SCHEDULE SB ATTACHMENTS

Administrative expenses	Administrative expenses of $3,430,874 are included in the Target Normal Cost. This is equal to the actual administrative expenses paid in the prior year, $2,971,464, with an adjustment for the increase in the expected 2016 PBGC variable rate premium to be paid, $459,410.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	None

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the Plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated as the actual expenses paid from the trust the preceding year and reflecting estimated increases or decreases in PBGC variable rate premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC 430(h).
Retirement	Retirement rates are based on plan sponsor expectations and represent a best estimate of future experience.
Benefit commencement date for deferred benefits	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the Plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	The form of payment is based on the normal form of the Plan. Other forms are considered to be actuarially equivalent.

Marital assumptions:

- Percent married — The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
- Spouse age — The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target were updated from an applicable month of September 2014 to September 2015
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements

as of January 1, 2016

See Schedule SB, Part V - Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by creating a hypothetical life table with retirement as the only decrement, and then computing the average retirement age for the table.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The plan was originally effective December 31, 1942. The plan was most recently amended to freeze plan accruals effective December 31, 2013 and to provide for a Voluntary Early Retirement Program (VERP) effective September 1, 2013.

Coverage and participation	An employee shall become a Participant on the 1st of the month following his completion of a Year of Participation Service; however, no one hired or rehired on or after July 1, 2003 shall be eligible to participate in the Plan.

Definitions

Vesting service	A Participant shall receive Service for the period of time between his Date of Hire and Date of Severance in determining eligibility for both benefits and vesting.
Benefit service	A Participant shall receive Service for the period of time between his Date of Hire and Date of Severance or December 31, 2013, if earlier. Service earned after December 31, 2013 will not be reflected in determining benefit amounts.
Final average compensation/salary	Plan compensation is defined as an employee's W-2 compensation, excluding any amount included therein as imputed income for the value of non-cash compensation and any type of expense reimbursement and related tax allowance from an Employer, plus deferrals under the Diebold, Incorporated 401(k) Savings Plan. Annual compensation is limited under Section 401(a)(17) of the Internal Revenue Code. Final Average Compensation is defined as the five highest consecutive calendar years of Annual Compensation divided by 60 out of the 10 calendar years of employment that are immediately prior to retirement or termination of employment. Compensation earned after 2013 is not reflected.

Normal retirement

Benefit: The monthly normal retirement benefit payable on a single life basis is equal to the greater of (a) or (b) plus (c) below:

(a) A benefit calculated as 1/12 of the following:

(i) 0.8% of Final Average Compensation up to covered Compensation, plus

(ii) 1.25% of Final Average Compensation in excess of Covered Compensation, times

(iii) Credited Service (maximum 30 years).

(b) $16.00 per month per year of Credited Service (maximum 30 years), plus 1/12 of 20% of the portion of final Average Compensation which exceeds $14,400 (reduced proportionately for Credited Service less than 30 years).

(c) For a participant terminating after January 1, 1992, an amount equal to $4.20 times Credited Service (maximum 30 years).

For a Participant whose Accrued Benefit as of January 1, 1994, is based on Annual Compensation which exceeds Code Section 401(a)(17) limitations, the amount above may be increased, if larger, to the following sum of (i) and (ii):

SCHEDULE SB ATTACHMENTS

(i) the Participant's monthly Accrued Benefit as of December 31, 1993, frozen in accordance with regulations Section 1.401(a)(4)-13, and

(ii) the Participant's monthly Accrued Benefit determined under (a) through (c) above using the Participant's Credited Service accruing after January 1, 1994, but not in excess of 30 years when combined with the Credited Service for all years.

For those active participants as of January 1, 2005, who were not highly compensation employees for the 2005 Plan Year, the minimum annual benefit is $1,800.

For certain officers, the normal retirement benefit is equal to the amount in Exhibit C of Amendment #3 of the Plan and will be paid based on the timing, manner and form of payment noted under **Additional Benefits** in the succeeding pages.

