To the Plan Administrator of
ABB Inc. Pension Plan for Employees of the Process Analytics Division of ABB Inc.,
Represented by the Laborers' International Union of North America (AFL-CIO),
Local No. 1304:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **ABB Inc. Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America (AFL-CIO), Local No. 1304** (the "Plan"), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years ended December 31, 2016 and 2015, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of and for the years ended December 31, 2016 and 2015, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2016, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Plan Description

The ABB Inc. Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America (AFL-CIO), Local No. 1304 (the Plan) is a defined benefit plan with all contributions being made by ABB Inc. (the Company or Employer). Vesting occurs after five years of service at which time an employee is 100% vested. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

The Plan was closed to new hires as of February 4, 2011.

A description of the Plan including vesting and benefit payment provisions are included in the Plan document.

Effective February 1, 2015, the Plan was amended to increase the Plan's benefit multiplier for union employees from \$32 per month for each year of benefit service to the following amounts respective to the participant's termination date.

- \$39.00 as of February 1, 2015
- \$40.00 as of February 1, 2017
- \$41.00 as of February 1, 2019

Effective March 16, 2016, the Plan was amended as follows:

- Any pension granted on or after February 4, 2011 but before February 1, 2012, for any employee actively at work on February 4, 2011, shall be equal to \$36.00 multiplied by such years of Benefits Service; and
- Any pension granted on or after February 1, 2012 but before February 1, 2013, for any employee actively at work on February 4, 2011, shall be equal to \$36.50 multiplied by such years of Benefits Service; and
- Any pension granted on or after February 1, 2013 but before February 1, 2014, for any employee actively at work on February 4, 2011, shall be equal to \$37.00 multiplied by such years of Benefits Service; and
- Any pension granted on or after February 1, 2014 but before February 1, 2015, for any employee actively at work on February 4, 2011, shall be equal to \$38.00 multiplied by such years of Benefits Service

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *"Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)"*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *"Fair Value Measurement,"* from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted and management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in the removal of the investments for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that total investments in the fair value hierarchy can be reconciled to total investments measured at fair value.

In July 2015, the FASB issued ASU 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient."* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted.

Management adopted Part II in these financial statements and determined Parts I and III are not applicable to the Plan. Accordingly, the amendments were retrospectively applied, resulting in the elimination of disclosures of individual investments that represent 5% or more of net assets available for benefits, and the net appreciation or depreciation in fair value of investments by investment type, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

Payment of Benefits

Benefit payments are recorded when paid to participants. A participant who attains age 70½ will commence his or her benefit no later than the April 1 of the calendar year, following calendar year in which he retires or he turns 70½, whichever is later.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year and (b) an amount necessary to amortize the unfunded accrued liability.

It is the Company's intention to only make contributions that are tax-deductible. For each of the years ended December 31, 2016 and 2015, the Plan has satisfied the minimum funding requirements of ERISA.

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust (Master Trust) along with the assets of certain other plans of the Company. BNY Mellon (the Trustee) is the trustee of the Master Trust.

Income, including realized and unrealized gains and losses, of the Master Trust is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment related expenses are included in net investment gain of the Master Trust presented in the accompanying statements of changes in net assets available for benefits.

Securities Lending

As of and for the years ended December 31, 2016 and 2015, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund consisting of high-quality, short-term investments managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to approximately \$12,378,000 and \$41,654,000 at December 31, 2016 and 2015, respectively. Income from securities lending is included in miscellaneous income in Note 4. The obligation to return collateral is included net in the balance for each respective investment type with loaned securities with the majority being included in corporate bonds.

Derivatives

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The values of such derivative contracts are included net in the balance for each respective investment type with derivative contracts with the majority being included in the state and foreign bonds

At December 31, 2016 and 2015, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, "Derivatives and Hedging," are included as a component of the net appreciation (depreciation) in fair value of investments in Note 4.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the Company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under a netting agreement at December 31, 2016 and 2015.

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 6, 2017, the date the financial statements were available to be issued, and has determined that there are no material subsequent events.

3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2016 and 2015, was determined by the Plan's actuary, Willis Towers Watson & Company (formerly known as Towers Watson & Company), using employee data supplied by the Company as of January 1, 2016 and 2015, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method. A summary of the significant actuarial assumptions underlying the actuarial valuation as of December 31, 2016 and 2015 are as follows:

Mortality – 2016: Based on the Retirement Plans – Collar specific RP2016 Mortality Table with Scale MP-2016 generational projection split between annuitants and non-annuitants and sex distinct.

Mortality – 2015: Based on the Retirement Plans – Collar specific RP2015 Mortality Table with Scale MP-2015 generational projection split between annuitants and non-annuitants and sex distinct.

Interest: The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2016 and 2015, were 4.00% and 4.20%, respectively.

