INDEPENDENT AUDITORS' REPORT

TO THE TRUSTEES OF
O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN

Report on the Financial Statements

We have audited the accompanying financial statements of **O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of O'Brien & Gere Incentive Savings and Retirement Plan as of December 31, 2016 and 2015, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

As discussed in Note 2 to the financial statements, on January 1, 2016 the Plan adopted new accounting guidance relative to plan investment disclosures. Our opinion was not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN

General

The following brief description of the O'Brien & Gere Incentive Savings and Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and employee savings plan covering substantially all employees of O'Brien & Gere Limited and Subsidiaries (collectively referred to as "the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

O'Brien & Gere Limited is the Plan Sponsor. The assets of the Plan are held by Prudential Retirement Insurance and Annuity Company, a Prudential Financial, Inc. business ("the Trustee"). The ISRP Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Sponsor's Board of Directors.

Eligibility

Generally, all employees are eligible to make contributions after they have been continuously employed by the Company for thirty days and shall be eligible to participate in the Company match contribution. See ESOP contributions for further eligibility requirements.

Contributions

Participants may make qualified voluntary, Roth and catch up contributions to the Plan under Section 401(k), not to exceed statutory limits. In addition, each participant may make a non-qualified voluntary contribution of up to 10% of the participant's compensation for the Plan year. Unless a participant elects otherwise, a qualified voluntary contribution is automatically withheld at 3% of compensation upon eligibility.

The Plan Sponsor makes matching 401(k) contributions, in the form of cash or Plan Sponsor common stock at its discretion, equal to 100% of the participant's qualified voluntary contributions up to 4% of eligible pay. Employer matching contributions consisted of cash of $2,489,028 and $2,344,294 in 2016 and 2015, respectively.

Discretionary Plan Sponsor Contributions

The Plan Sponsor may make a discretionary annual profit sharing contribution for allocation to participants' accounts on the basis of compensation. There were no discretionary contributions declared by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

ESOP Contributions

The ISRP plan has separate ESOP provisions. Generally, all employees are eligible to participate in the Plan Sponsor discretionary profit sharing Employee Stock Ownership contributions on the first January 1 or July 1 after completing a year of eligibility service. In addition to meeting eligibility requirements, participants must be employed on the last day of the Plan year to be eligible for the ESOP contributions, unless due to retirement, death or disability. The Plan Sponsor may make an ESOP contribution of O'Brien and Gere Limited Company Stock for allocation to participants' accounts on the basis of compensation using a pro-rata formula. The amount of the Plan Sponsor's contribution will be authorized by the Plan Sponsor's Board of Directors but shall not exceed the maximum deductible from the employer's income under Section 404(a) of the Internal Revenue Code. ESOP contributions declared and accrued by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015 were $500,000 and $600,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's and allocations of the Sponsor's contributions and the Plan earnings (losses), and charged with allocations of administrative expenses. Allocations are based on participant account balances, as defined. A separate ESOP sub-account is maintained for each participant to track the ESOP contributions and share of the assets held in the ESOP portion of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments and Voting Rights

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan.

Shares of O'Brien & Gere Limited Common Stock make up 100% of the plan investments within the ESOP portion of the Plan and some of the plan investments within the 401(k) portion of the Plan.

Participants may transfer employer contributions out of company stock, but cannot redirect investments into company stock. Also, diversification of ESOP sub-accounts rules apply.

If the participant does not select an investment account, the administrator will direct the investment.

Stock held by the Plan shall be voted by the Plan Trustee upon the instruction of the Administrative Committee appointed by the Directors of the Company except in stockholder matters which require a greater than majority affirmation vote of stock voted, in which case each participant shall have the right to vote the stock allocated to his account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Vesting

Participants become 100% vested in their employee and employer contributions plus actual earnings thereon, upon entering the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts, subject to Plan limitations, an amount not in excess of 50%, up to a maximum of $50,000, of their account balances, subject to certain conditions as defined in the Plan document. The loans and interest thereon shall be repaid ratably through payroll deductions over a period generally not to exceed five years. The loans are secured by the balances in the participants' accounts and bear interest at rates commensurate for loans made under similar circumstances.

