ROCK HOUSE 401(k) SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2016

1. DESCRIPTION OF PLAN

The following description of the Rock House 401(k) Savings Plan ("Plan"), sponsored by The Company of Rock House ("Company"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company who have one year of service, worked more than 1,000 hours during the year and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Board of Directors oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Directors.

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or $18,000 for 2016. Participants who have attained age 50 before end of the plan year are eligible to make catch-up contributions of up to $6,000 for 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various options offered by the Plan. All participants' contributions are fully vested at all times.

Employer Contributions

Effective February 1, 2010, the Plan became a "safe harbor" plan. Each year the Company will make safe harbor matching contributions of 100% of the first 3% deferred plus 50% of the next 2% deferred for the Plan year in order to maintain the Plan's safe harbor status. The Additional profit sharing amounts may be contributed at the option of the Employer provided participant was employed on last day of plan year and completed a year of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's safe harbor contribution, (b) the Company's discretionary profit sharing, (c) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit of which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in both their contributions plus actual earnings thereon, as well as in the Company's Safe Harbor matching contribution. Vesting in the Company's discretionary profit sharing contribution plus earnings thereon is based on years of continuous service. A participant is 20% vested after 2 years of credited service, 20% for each year of credited service thereafter and 100% vested after six years of credited service for post-2006 and pre-2007 profit sharing contributions.

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to 50% of their vested account balance, not to exceed $50,000. The loans are secured by the participant's balance under the Plan and bear interest at 5%, which is commensurate with prevailing rates set by the market. Principal and interest are paid back ratably by payroll deductions over a period not to exceed 5 years except for residential type loans.

Payment of Benefits

On termination of service a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount, installments or the purchase of a different form of annuity.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains to first pay any Plan administrative expenses, and then used to reduce any subsequent discretionary employer contributions. As of December 31, 2016 and 2015, there are $50,399 and $98,930 of unallocated forfeitures left in the Plan, respectively. Also, in 2016 $53,972 of forfeitures was used to reduce the 2016 employer contribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on an accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Changes in Accounting Principles

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), which is effective for fiscal years beginning after December 15, 2016 for entities other than public business entities. ASU 2015-07 eliminates the requirement to categorize investments in the fair value hierarchy if the fair value is measured at net asset value (NAV) per share (or its equivalent) using the practical expedient in the FASB's fair value measurement guidance. As permitted by ASU 2015-07, the Plan has early adopted this pronouncement for the year ended December 31, 2015 and its investments in collective trust funds that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investments contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. In the prior year management elected to early adopt Part I and Part II of this ASU.

Estimates

The preparation of the financial statements in conformity with accounting principles general accepted in the United States of America requires plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the Schedule H of the 5500. Under generally accepted accounting principles, the defaulted loan will remain a note receivable from participant until a distributable event occurs. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The investments are presented at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administrative expenses can be paid directly by the Company, such as recordkeeping, trustee, legal and accounting fees.

Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

3. ASSET INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

At December 31, 2016 and 2015, the Plan's investments were held by the Trustee, John Hancock Life Insurance Company. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2016 and 2015, as reported by the Trustee is summarized as follows:

	2016	2015
Interest-bearing cash	$ 87,873	$ 125,467
Pooled separate accounts	8,132,291	8,068,406
	$ 8,220,164	$ 8,193,873

During 2016, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year), which primarily consisted of mutual funds, appreciated in value by $423,207.

4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. These hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair values using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. These funds are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 Fair Value Measurements

Interest bearing cash is valued at face value.

Investments measured at net asset value

Pooled Separate Accounts: valued at the net asset value of units of the underlying investments at the insurance company. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant's transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the accounts, no notification is required.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

Fair Value Measurements at the End of the Reporting Period Using:

December 31, 2016	Quoted Prices for Similar Assets (Level 2)	Total
Interest bearing cash	$ 87,873	$ 87,873
Investment measured at net asset value (a)	-	8,132,291
Total assets at fair value	$ 87,873	$ 8,220,164

Fair Value Measurements at the End of the Reporting Period Using:

December 31, 2015	Quoted Prices for Similar Assets (Level 2)	Total
Interest bearing cash	$ 125,467	$ 125,467
Investments measured at net asset value (a)	-	8,068,406
Total assets at fair value	$ 125,467	$ 8,193,873

6. RELATED PARTY AND PARTY IN INTERST TRANSACTIONS

Certain plan investments are shares of pooled separate accounts managed by John Hancock Life Insurance Company, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for the investment management services amounted to $1,544 for the year ended December 31, 2016.

7. NONEXEMPT TRANSACTIONS

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the normal time frame established by the Company in order to follow the rules set forth by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the Plan year. Late payroll remittances amounted to $86,773. The late deferrals included loan repayments. The Company is in the process of contributing the lost earnings and completing all required filings.

8. TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2014 that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the latest plan document dated January 2016, the plan administration and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

10. RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

11. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

12. SUBSEQUENT EVENT

For the year ended December 31, 2016, the Company has evaluated subsequent events for potential recognition and disclosure through October 10, 2017 the date of financial statement issuance. No events requiring disclosure were noted.