Early retirement

The accrued normal retirement pension as computed above based on Credited Service and Final Average Compensation prior to retirement. The benefit is actuarially reduced for commencement prior to age 65. If the Participant has 30 or more years of Credited Service at retirement, there is no actuarial reduction for that portion of his monthly benefit which is comprised of $16.00 per year of Credited Service.

Pre-65 Retiree Medical Supplement

The monthly benefit payable from the date of retirement to age 65 determined as a result of taking (a) minus (b) below:

(a) $9.20 times Credited Service (to a maximum of 30 years).

(b) The monthly annuity equivalent of the participant's retiree-medical account balance in the Diebold, Incorporated 401(k) Savings Plan.

This benefit will be actuarially reduced for commencement prior to age 63.

Deferred vested termination

The accrued normal retirement pension payable at age 65 or, alternatively, an actuarially reduced pension payable early if the employee has a combined age and years of Credited Service of at least 70.

SCHEDULE SB ATTACHMENTS

Disablement	The accrued normal retirement benefit as computed above is payable until Normal Retirement at which time the Normal Retirement benefit is payable.
Preretirement death	The surviving spouse will receive the benefit she would have received if the Participant had retired on the first day of the month of his death or earliest retirement date, if later, and had elected a 50% Joint and Survivor Option and then died.

Other Plan Provisions

Additional benefits	For certain officers an additional benefit is payable at age 62 (or as early as age 60 on a reduced basis). If married, the benefit is payable on an unreduced 100% Joint and Survivor basis with five years of payments guaranteed. Participants hired between October 1, 2002 and December 31, 2002 receive their December 31, 2004, accrued benefit at age 62 with no reduction (or actuarially reduced from age 62 for commencement before age 62). If married, the benefit is payable on a fully subsidized 100% Joint and Survivor basis with five years of payments guaranteed.
Pension Increases	None
Plan participants' contributions	None
Special Termination Benefits	*2001 VERP:* All participants who were on Diebold's active payroll as of February 7, 2001, had attained age 55 and whose age plus service total at least 65 as of June 30, 2001, were eligible for the VERP. *2005 VERP:* All participants who were on Diebold's active payroll as of October 6, 2005, had attained age 55 and whose age plus service total at least 65 as of December 31, 2005, were eligible for the VERP. Participants in certain job classifications were excluded from the VERP.

SCHEDULE SB ATTACHMENTS

Under the VERP, participants were eligible for special termination benefits. These special termination benefits provided an additional three years of service (subject to a 30-year cap and three years of age for benefit calculation purposes.

2013 VERP:
All active participants in the Plan as of June 30, 2013 with attained age plus vesting service greater than or equal to 70 were eligible for the VERP. Electing participants were required to retire December 1, 2013, or later with prior approval.

Participants electing the VERP received enhanced benefits and the opportunity to receive the pension as a lump sum. Those electing the VERP had benefit calculated assuming an additional two years of age and service (up to a maximum of 32 years of credit service).

Those electing the lump sum received the greater of the present value of the enhanced benefit payable immediately and the unenhanced benefit payable at the normal retirement age. For purposes of the VERP, the lump sum present value is determined using 417(e) assumptions including a quarterly stability period and a four month lookback.

Forms of payment

The benefit is normally payable on a single life basis if not married, otherwise the benefit is payable on an actuarially reduced 50% Joint Survivor basis. An actuarially reduced 75% Joint Survivor and 100% Joint Survivor are also available if married. Actuarial equivalence is based on the UP-1984 mortality table and 6.5% interest.

Future Plan Changes

No future plan changes were recognized in determining funding requirements.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Note 1: Description of the Plan

The following brief description of the Diebold, Incorporated Retirement Plan for Salaried Employees (the "Plan") is provided for general information purposes only. Participants and users of the financial statements should refer to the Plan document for more complete information.

(a) General

The Plan is a defined benefit pension plan sponsored by Diebold Nixdorf, Incorporated (the "Company") that covers substantially all salaried employees hired prior to July 1, 2003. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has been amended and restated to either provide additional benefits or options, or to comply with changes in the law. The Plan was closed to new hires effective July 1, 2003. In July 2013, the Company's board of directors approved freezing the Plan benefits effective as of December 31, 2013 for U.S.-based employees who joined the Company prior to July 1, 2003.