Retirement Age – 2016 and 2015: Age 65 for terminated vested employees and the following chart of rates applies for active employees:

Age	Percentage of Employees Expected to Retire Within One Year
60-61	5
62	20
63-64	5
65-69	50
70	100

The change in interest rates, mortality scale, termination rates and marital assumptions are reflected in the "Changes in actuarial assumptions" in the accompanying statements of changes in accumulated plan benefits. The \$1,214,554 change in actuarial assumptions for the year ended December 31, 2015, were due to an increase in the interest rate of 35 basis points to 4.20% and a change in the mortality table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4 ABB Inc. Master Trust

The Plan's investments are held in the Master Trust which is a master trust established for the investment of the assets of the Plan and other Company-sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2016 and 2015, the Plan had a 0.70% and 0.68% interest in the net assets of the Master Trust held by BNY Mellon, respectively.

The following tables present the net assets for the Master Trust and the net investment income for the Master Trust:

5 Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity, described below) recorded by the Master Trust as of and for the years ended December 31, 2016 and 2015. Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2016 and 2015. Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2016 and 2015 and for the years then ended are detailed below:

December 31	2016	2015
	\$	\$
Private equity investments	37,431,179	48,032,235
Distressed debt	1,888,105	2,313,888
Fund of funds	8,395,032	11,809,672
Total alternative investments	47,714,316	62,155,795

The private equity investments, distressed debt and fund of funds are included as a component of the balance for partnership/joint venture interests and 103-12 investment entities detailed in Note 4.

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

For the years ended December 31	2016	2015
	\$	\$
Net appreciation in fair value of alternative investments	4,111,637	3,312,912

At the Plan level, the Plan's "Interest in the ABB Inc. Master Trust" as reflected in the accompanying statements of net assets available for benefits and the Plan's "Interest in net investment gain (loss) of the ABB Inc. Master Trust" in the accompanying statements of changes in net assets available for benefits has also been certified by the Trustee. While the Plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and investment gain (loss) of alternative investments noted above. These amounts represent 3.51% and 4.08% of the Plan's "Interest in the ABB Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2016 and for the year then ended and 4.50% and 28.43% of the Plan's "Interest in the ABB Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2015 and for the year then ended.

6 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures,"* requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust investments, are described below:

- Level 1** Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2** Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.
- Level 3** Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015:

- State and foreign bonds valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded.
- Corporate bonds and state and foreign bonds valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable section of issuers with similar credit ratings.
- U.S. government securities valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Corporate stocks are valued at the closing price reported on the market on which the individual securities are traded.
- Registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year-end.

- Collective trusts are valued at net asset value as determined by the Trustee. Partnership/joint venture interests and 103-12 investment entities are valued at net asset value as reported by the respective fund managers based upon the fair value of the underlying investments less liabilities.
- Short investments primarily consists of interest rate swaps, which are valued using the income approach taking into account contract terms as well as multiple inputs observed in the marketplace.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of December 31, 2016:

In accordance with ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in Note 4.

There were no significant transfers among investment levels during the years ended December 31, 2016 and 2015, except for the removal of certain investments that were measured at NAV from the fair value hierarchy in accordance with ASU 2015-07.

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of December 31, 2016:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	\$	\$	\$	\$
Partnership / joint venture interests (a)	201,700,678	-	Monthly	30 - 60 days

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of December 31, 2015:

Total	476,990,663	-		

- a) The partnership/joint venture interests' investments are invested within alternative investments such as private equity and fund of funds. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity. Within the limited partnerships, there is also a limited partnership that has an investment objective of seeking to outperform the S&P 500. This fund does require monthly notice to provide liquidity.
- b) The collective trust investments include an international equity fund and emerging market fixed income bond fund. The investment objective of the international equity fund is to seek capital appreciation through investments in a portfolio of securities issued by companies predominantly in companies contained in the MSCI EAFE Index. The investment objective of the emerging market fixed income fund is to seek long-term total return through investment in a diversified portfolio of emerging markets debt securities and currency instruments.
- c) The 103-12 investment entities are invested in alternative investments with specific requirements under ERISA. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity.

7 Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, to that portion of a participant's accrued benefit which is derived from mandatory contributions to the Plan.

Second, equally among benefits of participants in the following two subcategories;

- In the case of benefits in any pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination); and
- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Third, among all other benefits (if any) of participants under the Plan; guaranteed under the termination insurance provisions of ERISA;

Fourth, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fifth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2016 and 2015, that ceiling, which is adjusted annually, was \$5,369 and \$5,011 per month, respectively. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee.

8 Income Tax Status

The IRS has determined and informed the Company by a letter dated July 7, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles general accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. As of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9 Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10 Prohibited Transaction

The Master Trust had a receivable of \$105,879 at year-end 2013 related to a prohibited transaction in 2012 and 2013. This prohibited transaction was comprised of external legal fees that occurred as a result of a 2012 Department of Labor exemption request to allow the Plan sponsor to make Treasury-bill contributions in lieu of cash contributions. The Plan sponsor reimbursed the Master Trust for this amount \$105,879 plus interest of \$24,088 during 2016 and took all necessary corrective actions to ensure the Plan and the trust maintain its income tax status as described in Note 8 above. As of December 31, 2016, there are no remaining receivables in the Master Trust attributable to these expenses.

