1. Description of Plan

The following brief description of the TransRe Incentive Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information of the Plan's provisions.

(a) General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is designed in accordance with Internal Revenue Code ("IRC") section 401(k). Participants in the Plan include U.S. employees of Transatlantic Holdings, Inc. ("THI") and certain of its subsidiaries (collectively, "TRH") who are age 18 or older. The Plan is sponsored by THI and the trustee of the Plan is Vanguard Fiduciary Trust Company (the "Trustee").

The Plan was established on January 1, 2009. Prior to January 1, 2009, participants of the Plan, in general, participated in a defined contribution plan sponsored by American International Group, Inc. (the "AIG 401(k) Plan"). On January 1, 2009, participant balances were transferred from the AIG 401(k) Plan to the Plan and participants no longer participated in the AIG 401(k) Plan.

Changes were made to the Plan effective January 1, 2016 including changing its name to the TransRe Incentive Retirement Plan. Prior to January 1, 2016, the Plan's name was the Transatlantic Holdings, Inc. Incentive Retirement Plan. Additional changes were made to the Plan effective January 1, 2017 as further described below.

(b) Contributions

In general, participants may elect to defer from 1% to 50% of their eligible compensation, as defined in the Plan, limited to an annual maximum (excluding eligible catch-up contributions for participants age 50 or older) of $18,000 in 2016. Effective January 1, 2016, certain design changes were made to the Plan to eliminate non-discrimination testing for employee deferrals and employer matching contributions. As a result, the 8% contribution limit that applied to highly-compensated employees was eliminated. In addition, Roth contributions were added as an employee contribution option. All eligible employees can contribute up to 50% of their eligible compensation subject to the $18,000 annual IRS limit and the $265,000 annual compensation limit. In 2016, changes were made to the Plan's matching contribution formula. In 2016, eligible employees who make a contribution receive a 100% employer matching contribution on each 1% of their eligible compensation contributed (pre-tax or Roth) up to a maximum of 6% of their eligible compensation contributed. Prior to 2016, TRH provided matching contributions on the first 6% of a participant's elective contributions based on a participant's years of service. The matching percentage was 33.34% for participants with 4 years or less of service, 75.00% for participants with more than 4 years but less than or equal to 9 years of service and 116.67% for participants with more than 9 years of service. TRH may also make additional discretionary contributions to the Plan; however, no such contributions were made in 2016.

Effective January 1, 2017, changes were made to the Plan's matching contribution formula. In 2017, eligible employees who make a contribution receive a 100% employer matching contribution on each 1% of their eligible compensation contributed up to a maximum of 5% of their eligible compensation contributed, participants may contribute up to 60% of their eligible compensation, limited to the annual maximum of $18,000 in 2017, and Roth contributions are no longer permitted.

In accordance with IRC rules, the Plan has an automatic enrollment feature whereby eligible employees who are not participating in the Plan are automatically enrolled with an initial elective deferral election of 3% of their eligible compensation. The elective deferral will increase by 1% per year up to a maximum of 6% for employees who are automatically enrolled. Automatically enrolled participants are given the choice to discontinue or revise their participation in the Plan according to the normal terms of the Plan at any time after their initial automatic enrollment by filing an election with the plan administrator.

(c) Participant Accounts

Each participant's account is credited with the participant's elected contributions, TRH's contributions and any rollover contributions of the participant. Rollover contributions represent vested account balances transferred by participants of the Plan into the Plan from third party defined contribution plans. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants are permitted to change the investments within their account on a daily basis, subject to certain limitations. All investments are participant directed. Effective July 1, 2016, participants are charged 0.065% of the value of the assets in the participant's account each calendar quarter as a general administrative expense. These amounts are automatically deducted from the participant's account.

(d) Vesting

Participants are always 100% vested in their contributions and rollover contributions plus earnings on these amounts. Vesting of TRH's contribution's portion of a participant's account is generally based on years of service. In 2016, participants became 100% vested in TRH's contributions after 2 years of credited service or upon their attainment of normal retirement age, death or disability, as defined by the Plan, while employed by TRH, a change from the 3 years of credited service needed in 2015. Credited service includes service with American International Group, Inc. and its subsidiaries prior to the establishment of the Plan.

Effective January 1, 2017, participants are 100% vested in TRH's contributions immediately.

(e) Notes Receivable from Participants

Participants may borrow from $1,000 to a maximum of the lesser of $50,000 or 50% of the present value of their vested account balance. The loans are secured by the participant's vested balance. Participant loans as of December 31, 2016 bear interest from 4% to 4.5% . Participant loans as of December 31, 2015 bear interest from 4% to 7.75%. Participant loans are repaid through payroll deductions.

(f) Payment of Benefits

Following the termination of employment with TRH, retirement from TRH, death or disability of a participant, the participant's vested benefits will be paid upon a request by the participant or their beneficiary for distribution as a lump sum. Participants may also request a distribution of their elective contributions and vested amounts of TRH's matching contributions while still employed by TRH if they are at least 59½ years old or upon a proven hardship, as defined by the Plan. Participants can request a distribution of rollover contributions at any time.

