INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

Note 1 Description of Plan

The following description of the Informa USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide all employees of Informa USA, Inc. (the "Company"), located within the United States of America, with retirement benefits in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During 2016, certain related qualified defined contribution benefit plans sponsored by the Company were merged into the Plan. In connection with these mergers, net assets of \$113,707 were transferred into the Plan.

Eligibility

All employees of the Company (except certain employees as defined in the Plan document) who have attained the age of 21 and completed six months of service are eligible to participate in the Plan immediately upon meeting eligibility requirements.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 75% of their annual pre-tax compensation. The Plan also allows participants to defer funds into a "Roth 401(k) deferral", which are subject to federal income taxes. These contributions combined are limited to the maximum amounts allowed under the provisions of the IRC (\$18,000 in 2016). Further, participants who are 50 years of age or older as of December 31, 2016 may contribute an additional "catch up" contribution (\$6,000 in 2016). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, a money market fund, a common collective trust and brokerage funds as investment options for participants.

Employer contributions

The Company will make a matching contribution of 50 cents for every dollar contributed not to exceed 6% of the participant's eligible compensation. Subsequent to year end, the Company calculated a true-up contribution of \$125,823 relating to the 2016 match, which is included in employer contributions on the statement of changes in net assets available for benefits and as an employer contributions receivable on the statements of net assets available for benefits. The full amount was funded in 2017.

Participants' accounts

Each participant's account is credited with their respective contribution and its allocation of (a) employer contributions and (b) Plan earnings or losses.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2016 and 2015

Note 1 **Description of Plan (continued)**

Vesting

Participant's voluntary contributions, rollover contributions, and any earnings thereon vest immediately. Vesting in employer matching contributions and any earnings thereon is based on the number of years of continuous service (as defined). Vesting begins after one year of service, with full vesting after completing three years of credited service. In the event of death, disability or attainment of age 55, participant's accounts become fully vested.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Participants may borrow up to 50% of their vested account balance with a minimum of \$1,000 and a maximum of \$50,000. Loans from participants are subject to approval by the plan administrator and terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, the term may be extended to ten years. Further, loans will bear interest at a reasonable percentage interest rate to be determined by the plan administrator and are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon termination of employment, retirement, attainment of age 59 ½, death, or disability, the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum payment, in accordance with Internal Revenue Service ("IRS") regulations and Plan provisions. Certain participants may also elect to receive distributions in the form of an annuity. Withdrawals from the plan are also available for special "hardship" reasons (as defined). Distributions to participants are recorded when paid.

Forfeitures

The Plan provides that forfeitures, the unvested portion of employer contributions for terminated participants, can be used to reduce Company contributions. The Company used the forfeiture account to reduce its contributions during 2016 by approximately \$16,000. As of December 31, 2016 and 2015, there was \$51,053 and \$22,956, respectively, of forfeitures available to reduce future Company contributions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2016 and 2015

Note 1 **Description of Plan (continued)**

Other income

Certain mutual fund and collective trust expenses that are charged by the mutual fund companies to the individual participants are credited to the Plan on a quarterly basis. Effective August 1, 2016, these assets are now held in a reserve account and may be used to pay expenses of the Plan, as described in the agreement. Effective February 2, 2017, amounts unused for expenses may be allocated to eligible participant accounts based upon each participant's pro rata percentage of total plan investments. Such allocation is permitted to take place no more frequently than on a quarterly basis. As of December 31, 2016, the balance in the reserve account amounted to \$80,513. During the year ended December 31, 2016, funds credited to the Plan amounted to \$80,500, and are included in other income in the accompanying statement of changes in net assets available for benefits.

Note 2 **Summary of significant accounting policies**

The following is a summary of significant accounting policies followed by the Plan.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the trustee. See Note 8 for discussions of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the plan year or at the time of purchase during the plan year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administrative expenses

The Company may, at its discretion, pay the expenses incidental to administering the Plan. In the event that the Company does not pay Plan expenses, the expenses shall be paid by the Plan.

Note 2 **Summary of significant accounting policies (continued)**

Fair value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial and non-financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 8).

Subsequent events

The Company has evaluated subsequent events through October 11, 2017, which is the date the financial statements were available to be issued.

Note 3 **Information certified by the Plan's trustee (unaudited)**

Certain information related to investments, cash, and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments, cash, and notes receivable from participants held at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan.

Note 4 **Related party transactions**

Certain Plan investments are shares of mutual funds, money market funds, and a common collective trust managed by Fidelity. As described in Note 1, these Fidelity-managed funds may also have fund expenses recaptured by the Plan. Fidelity is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 5 **Tax status**

The Plan operates under a prototype plan which has received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, indicating that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2016 and 2015

Note 5 **Tax status (continued)**

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 **Plan termination**

Although it has not expressed any interest to do so, the Board of Directors of the Company may, at its discretion, terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event that the Plan and the related trust terminate, all accounts will be valued as of the termination date, and all accounts will be distributed in full to participants.

Note 7 **Risks and uncertainties**

The Plan provides for various options in accounts which invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes would, in the near term, materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 8 **Fair value measurements**

Accounting standards require that financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2016 and 2015

Note 8 **Fair value measurements (continued)**

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

Brokerage funds: Consists of both mutual funds and equities. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds are open-ended funds that are registered with the Securities and Exchange Commission and deemed to be actively traded. These funds are required to publish their daily NAV and to transact at that price. Equities are valued at the closing price as reported on the active market on which the individual securities are traded.

Note 8 Fair value measurements (continued)

Common collective trust: Value is based on the underlying unit value of the assets held. The assets of the underlying fund are invested primarily in certain investment contracts, asset-backed securities, corporate bonds, and other securities. The fair value of the contracts is determined using the market approach based on market prices of similar contracts. The NAV is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets which are measured at fair value at December 31, 2016:
