6: Fair Value Measurements

The fair value framework described in FASB Auditing Standards Codification (“ASC”) 820, *Fair Value Measurements*, requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment.

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>

Total investments				<u>\$ 346,829,800</u>

For the years ended December 31, 2016 and 2015, there were no transfers between levels.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Investments that were measured at NAV per share are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the Plan's total investments at fair value. Valuation methodologies used for assets measured at fair value are as follows:

- Cash, short-term investments, mutual funds, and corporate stocks: Valued based on period end closing prices in active markets on which the individual securities are traded.
- Emerging markets: Valued by fund managers using the latest reported information for comparable securities and financial analysis. If the manager believes the fund is not capable of immediately realizing the fair value otherwise determined, the manager has the discretion to determine an appropriate value.
- Fixed income securities: Valued on the latest available ask price or latest price if listed.
- Common collective trusts and alternative investments using NAV per share practical expedient: Valued at the Plan's interest in private equity, hedge and property funds. The value is determined based on the NAV as reported by the underlying investment managers.

	<u>Fair Value</u>		<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
	<u>2016</u>	<u>2015</u>			
Common collective trusts					
Northern Trust Large Cap Index	\$ 59,396,971	\$ 59,237,912	N/A	Daily	1 day notice
JP Morgan Long Duration	\$ 88,984,315	\$ 84,202,149	N/A	Daily	1 day notice
Alternative investments					
Blackstone Hedge	\$ 17,638,134	\$ 17,147,309	N/A	Semi-annually	95 day notice
Portfolio Advisors Private Equity	\$ 12,975,224	\$ 16,852,109	\$ 5,529,423	Not eligible	N/A
JP Morgan Core Real Estate	\$ 18,103,604	\$ 19,625,724	N/A	Quarterly	45 day notice

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market

participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated January 24, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). As of December 31, 2016, the Company believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since receiving the determination letter. The Plan’s sponsor has provided the IRS with an application for an updated determination letter which is currently in process. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for the income taxes has been included in the Plan's financial statements.

Note 8: Party-In-Interest

Certain Plan investments are managed by the Trustee and, therefore, these transactions are party-in-interest transactions. Fees are paid by the Master Trust for asset custody and management to parties-in-interest. These fees are pursuant to arrangements exempted from the prohibited transaction rules.
