INDEPENDENT AUDITOR'S REPORT

To the Trustees
Altronix Corp. Profit Sharing Plan
Brooklyn, New York

Report on the Financial Statements
We have audited the accompanying financial statements of Altronix Corp. Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the year ended December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (held at year end), referred to as "supplemental schedule" is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2016

DESCRIPTION OF PLAN

The following description of the Altronix Corp. (Company) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service, are age twenty-one or older, and worked 1,000 or more hours during the plan year. An eligible employee shall become a participant in the Plan on January 1 or July 1 immediately following one year of service unless the employee elects not to participate in the Plan. The Plan has two eligible employee classifications, one for 10% owners and another for non-owners. The Plan is subject to the provisions of ERISA. The assets of the Plan are held in brokerage accounts of companies that are members of the Securities Investor Protection Act.

Contributions

The Plan does not provide for participant contributions. It is the intention of the Employer to make regular contributions to the Trust Fund each year in an amount specified by the Employer annually. Such amounts are not limited to the profits of the Employer. Voluntary employee contributions are not permitted by the Plan. For the year ended December 31, 2016, non-owners received a contribution equal to 3% of compensation; 10% owners received a contribution of 9% of maximum allowable compensation.

Participant Accounts

Participant accounts are employer directed. Each participant's account is credited with (a) an allocation of the Company's contribution and, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on each participant's compensation as a ratio to the total of all participants' compensation, but not in excess of 6% of the individual participant's compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in Company contributions, plus earnings thereon, is based on continuous years of service, as follows:

Year of Service	Vested
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Notes Receivable from Participants

Active participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The maximum repayment period for all loans is five years, with the exception of mortgages, for which the maximum repayment period is a "reasonable time" (determined at the time the loan is made). The loans are secured by the balance in the participant's account or other collateral accepted by the Trustee and bear interest at rates that range from 4.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
On termination of service for any reason, the participant or their beneficiary may elect to receive a lump-sum benefit equal to the participant's vested interest in his or her account as of the distribution determination date.

Forfeited Accounts
Forfeitures result from non-vested benefit payments remaining in the Plan for all terminated employees. At December 31, 2016, and 2015 forfeited non-vested accounts totaled $7,711 and $4,993, respectively. Employer contributions were reduced by $7,711 in 2016 from forfeited non-vested accounts.

SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value, as more fully described in the Fair Value Measurements footnote. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2016 or 2015.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Substantially all expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments. Investment related expenses totaled $39,326 during the year ended December 31, 2016.

Recent Accounting Pronouncements
In July 2015, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) Part 1. Fully Benefit-Responsive Investment Contracts ("FBRIC"); Part II Plan Investment Disclosures; and Part III. Measurement Date Practical Expedient*. The amendments remove the requirement to:

- Report fully benefit-responsive investment contracts at fair value. Contract value is the only required measure for fully benefit-responsive contracts.

- Disclose individual investments held which exceed 5% of net assets available for benefits

- Disclose net appreciation in fair value of investment contracts by type of investment held.

- Disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.

ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015. Accordingly, certain 2015 disclosures that are no longer required were removed.

In May 2015, the FASB issued ASU 2015-07, *Disclosure for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investment for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 additionally removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical beginning after December 15, 2016 with early adoption permitted. Management has elected to adopt ASU 2015-07 for the year ended December 31, 2016.

Reclassifications
Certain amounts from the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

Subsequent Events
The Plan has evaluated subsequent events through October 6, 2017 , the date the financial statements were available to be issued.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets (b) quoted prices for identical or similar assets or liabilities in inactive markets (c) inputs other than quoted prices that are observable for the asset or liability (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016

TAX STATUS

The IRS has determined and informed the Company by a letter dated September 27, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently and being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Federal and New York taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in employer contributions.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