(b) Retirement Dates

The normal retirement date of a participant is the later of the 65th anniversary of his or her date of birth or the 5th anniversary of the date the associate commenced participation in the Plan. A participant who has attained age 50 and whose combined age and years of credited service equals or exceeds a total of 70, or a participant who has completed 30 or more years of benefit service regardless of attained age, may retire at any time thereafter under early retirement. A participant who has completed 15 or more years of credited service and becomes incapacitated by total and permanent disability may retire and receive a disability retirement benefit. If, for any reason other than death, the services of a participant are terminated after completion of at least five years of vesting service with the Company but prior to normal or early retirement, such participant shall have a deferred vested benefit to commence distribution at the normal retirement date.

(c) Credited Service

Credited service is the total number of years of service accumulated by a participant prior to his or her retirement. A participant accumulates credited service based upon the total period of continuous service covered under the Plan. For each full year of continuous service, a participant receives credit for one year of credited service. The maximum number of years of credited service cannot exceed 30 years. No additional credited service accrues after December 31, 2013.

(d) Trust Fund Management

Under the terms of the trust agreement between The Bank of New York Mellon (the "Trustee") and the Plan, the Trustee manages the trust funds and executes transactions on behalf of the Plan. All investments, as of December 31, 2016 and 2015, and a portion of the investment income for the year ended December 31, 2016, are included in the financial statements have been reported to the Plan by the Trustee as having been determined through the use of fair values of all assets of the trust fund.

(e) Vested Benefit

Vested benefit is the retirement benefit to which a participant, whose service terminated after his or her vesting date, is entitled. After five years of vesting service, such vested benefit is 100 percent of the participant's accrued benefit derived from the Company contributions. A participant earns vesting service based upon the total period of service covered under the Plan including service after the Plan freeze date of December 31, 2013.

(f) Normal Retirement Benefit

The normal monthly retirement benefit is equal to the greater of:

- Benefit calculated as 0.8 percent of final average monthly compensation, as defined, up to covered compensation, as defined, plus 1.25 percent of final average monthly compensation in excess of covered compensation, multiplied by credited service (maximum of 30 years);
- Sixteen dollars per month per year of credited service, plus 20 percent of the portion of final average monthly compensation which exceeds $1,200 (reduced proportionately for credited service under 30 years); or
- Accrued benefit as of July 31, 1991 under the Plan prior to the Plan amendment, which became effective January 1, 1992.

In addition, all participants retiring after January 1, 1992, receive a monthly retiree medical supplement equal to $4.20 times years of credited service up to a maximum of 30 years.

(g) Death Benefit

A surviving spouse of a vested participant who dies prior to retirement is entitled to a spouse's benefit. The spouse's benefit is a pension payable for the life of the spouse equal to the amount that would have been payable to the surviving spouse had the participant retired immediately preceding his or her death and elected a 50 percent joint and survivor option.

Note 2: Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting and are in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company has evaluated subsequent events through the date the Plan financial statements were available to be issued, October 11, 2017. There were no significant subsequent events that have occurred which would require adjustments to or disclosure in the Plan financial statements. The Plan is currently going through an audit by the Department of Labor.

(b) Recently Issued Accounting Guidance

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting: Defined Benefit Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting* ("*ASU 2017-06*") with the objective to clarify the presentation requirements for interests in master trusts and add requirements to make information presented more useful to the reader. The amendments in this update require that interests in master trusts and any change in interest to be presented as separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. The amendment supplements the existing requirement to disclose the master trust's balances in each general type of investments by requiring the disclosure of the amount of interest in each of the general types of investments. The amendments also requires the disclosure of the master trust's other asset and liability balances, and the plan's interest in those balances. This guidance is effective for fiscal years beginning after December 15, 2018. The standard becomes effective for the Plan on January 1, 2019. The future adoption of 2017-06 will not impact the Plan's Net Assets Available for Benefits but will modify certain disclosures relating to the Plan's interest in the Diebold, Incorporated Pension Master Trust ("Master Trust").