Demographic Assumptions

Inclusion Date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or Rehired Employees It was assumed there will be no new or rehired employees.

Mortality

■ **Healthy** Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2031 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2023 using Scale AA).

■ **Disabled** Alternate disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination Rates varying by age.

Representative Termination Rates Not Due to Disability, Retirement, or Mortality

Age	Rate
20	14.7%
30	6.8%
40	2.6%
50	0.0%

Disability One-half of the disability rates in the twelfth valuation of the Railroad Retirement Board (set forward 1 year for males and set back 4 years for females).

Retirement

Age 65 for terminated vested participants. For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire are shown below.

Percentage Retiring During the Year	
Age	Rate
60 – 61	5%
62	20%
63 – 64	5%
65 – 69	50%
70	100%

Benefit Commencement Date

- Preretirement death benefit: The later of the date of death of the active participant or the date the participant would have attained age 60.
- Deferred vested benefit: Age 65.
- Disability benefit: Upon disablement.
- Retirement benefit: Upon termination of employment.

Form of Payment

Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

Percent Married

For purposes of valuing the preretirement surviving spouse's benefit, 85% of eligible participants are assumed to be married.

Spouse Age

Wife three years younger than husband.

Covered Pay

Compensation assumed paid in the plan year beginning on the valuation date is the actual pensionable pay earned during the prior plan year, adjusted by one full year of salary scale or the base pay rate adjusted by one-half year of salary scale, if greater.

Timing of Benefit Payments

Annuity payments are payable at the beginning of the month.

Methods

Valuation Date	First day of plan year.
Funding Target	Present value of accrued benefits as required by regulations under IRC §430.
Target Normal Cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial Value of Assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, plan-related expenses and expected earnings of 6.50% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Participant Data	Participant data was supplied electronically as of the valuation date by Fidelity on behalf of ABB Inc.
Benefits Not valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with ABB Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale – Significant Economic Assumptions

Interest Rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Inflation (CPI)	This assumption was chosen based on duration-adjusted swap data provided by Bloomberg as of December 31, 2015.
Rates of Increase in Compensation	This assumption was selected based on future expectations of the following: CPI increases of 2.00%, plus real wage increases of 1.00%, plus promotion and merit increases of 1.00%, for a total of 4.00%.
Plan-Related Expenses	Plan related expenses are estimated by considering the plan's actual administrative expenses paid from the trust during the prior year.
Assumed Return for Asset Smoothing	The assumed return of 6.20% used for asset smoothing is the expected return on assets assumption chosen by the plan sponsor for the 2016 plan year and we concur with this assumption.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	The termination rates are based on plan sponsor expectations for the future. Valuation results are reviewed annually with respect to gains and losses caused by termination patterns different than assumed, as well as annual consideration of whether conditions have changed that would be expected to produce different results in the future.

Disability

The disability rates are based on plan sponsor expectations for the future. Valuation results are reviewed annually with respect to gains and losses caused by disability patterns different than assumed, as well as annual consideration of whether conditions have changed that would be expected to produce different results in the future.

Retirement

The retirement rates are based on plan sponsor expectations for the future. Valuation results are reviewed annually with respect to gains and losses caused by retirement patterns different than assumed, as well as annual consideration of whether conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in Assumptions and Methods since Prior Valuation

In addition to the prescribed change in the mortality table, the following changes in assumptions and methods were made as part of this valuation:

- The plan's effective interest rate decreased 20 basis points compared to the prior year (6.11% versus 6.31%), which increased the funding shortfall.
- The assumed plan-related expenses added to the target normal cost changed from \$60,000 for 2015 to \$90,000 for 2016.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Early Retirement Benefit

A monthly Benefit Level payable upon retirement at age 60 with 10 years of Vesting Service, subject to a minimum of 0.5% of five year average monthly earnings, multiplied by years of Benefit Service. This benefit will be reduced by 5/9 of 1% for each month that retirement precedes age 65.

Disability Benefit

A monthly benefit calculated as above for a normal retirement benefit, but based on years of Benefit Service to the date of disablement, payable without reduction after 26 weeks' total and permanent disablement following 10 years of Vesting Service. An additional monthly temporary benefit of the benefit multiplier multiplied by years of Benefit Service up to 25 is payable until the earlier of age 65 or eligibility for an unreduced Social Security Benefit.

Vested Benefits upon Termination of Service

Upon termination of employment after 5 years of Vesting Service, an employee will be entitled to a deferred vested benefit calculated as for a normal retirement benefit, but based upon Benefit Service at termination, payable in full at age 65 or payable after age 60 reduced by 5/9 of 1% per month that retirement precedes age 65.

Death Benefits for Participants in Active Service

In the event of the death of an active employee after the completion of 5 years of Vesting Service, his surviving spouse will be entitled to 50% of the reduced accrued benefit as of the date of death, payable upon the later of (1) the date of employee's death and (2) the 60th anniversary of the employee's birth.
