SOLE PROPRIETOR, INC. CASH BALANCE DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of Sole Proprietor, Inc. Cash Balance Defined Benefit Pension Plan (the “Plan”) provides general information only. Participants should refer to the Plan document for more complete information.

General – The Plan is a cash balance defined benefit plan, established in January 2002 and amended as of January 1, 2009, covering all employees of Sole Proprietor, Inc. (“the Company” or “the Employer”) who are age twenty-one or older and have one year of service, provided they work at least 1,000 hours during such plan year. The Plan is subject to the provisions of ERISA.

On October 25, 2015, the Trustee of the Plan adopted a resolution to terminate the cash balance pension plan effective December 31, 2015. On October 25, 2015, a notice to interested parties was mailed to plan participants. Lump sum distributions to participants were completed in August 2016 and final plan asset liquidation was completed in December 2016. Plan assets were sufficient to fund all participant accounts.

Funding Policy – The Company contributed such amounts as were necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants, and to meet minimum funding requirements established by ERISA. The Plan has met the ERISA minimum funding requirements for the years ended December 31, 2016 and 2015.

Pension Benefits – A cash balance account was established and maintained for each applicable participant. Credits were made to the cash balance account in accordance with the provisions set forth in Plan agreement. At the end of each period in which an individual participant satisfied the requirements, an employer credit was added to such participant's cash balance account. Prior to October 31, 2008, the employer credit was generally 2.5% of a participant's eligible compensation. An interest credit was made to the cash balance account on the last day of each determination period and was calculated by multiplying the balance in the participant's cash balance account on the first day of such determination period by the applicable interest crediting rate for the determination period. The interest credit was based on the 30-year treasury constant maturity rate. Effective October 31, 2008, the Plan was frozen such that there was no further employer credit to each account and future employees no longer became eligible to participate in the Plan.

Each participant's accrued benefit was the balance in his or her cash balance account determined as of his or her annuity starting date. The value of a lump sum distribution and the present value of the participant's benefit was the balance in the participant's cash balance account. The periodic amount of any other benefit was the actuarial equivalent of the cash balance account.

Payment of benefits – Upon termination of service for any reason, a participant could elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or an annuity under terms defined by the Plan.

Vesting – As of October 31, 2008, all accounts became 100% vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are determined by use of a certain formula as defined in the Plan and are based principally upon the accumulated cash balance prior to retirement. Benefits payable under all circumstances for retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated cash balances are representative of the accumulated benefits obligations and the projected benefits obligations as of the valuation date.

In connection with the imminent liquidation of the Plan, disclosures of accumulated plan benefits were changed from beginning of year presentation to end of year presentation. The more significant assumptions underlying the computations are as follows:

Interest rate	30-year treasury constant maturity rate with a five month look back (3.20% and 3.76% for the valuation years ended December 31, 2015 and 2014, respectively)
Mortality basis	2015 applicable mortality table
Normal retirement	Age 65 and 5 years of participation

Investment Valuation and Income Recognition – The Plan's investments in pooled separate accounts are reported at fair value, which is the expected cash proceeds of investments held at the end of each year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments – Benefits are recorded when paid.

Subsequent Events – The Company has evaluated subsequent events through September 19, 2017, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of annual reporting compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Lincoln National Life Insurance Company ("Lincoln"), the custodian, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets in liquidation as of December 31, 2016 and 2015;
- Net investment activity as shown in the statement of changes in net assets in liquidation for the years ended December 31, 2016 and 2015;
- Investment information included in the footnotes as of December 31, 2016 and 2015 and the schedule of reportable transactions for the year ended December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. GUARANTEED INTEREST CONTRACT WITH LINCOLN

The Plan invests in a fully benefit responsive guaranteed investment contract with Lincoln, which is reported in the financial statements at contract value. Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan. The average credited interest rate for the guaranteed investment contract was 1.51% for 2016 and 1.76% for 2015.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts (PSA) – valued daily based on the market value of the underlying net assets in each separate account as estimated by the insurance company. The majority of the underlying net assets have observable Level 1 and/or 2 quoted pricing inputs which are used to determine the net asset value (NAV) of the PSA which is not publicly quoted. These securities are classified as Level 2. The redemption frequency of each of these PSA's is daily, and there are no redemption restrictions.

There were no assets held by the Plan as of December 31, 2016. The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 2,477,382	\$ -	\$ 2,477,382
Total assets at fair value	\$ -	\$ 2,477,382	\$ -	\$ 2,477,382

6. TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on March 28, 2013, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods currently in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2012.

7. TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan's investments include shares of pooled separate accounts and a guaranteed interest contract offered by Lincoln National Life Insurance Company, the custodian. The transactions in these investments and related fees qualify as party-in-interest transactions.

Fees paid by the Plan to Lincoln National Life Insurance Company for administrative expenses amounted to \$10,606 and \$17,773 in 2016 and 2015, respectively.