Payment of Benefits

Participants can receive a final distribution of their account upon termination, retirement, death and disability. In-service withdrawals are permitted under certain circumstances. Additionally, in order to satisfy the ESOP diversification requirements, participants may receive a distribution of up to 25% (50% for the final year of participant's diversification election period) of the total shares of Employer Stock held in participant's post-1986 ESOP Sub-Account once participants have reached age 55 and completed 10 years of service.

Generally, distributions over $1,000 can be postponed up to age 65, however, participants may also elect to retain their investment in Company stock for a period of five years following their termination from services.

Single-sum payments, installment payments and direct rollover options are available within the Plan.

Upon retirement under certain circumstances, participants may elect to receive a distribution of company stock from the portion relating to the ESOP sub-account and matching employer contributions that are invested in company stock.

Retirement Age

Normal retirement age is 65; participants may qualify for early retirement after age 59 1/2, with no penalty.

December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Administrative Expenses

Administrative expenses of the Plan are paid out of Plan assets. Administrative expenses were $55,000 and $41,000 for the years ended December 31, 2016 and 2015, respectively.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted under certain circumstances.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan to discontinue its contributions at any time, withdraw from the Plan and to terminate the Plan, subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments, Fair Value Measurements, and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Change in Accounting Policy

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU eliminates the requirement to categorize within the fair value hierarchy table all investments for which fair value is measured using net asset value per share. Disclosure information will still be required to help users understand the nature and risks of these investments. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted which management has elected.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Guaranteed Income Fund with Insurance Company

The Plan entered into a fully benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (Prudential) named Guaranteed Income Fund and is stated at contract value. These contracts maintain the contributions in a general account and are considered evergreen group annuity products with guarantees backed by the full faith and credit of Prudential. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Payment obligations represent an insurance claim supported by general assets of Prudential. Expenses are calculated by Prudential and incorporated into the crediting rates. Past interest rates are not an indication of future interest rates. The account is credited daily based on the daily equivalent of the annual effective crediting rate. The contract is included in the financial statement of the Plan at contract value.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Guaranteed Income Fund with Insurance Company – Continued

The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product, even upon a discontinuance of the contract, in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cash flows that could be discounted. As a result, the amount shown is equal to the Contract Value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions.

Notes Receivable from Participants

Notes receivable from participant's are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contribution Receivables

Employer and participant contributions receivable represent amounts due as of December 31, 2016 and 2015, under terms of the Plan.

The Plan considers contributions receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

All reasonable expenses of the administrator or trustee incurred in the performance of their duties hereunder or under the Plan may be paid by the employer at the employer's discretion. Any expenses not paid by the employer are expenses of the Plan.

Subsequent Events

The Plan Administrator has evaluated subsequent events through October 4, 2017, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Nonparticipant-Directed Investments

Information about the net assets and significant components of the changes in net assets relating to the O'Brien & Gere Limited Common Stock, a nonparticipant directed investment and a Level 3 investment at fair value as described in Note 4, is as follows at December 31:

	2016	2015
Net Assets:		
O'Brien & Gere Limited Common Stock:		
Beginning of the Year	$ 17,884,531	$ 21,037,420
Changes in Net Assets:		
Contributions	600,000	800,000
Net (Depreciation) Appreciation	478,480	(1,088,193)
Benefit Paid to Participants	(252,235)	(1,124,815)
Transfers to Participant-Directed Investments	(1,171,912)	(1,739,881)
End of the Year	$ 17,538,864	$ 17,884,531

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Plan reports fair value measurements using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

O'Brien & Gere Limited Common Stock – The Board of Directors of the Company resolves to adopt the stock price annually to be utilized for all subsequent stock transactions and benefit payments based on an independent appraisal (Net Asset Value per Share).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Unit Value Measurement as a Practical Expedient

Pooled Separate Accounts Measured at Net Unit Value – Valued as computed by custodian which represents the pooled market value of underlying assets adjusted for capital gain and dividends which are automatically reinvested and deduction of administrative fee (Net Unit Value).

