1. DESCRIPTION OF PLAN:

The following description of the MT Business Technologies, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of MT Business Technologies, Inc. and an affiliated company (collectively, the Employer). Under the terms of the Plan, employees who have completed ninety days of service and attained the age of 19 are eligible for Plan participation on the first day of each month coinciding with, or next following, the date employees satisfy the eligibility requirements. Prior to January 1, 2016, employees who had completed one year of service and the age of 19 were eligible for Plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of eligible compensation, as defined in the Plan, subject to certain limits of the Internal Revenue Code (IRC). Effective January 1, 2016, eligible employees are automatically enrolled in the Plan at 3% of eligible compensation with an automatic annual increase of 1% each year until 6%. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans and Roth contributions.

The Employer may contribute a discretionary matching contribution. During 2016 and 2015, the Employer made a discretionary matching contribution equal to 25% of the first 6% of employee deferrals. The Employer may make an annual discretionary nonelective contribution to the Plan using an allocation based on the ratio of the participant's eligible compensation to total eligible compensation paid to all eligible participants. No nonelective contributions were made by the Plan for the years ended December 31, 2016 and 2015.

Participant accounts

Each participant's account is credited with the participant's elective deferrals, an allocation of the Employer's matching and nonelective contributions, allocations of Plan investment earnings and appreciation in value. Each participant's account is decreased by an allocation of Plan investment losses, depreciation in value and administrative expenses and by any participant withdrawals. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan's investments are participant-directed.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's discretionary matching and nonelective contributions portion of their accounts are based on years of continuous service. The vesting schedule is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 or more years	100%

Participant notes receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account. The interest rate is determined by the plan administrator based on the prime rate published in The Wall Street Journal on the first business day of each month, plus 1%. Principal and interest are paid ratably through payroll deductions.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of participant notes receivable are charged directly to the participant's account. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Payment of benefits

In accordance with the Plan document, upon termination of service due to termination, death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Participants may also make a withdrawal during employment due to hardship, as defined by the Plan, and upon reaching age 59 ½.

Forfeited accounts

There were no forfeited balances as of December 31, 2016 and 2015. For the years ended December 31, 2016 and 2015, \$1,604 and \$1,384 of forfeitures were used to offset Employer contributions, respectively, and \$1,211 and \$1,194 were used to pay administrative expenses, respectively.

2. SUMMARY OF ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis.

Participant notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Upon default, as defined, the plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participant's vested account balance.

Payment of benefits

Benefits are recognized when paid.

Change in accounting policy

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2015. Parts I and III are not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07 in 2016, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

Subsequent events

The plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through October 10, 2017, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2016 and 2015 was obtained from data that has been prepared and certified to as complete and accurate by Capital Bank and Trust Company, the trustee of the Plan.

Investments
Net appreciation (depreciation) in fair value of investments
Interest and dividend income
Assets held at end of year

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: The fair value of these securities is based on the net asset value (NAV) of shares held by the Plan at year-end, which is based on observable market quotations for identical assets and are priced on a daily basis at the close of business.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an ordinary manner.

The Plan's policy is to recognize a transfer between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers during 2016 or 2015.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

<u>December 31, 2016</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by American Funds. American Funds is an affiliate of Capital Bank and Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party in interest transactions to the Plan.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, the accounts of each affected participant shall become fully vested.

7. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

8. TAX STATUS:

The Plan has elected to adopt a prototype plan of American Funds Distributors, Inc. The Internal Revenue Service (IRS) issued an opinion letter dated March 31, 2014 that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the financial statements.

9. SUBSEQUENT EVENT:

Effective July 1, 2017, the Employer approved the merger of the Plan with the Global Imaging Systems, Inc. 401(k) Retirement Plan (the Global 401(k) Plan). The Plan assets were transferred to the Global 401(k) Plan effective July 31, 2017. Effective July 1, 2017, eligible employees began participating in the Global 401(k) Plan.
