F.C.B. 401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the F.C.B. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The sponsor of the Plan was First Commercial Bank (collectively the "Company").

General

Effective on April 1, 2005, the Company established the Plan (Plan 002) for all eligible full-time employees of the Company. The last amendment was adopted on March 1, 2010. Employees of the Company are eligible to participate in the Plan generally reach age 21 and on the first day of the month following the date of hire except noted otherwise in the plan document. The Plan is subject to the provisions of the Employee retirement Income security Act of 1974 ("ERISA").

The Plan is administered by a Plan Committee. The Plan has entered into a service agreement with Fidelity Management Trust Company ("Fidelity") effective January 1, 2007. At the direction of the Plan Committee, the Custodians had the responsibility to invest, hold, and distribute the assets held by the Custodians for the benefit of the participants and their beneficiaries.

The Custodians maintains the Plan's assets in various fund accounts, which are credited with actual earnings on the underlying investments and charged for Plan withdrawals.

The costs associated with the formation and administration of the Plan are borne by the Company.

Contributions

Participants may make voluntary contributions in the form of salary deferrals at participant's discretion subject to the annual maximum amount imposed by the Internal Revenue Service. The Company matches 100% of the participants' deferrals up to the first 5% of the employees' compensation.

Investment Elections

The investments of the Plan are self-directed by the participants. Investment elections may be changed at any time.

F.C.B. 401(k) Plan
Notes to Financial Statements

1. Description of the Plan, continued

Participant Accounts

Each Participant's account is credited with the participant's and Company contributions and an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service.

Vesting Schedule
Matching Contributions

Years of Service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeited Accounts

A participant is 100 percent vested after five years of credited service during which an employee completes not less than 1,000 hours of service with the Company. There was a total of $3,882 forfeitures in 2016. Any forfeiture will first be used to pay administrative expenses and any remaining amounts will be used to reduce any non-elective contribution or to reduce future Company's matching contribution. The balances for the forfeiture account were $52,419 and $50,401, respectively as of December 31, 2016 and 2015 after part of the forfeitures had been utilised to pay fees.

Payment of Benefits

On termination of service, participants are to receive amounts equal to the value of their accounts if the account balances are less than $5,000. For participants with accounts balances between $1,000 and $5,000, if the participant does not choose a distribution option, the plan sponsor will roll over the balances to a special safe harbor IRA. For participants with accounts balances of $5,000 or more, they may elect to remain in the Plan or to receive the value of their vested interest in the form of lump-sum distribution.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits are recorded when paid.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Significant Risk and Uncertainty

The fair value of the Plan's assets is subject to change as a result of changes in market rates and prices. A significant change in market rates and prices can significantly reduce the net assets available for Plan benefits and concurrently participant balances. Plans that invest in foreign securities are subject to foreign exchange and political risks among other risks.

Contributions

Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. Company contributions are recorded based upon the required Company matching levels as defined in the Plan agreement.

Valuation of Investments

The Plan's investments in the registered investment companies are valued at fair value as reported to the Plan by Fidelity. Participant notes receivable are valued at cost, which approximates fair value. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. The Plan presents, in the statement of change in net assets available for benefits with fund information, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation (depreciation) of those investments.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Date of Management's Review

Subsequent events were evaluated through September 20, 2017, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator and trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2016 and 2015 and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2016. Actual results may differ from those estimates.

3. Investments

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Investments are held in custodial capacity by Fidelity Management Trust Company, the trustee of the plan. Individual Plan participants direct the transactions that take place in their accounts.

During the year ended December 31, 2016, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $376,749, as follows:

Registered Investment Companies (Mutual Funds)	$	373,380
Common/collective trust		3,369
	$	376,749

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end. The NAV is a quoted price in an active market.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements, continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$13,646,965	$ -	$ -	$13,646,965

Assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$13,206,312	$ -	$ -	$13,206,312

5. Investment at Contract Value

The Plan invested in Fidelity Managed Income Portfolio Class 1 totaling $518,163 for 2016 and $249,369 for 2015. This investment meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by National, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

5. Investment at Contract Value, continued

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

6. Participant Notes Receivable

Under the terms of the Plan, participants may borrow from their vested balances, subject to certain limitations as set forth in the Plan and the Internal Revenue Code. The loan amount must be between a minimum of $500 and a maximum of $50,000. Only 50% of the participant's vested balance is available for the loan. The amounts borrowed carry fixed interest rates which are based on the indexed rate published by the Federal Reserve Bank. Loans are payable in full upon the participant's termination of employment from the Company. There were three loans being granted during the year ended December 31, 2016.

7. Plan Amendment and Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Income Tax Status

The Company has received a favorable determination letter from the Internal Revenue Service dated December 2005 that the Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Company has also received a favorable determination letter from the Internal Revenue dated May 12, 2008 on its latest amendment adopted on December 19, 2006. The Company is of the opinion that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that the trust, which forms a part of the Plan, is tax exempt. Accordingly, no provision for state or federal income taxes has been provided.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

9. Related Party Transactions

Certain Plan investments are in units of participation in a registered investment companies and a fixed income offered by the Plan trustee, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transaction under ERISA.

10. Payment of Benefits

Benefits are recorded when paid.

11. Operating Expenses

During the year of 2016, $3,512 of administrative fees was paid by the plan.

12. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

13. Adoption of New Accounting Standard

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topics 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts (FBRIC), (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I removes the adjustment from fair value of FBRIC to contract value on the face of the financial statements. Plan must report FBRICs only at contract value. Certain other disclosures related to FBRICs are also eliminated, such as (i) Average-yield disclosures, and (ii) ASC 820 hierarchy leveling, valuation techniques and inputs, and the Level 3 roll forward. FBRICs, including the underlying investments of a synthetic guaranteed investment contract, are not included in the ASC 820 hierarchy table. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net asset available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no

longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan.

The adoption of the new accounting standard did not have a significant impact on the Plan's financial statements and the related notes to the Plan's financial statements.