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts ("FBRIC") and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU became effective for fiscal years beginning after December 15, 2015 with Parts I and II to be applied retrospectively and Part III to be applied prospectively. The Plan adopted the provisions of Part I and Part II of ASU 2015-12 for the year ended December 31, 2016 and has applied the update retrospectively to the year ended December 31, 2015. Part III is not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07 which removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient. The ASU became effective for fiscal years beginning after December 15, 2015. The Plan adopted ASU 2015-07 effective December 31, 2016 and applied it retrospectively to the 2015 financial statements, however, it did not have an impact on the financial statements of the Plan.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Due to investments in partnerships within the Master Trust not being traded on an active market, the values as of any particular date are not necessarily indicative of amounts that may ultimately be realized as a result of future sales or other dispositions of investments held. The estimated values may differ significantly from the values that would have been used had an active market for the securities existed. Actual results could differ from those estimates.

(d) Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. Significant assumptions underlying the actuarial computations include:

- Assumed retirement based on a table of retirement rates beginning at age 50 through age 70 which result in an average retirement age of 62;
- Assumed valuation interest rates for 2016 and 2015 of 7.40 percent and 7.75 percent, respectively, compounded annually;
- Assumed turnover and disability rates based on published statistical data and tables;
- Assumed mortality rates based upon the RP-2014 Combined Health Mortality Table (“RP-2014”) with separate male and female rates modified to remove the post-2006 projections using the MP-2014 mortality improvements scale with the MP-2016 generational projection scale, projected to the valuation date (January 1, 2017) for December 31, 2016 results.
- Assumed mortality rates based upon the RP-2014 with separate male and female rates, projected to the valuation date (January 1, 2016) for December 31, 2015 results.

The actuarial cost method used by the actuary is the unit credit cost method. This is a method under which an accrued benefit is calculated as of the beginning of the year and as of the end of the year for each benefit that may be payable in the future. The accrued benefit is based on the Plan’s accrual formula and upon service as of the beginning or end of the year. For benefits where the Plan’s accrual formula is not relevant, benefits are assumed to accrue on a straight-line basis over the period during which the employee earns credited service.

The December 31, 2016 calculation of the actuarial present value of accumulated benefits contains a $3,806,208 change in actuarial assumption due to a 0.35 percent decrease in the interest discount rate and a change in the mortality generational projection scale from MP-2014 projected to the valuation date (January 1, 2016) to MP-2016 projected to the valuation date (January 1, 2017).

(e) Reclassifications

The Plan has reclassified the presentation of certain prior-year information to conform with current presentation.

Note 3: Funding Policy

The Company met the minimum funding requirements of ERISA for 2016 and 2015.

Note 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of permanent termination of the Plan, the assets then remaining in the trust fund, subject to provision for expenses incident to such termination, are allocated in the following priority: first, to retirees who began receiving benefits at least three years before termination, including benefits to individuals who would have received benefits for at least three years had they retired that long ago; second, to all other individuals guaranteed under the termination insurance provisions of ERISA; third, among all other non-forfeitable benefits; and fourth, among all other benefits under the Plan. In the event the Plan assets are not sufficient to accomplish the above method of termination, the assets are distributed pro rata to participants based on the present value at termination date of their individual benefits, with all accrued funded rights non-forfeitable in any case.

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Note 5: Investments

The Company has adopted a pension investment policy designed to achieve an adequate funding status based on expected benefit payouts and to establish an asset allocation that will meet or exceed the return assumption while maintaining a prudent level of risk. The Company utilizes the services of an outside consultant in performing asset / liability modeling, setting appropriate asset allocation targets along with selecting and monitoring professional investment managers.