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Prudential Retirement Insurance and Annuity Company, custodian and trustee of the Plan's assets. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Investments and activity in shares of O'Brien & Gere Limited Stock, which is the Plan Sponsor, qualify as party-in-interest transactions. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.

Gallagher Benefit Services, Inc. provides consulting services to the Company and employees regarding the Plan. Dermody, Burke & Brown, CPAs, LLC provides audit services to the Plan. Smith & Downey provides legal services to the Plan. The service providers are paid a reasonable fee and these transactions qualify as party-in-interest transactions and are considered to be exempt.

NOTE 6 – TAX STATUS

The Plan was restated January 1, 2015. The Plan Administrator in consultation with legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rates, market and credit risks. The investment in O'Brien & Gere Limited Common Stock is also exposed to concentration risk. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of the investments, it is at least reasonably possible that changes in values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 8 – CONCENTRATIONS

Cash and cash equivalents include bank demand deposit accounts and all highly liquid investments purchased with maturities of three months or less. The Plan maintains its cash in bank accounts, which at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk with respect to cash and cash equivalents.

INDEPENDENT AUDITORS' REPORT

TO THE TRUSTEES OF
O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN

Report on the Financial Statements

We have audited the accompanying financial statements of **O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of O'Brien & Gere Incentive Savings and Retirement Plan as of December 31, 2016 and 2015, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

As discussed in Note 2 to the financial statements, on January 1, 2016 the Plan adopted new accounting guidance relative to plan investment disclosures. Our opinion was not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN

General

The following brief description of the O'Brien & Gere Incentive Savings and Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and employee savings plan covering substantially all employees of O'Brien & Gere Limited and Subsidiaries (collectively referred to as "the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

O'Brien & Gere Limited is the Plan Sponsor. The assets of the Plan are held by Prudential Retirement Insurance and Annuity Company, a Prudential Financial, Inc. business ("the Trustee"). The ISRP Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Sponsor's Board of Directors.

Eligibility

Generally, all employees are eligible to make contributions after they have been continuously employed by the Company for thirty days and shall be eligible to participate in the Company match contribution. See ESOP contributions for further eligibility requirements.

Contributions

Participants may make qualified voluntary, Roth and catch up contributions to the Plan under Section 401(k), not to exceed statutory limits. In addition, each participant may make a non-qualified voluntary contribution of up to 10% of the participant's compensation for the Plan year. Unless a participant elects otherwise, a qualified voluntary contribution is automatically withheld at 3% of compensation upon eligibility.

The Plan Sponsor makes matching 401(k) contributions, in the form of cash or Plan Sponsor common stock at its discretion, equal to 100% of the participant's qualified voluntary contributions up to 4% of eligible pay. Employer matching contributions consisted of cash of $2,489,028 and $2,344,294 in 2016 and 2015, respectively.

Discretionary Plan Sponsor Contributions

The Plan Sponsor may make a discretionary annual profit sharing contribution for allocation to participants' accounts on the basis of compensation. There were no discretionary contributions declared by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

ESOP Contributions

The ISRP plan has separate ESOP provisions. Generally, all employees are eligible to participate in the Plan Sponsor discretionary profit sharing Employee Stock Ownership contributions on the first January 1 or July 1 after completing a year of eligibility service. In addition to meeting eligibility requirements, participants must be employed on the last day of the Plan year to be eligible for the ESOP contributions, unless due to retirement, death or disability. The Plan Sponsor may make an ESOP contribution of O'Brien and Gere Limited Company Stock for allocation to participants' accounts on the basis of compensation using a pro-rata formula. The amount of the Plan Sponsor's contribution will be authorized by the Plan Sponsor's Board of Directors but shall not exceed the maximum deductible from the employer's income under Section 404(a) of the Internal Revenue Code. ESOP contributions declared and accrued by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015 were $500,000 and $600,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's and allocations of the Sponsor's contributions and the Plan earnings (losses), and charged with allocations of administrative expenses. Allocations are based on participant account balances, as defined. A separate ESOP sub-account is maintained for each participant to track the ESOP contributions and share of the assets held in the ESOP portion of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments and Voting Rights

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan.