(g) Plan Termination

Although it has not expressed any intent to do so, THI has the right, under the Plan, to terminate the Plan at any time. In the event of termination, the accounts of the participants of the Plan would become fully vested and non-forfeitable.

(h) Forfeited Accounts

Forfeited nonvested accounts totaled $26,020 for the year ended December 31, 2016. As of December 31, 2016 and 2015, investments totaling $73,953 and $47,226, respectively, related to forfeited accounts.

(i) Reclassifications

Certain reclassifications and format changes have been made to prior year amounts to conform to the current year presentation.

2. Summary of Accounting Policies

(a) Basis of Presentation

The accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits have been prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the U.S. ("GAAP").

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts and related disclosures as of the date of the financial statements and for the period covered by the financial statements. Actual results may differ materially from these estimates.

(c) Investment Valuation and Income Recognition

Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Common collective trust funds are valued at net asset value ("NAV") as a practical expedient.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Loans to participants are reported as "notes receivable from participants." Notes receivable from participants are carried at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

TRH pays a portion of the general administrative expenses of the Plan directly to Vanguard Group, Inc., an affiliate of the Trustee.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 6, 2017, the date the financial statements were available to be issued.

(h) Recent Accounting Standards

In January 2016, the Financial Accounting Standards Board ("FASB") issued new accounting guidance that changed the recognition and measurement of certain financial instruments (Accounting Standards Update No. 2016-01). This guidance requires investments in equity securities (except those accounted for under the equity method of accounting) to be measured at fair value with changes in fair value recognized in net income. For equity securities that do not have readily determinable fair values, measurement may be at cost, adjusted for any impairment and changes resulting from observable price changes for a similar investment of the same issuer. This guidance also changes the presentation and disclosure of financial instruments by: (i) requiring that financial instrument disclosures of fair value use the exit price notion; (ii) requiring separate presentation of financial assets and financial liabilities by measurement category and form, either on the balance sheet or the accompanying notes to the financial statements; (iii) requiring separate presentation in other comprehensive income for the portion of the change in a liability's fair value resulting from instrument-specific credit risk when an election has been made to measure the liability at fair value; and (iv) eliminating the requirement to disclose the methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet. This guidance is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Except for the change in presentation for instrument-specific credit risk, this guidance does not permit early adoption. The Plan will adopt this guidance in the first quarter of 2018. The Plan does not currently believe that the implementation of this guidance will have a material impact on its net assets available for benefits.

3. Fair Value Measurements

(a) Fair Value Measurements on a Recurring Basis

The Plan measures at fair value on a recurring basis financial instruments included in its investment portfolio. The fair value of a financial instrument is the amount that would be received to sell an asset in an orderly transaction between willing, able and knowledgeable market participants at the measurement date.

The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment. An active market is one in which transactions for the asset being valued occurs with sufficient frequency and volume to provide pricing information on an ongoing basis. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or in which little information is released publicly for the asset being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and general market conditions.

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Whenever available, the Plan obtains quoted prices in active markets for identical assets at the balance sheet date to measure at fair value investments in registered investment companies. Market price data generally are obtained from exchange or dealer markets.

(b) Fair Value Hierarchy

Assets recorded at fair value in the statement of net assets available for benefits are measured and classified in a hierarchy for disclosure purposes consisting of three levels based on the observability of inputs available in the marketplace used to measure the fair values as discussed below:

- Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that the Plan has the ability to access for identical assets. Market price data generally is obtained from exchange or dealer markets. Assets measured at fair value on a recurring basis and classified as Level 1 consist of investments in registered investment companies.

- Level 2: Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets in active markets and inputs other than quoted prices that are observable for the asset, such as interest rates and yield curves that are observable at commonly quoted intervals. No assets were measured at fair value on a recurring basis and classified as Level 2.

- Level 3: Fair value measurements based on valuation techniques that use significant inputs that are unobservable. These measurements may be made under circumstances in which there is little, if any, market activity for the asset. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment. In making the assessment, factors specific to the asset are considered. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. No assets were measured at fair value on a recurring basis and classified as Level 3.

The following table presents information about assets measured at fair value on a recurring basis at December 31, 2016 and 2015 and indicates the level of the fair value measurement based on the levels of the inputs used:

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

5. Related Party Transactions

The Plan invests in shares of mutual funds and common/collective trusts managed by affiliates of the Trustee. The Trustee acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

In 2016 and 2015, TRH incurred on behalf of the Plan $23,910 and $21,529, respectively, of expenses from Vanguard Group, Inc., an affiliate of the Trustee.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed THI by a letter dated June 20, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The determination letter is retroactive to the Plan's inception of January 1, 2009. Although the Plan has been amended since the Plan was established, the plan administrator and the Plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt. A determination letter request was submitted to the IRS on April 29, 2016 for a new favorable IRS determination letter to cover changes to the Plan that were adopted after the most recent IRS determination letter request. The IRS is in the process of reviewing the application.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2016, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.