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investment information is certified complete and accurate or derived from information certified complete and accurate by the Trustee as of December 31, 2016 and 2015, and the year ended December 31, 2016 with the exception of certain partnership/joint venture interests within the Master Trust. The fair value of these investments within the Master Trust was $12,975,224 and $16,852,109 as of December 31, 2016 and 2015, respectively, with related appreciation of $1,216,772 for the year ended December 31, 2016.

Assets of the Plan are maintained on a commingled basis with assets of one other pension plan of the Company in a Master Trust for investment purposes, with the allocation of assets, earnings, and expenses among the funds maintained by the Trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016. The Plan's equitable share of the Master Trust's assets was approximately 96.6 percent and 96.4 percent at December 31, 2016 and 2015, respectively.

The assets of the Master Trust as reported by the Trustee at December 31 were:

Note 6: Fair Value Measurements

The fair value framework described in FASB Auditing Standards Codification ("ASC") 820, *Fair Value Measurements,* requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment.

The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Fair Value
Total investments held by Master Trust:				
Cash and short-term investments	$ 3,570,656	$ —	$ —	$ 3,570,656
Mutual funds	27,697,775	—	—	27,697,775
Corporate stocks, common and preferred	53,417,412	—	—	53,417,412
Emerging markets	—	16,466,561	—	16,466,561
Fixed income securities	—	53,488,778	—	53,488,778
Total	$ 84,685,843	$ 69,955,339	$ —	154,641,182
Investments measured using net asset value ("NAV") per share practical expedient				197,098,251
Total investments				$ 351,739,433

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Fair Value
Total investments held by Master Trust:				
Cash and short-term investments	$ 3,493,158	$ —	$ —	$ 3,493,158
Mutual funds	14,160,618	—	—	14,160,618
Corporate stocks, common and preferred	63,786,428	—	—	63,786,428
Emerging markets	—	17,773,952	—	17,773,952
Fixed income securities	—	50,550,441	—	50,550,441
Total	$ 81,440,204	$ 68,324,393	$ —	149,764,597
Investments measured using NAV per share practical expedient				197,065,203
Total investments				$ 346,829,800

For the years ended December 31, 2016 and 2015, there were no transfers between levels.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Investments that were measured at NAV per share are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the Plan's total investments at fair value. Valuation methodologies used for assets measured at fair value are as follows:

- Cash, short-term investments, mutual funds, and corporate stocks: Valued based on period end closing prices in active markets on which the individual securities are traded.

- Emerging markets: Valued by fund managers using the latest reported information for comparable securities and financial analysis. If the manager believes the fund is not capable of immediately realizing the fair value otherwise determined, the manager has the discretion to determine an appropriate value.

- Fixed income securities: Valued on the latest available ask price or latest price if listed.

- Common collective trusts and alternative investments using NAV per share practical expedient: Valued at the Plan's interest in private equity, hedge and property funds. The value is determined based on the NAV as reported by the underlying investment managers.

	Fair Value		Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
	2016	2015			
Common collective trusts					
Northern Trust Large Cap Index	$ 59,396,971	$ 59,237,912	N/A	Daily	1 day notice
JP Morgan Long Duration	$ 88,984,315	$ 84,202,149	N/A	Daily	1 day notice
Alternative investments					
Blackstone Hedge	$ 17,638,134	$ 17,147,309	N/A	Semi-annually	95 day notice
Portfolio Advisors Private Equity	$ 12,975,224	$ 16,852,109	$ 5,529,423	Not eligible	N/A
JP Morgan Core Real Estate	$ 18,103,604	$ 19,625,724	N/A	Quarterly	45 day notice

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated March 31, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). As of December 31, 2016, the Company believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since receiving the determination letter. The Plan’s sponsor has provided the IRS with an application for an updated determination letter which is currently in process. However, the Company and Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for the income taxes has been included in the Plan's financial statements. The Plan is currently going through an audit by the Department of Labor.

Note 8: Party-In-Interest

Certain Plan investments are managed by the Trustee and, therefore, these transactions are party-in-interest transactions. Fees are paid by the Master Trust for asset custody and management to parties-in-interest. These fees are pursuant to arrangements exempted from the prohibited transaction rules.
