Note 1. Description of the Plan

The following description of the Edstrom Industries, LLC Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan was established on October 1, 1977. The Plan is a defined contribution plan covering qualified employees of Edstrom Industries, LLC (the Company). In connection with a transaction that occurred during 2016 that resulted in a change in control of the Company, the Company changed from Edstrom, Inc. to Edstrom Industries, LLC and the Plan name was changed from Edstrom, Inc. Profit Sharing Plan to Edstrom Industries, LLC Profit Sharing Plan with no impact on the Plan or the participants. Employees of the Company become eligible to participate in the Plan upon attaining the age of 18. Employees are allowed to participate in the Plan on the first business day immediately following the date of meeting the Plan's eligibility requirements. Eligibility for receipt of any discretionary profit sharing contribution by the Company requires a participant to be employed on the first and last day of the year to which the contribution related, and to complete one year of service. College students, as defined, that are only employed by the Company on an intermittent basis, are not eligible to participate in the Plan. Participants may direct their contributions and/or their account balances among the Plan's investment alternatives. All investments are participant directed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company has delegated administration of the Plan to the Plan Committee. The Plan Committee is responsible for oversight of the Plan.

Contributions: Each year, participants may contribute a percentage of eligible compensation, as defined by the Plan. Participants are automatically enrolled into the Plan with a 3 percent deferral of eligible compensation, which the participant may choose to change, or the participant may choose to opt out of making deferrals. The Company makes discretionary profit sharing contributions to the Plan in an amount determined by the Board of Directors of the Company. This contribution was \$519,709 for 2016. Contributions are subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions and related Plan earnings thereon, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participants' eligible compensation, participant earnings, account balances, or specified transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions and rollovers. Vesting in the Company's contributions and earnings thereon vest under a three years of service cliff vesting schedule. Upon death, disability or qualified retirement, participants become 100 percent vested.

Forfeitures: Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. Forfeited nonvested account balances are reallocated to participants annually in the same manner as profit sharing contributions. Forfeitures reallocated to participant accounts were \$3,540 during the year ended December 31, 2016. Unallocated forfeitures were \$2,955 and \$3,540 as of December 31, 2016 and 2015, respectively.

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.75 percent to 5.00 percent, as determined by the Plan Administrator. The Plan provides for a maximum loan period of five years unless the loan is associated with the purchase of a participant's principal residence, in which case the note term may exceed five years. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: Benefits under the Plan are paid upon normal retirement age, termination, death or disability. A participant may elect to receive the value of the participant's vested interest in his or her account in a lump-sum payment, installment payments or monthly annuity payments. In-service withdrawals can commence upon attaining the age of 59½. The Plan does not permit hardship withdrawals.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates: The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Plan expenses: Certain expenses incurred in conjunction with the Plan are paid by the Company and are excluded from these financial statements. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Company has evaluated subsequent events through October 11, 2017, which is the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Plan's Trustee

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, Vanguard Fiduciary Trust Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule relating to the following assets, included in the Plan's financial statements and supplemental schedule.

	December 31	
	2016	2015
Investments at fair value:		
Registered investment companies	\$ 26,021,659	\$ 25,041,782
Collective trust fund	3,757,067	3,769,320
Notes receivable from participants	222,138	298,543

Vanguard Fiduciary Trust Company also certified to the completeness and accuracy of \$1,424,114 of net appreciation in fair value of investments, \$969,242 of interest and dividends related to the aforementioned investments, and \$11,598 of interest income on notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

Accounting standards establish the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value.

Registered investment companies: Registered investment companies are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

Common/collective trust: The collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts. The common/collective trust is measured using the net asset value (NAV) per share practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Were the Plan to initiate a full redemption of the collective trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at December 31, 2016 and 2015:

Fair Value of Assets as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 26,021,659	\$ -	\$ -	\$ 26,021,659
Investment measured at net asset value (a)				3,757,067
Total investments at fair value				\$ 29,778,726

Fair Value of Assets as of December 31, 2015				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 25,041,782	\$ -	\$ -	\$ 25,041,782
Investment measured at net asset value (a)				3,769,320
Total investments at fair value				\$ 28,811,102

- (a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

Investments measured using the NAV per share practical expedient: The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Fair Value Estimated Using NAV per Share as of December 31, 2016					
	Fair Value	Redemption Frequency	Unfunded Commitment	Other Redemption Restrictions	Redemption Notice Period
Investment:					
Collective trust fund	\$ 3,757,067	Daily	None	None	None

Fair Value Estimated Using NAV per Share as of December 31, 2015					
	Fair Value	Redemption Frequency	Unfunded Commitment	Other Redemption Restrictions	Redemption Notice Period
Investment:					
Collective trust fund	\$ 3,769,320	Daily	None	None	None

Note 5. Tax Status

The Plan has adopted the Vanguard Fiduciary Trust Company Volume Submitter 401(k) Profit Sharing Plan (Volume Submitter Plan). The Internal Revenue Service (IRS) determined and informed Vanguard Fiduciary Trust Company by their letter dated March 31, 2014, that the Volume Submitter Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Volume Submitter Plan determination letter has been relied upon by the Plan. Plan management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Party in Interest

The Plan invests in funds managed by an affiliate of Vanguard Fiduciary Trust Company, the trustee of the Plan. Transactions with Vanguard Fiduciary Trust Company and participant notes receivable are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations. Fees for the investment management services during the year ended December 31, 2016, were offset against investment results.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions and to terminate or partially terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions and related earnings.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2016 statement of net assets available for benefits.