Shares of O'Brien & Gere Limited Common Stock make up 100% of the plan investments within the ESOP portion of the Plan and some of the plan investments within the 401(k) portion of the Plan.

Participants may transfer employer contributions out of company stock, but cannot redirect investments into company stock. Also, diversification of ESOP sub-accounts rules apply.

If the participant does not select an investment account, the administrator will direct the investment.

Stock held by the Plan shall be voted by the Plan Trustee upon the instruction of the Administrative Committee appointed by the Directors of the Company except in stockholder matters which require a greater than majority affirmation vote of stock voted, in which case each participant shall have the right to vote the stock allocated to his account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Vesting

Participants become 100% vested in their employee and employer contributions plus actual earnings thereon, upon entering the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts, subject to Plan limitations, an amount not in excess of 50%, up to a maximum of $50,000, of their account balances, subject to certain conditions as defined in the Plan document. The loans and interest thereon shall be repaid ratably through payroll deductions over a period generally not to exceed five years. The loans are secured by the balances in the participants' accounts and bear interest at rates commensurate for loans made under similar circumstances.

Payment of Benefits

Participants can receive a final distribution of their account upon termination, retirement, death and disability. In-service withdrawals are permitted under certain circumstances. Additionally, in order to satisfy the ESOP diversification requirements, participants may receive a distribution of up to 25% (50% for the final year of participant's diversification election period) of the total shares of Employer Stock held in participant's post-1986 ESOP Sub-Account once participants have reached age 55 and completed 10 years of service.

Generally, distributions over $1,000 can be postponed up to age 65, however, participants may also elect to retain their investment in Company stock for a period of five years following their termination from services.

Single-sum payments, installment payments and direct rollover options are available within the Plan.

Upon retirement under certain circumstances, participants may elect to receive a distribution of company stock from the portion relating to the ESOP sub-account and matching employer contributions that are invested in company stock.

Retirement Age

Normal retirement age is 65; participants may qualify for early retirement after age 59 1/2, with no penalty.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Administrative Expenses

Administrative expenses of the Plan are paid out of Plan assets. Administrative expenses were $55,000 and $41,000 for the years ended December 31, 2016 and 2015, respectively.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted under certain circumstances.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan to discontinue its contributions at any time, withdraw from the Plan and to terminate the Plan, subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments, Fair Value Measurements, and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Change in Accounting Policy

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU eliminates the requirement to categorize within the fair value hierarchy table all investments for which fair value is measured using net asset value per share. Disclosure information will still be required to help users understand the nature and risks of these investments. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted which management has elected.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Guaranteed Income Fund with Insurance Company

The Plan entered into a fully benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (Prudential) named Guaranteed Income Fund and is stated at contract value. These contracts maintain the contributions in a general account and are considered evergreen group annuity products with guarantees backed by the full faith and credit of Prudential. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Payment obligations represent an insurance claim supported by general assets of Prudential. Expenses are calculated by Prudential and incorporated into the crediting rates. Past interest rates are not an indication of future interest rates. The account is credited daily based on the daily equivalent of the annual effective crediting rate. The contract is included in the financial statement of the Plan at contract value.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Guaranteed Income Fund with Insurance Company – Continued

The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product, even upon a discontinuance of the contract, in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cash flows that could be discounted. As a result, the amount shown is equal to the Contract Value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions.

Notes Receivable from Participants

Notes receivable from participant's are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contribution Receivables

Employer and participant contributions receivable represent amounts due as of December 31, 2016 and 2015, under terms of the Plan.

The Plan considers contributions receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

All reasonable expenses of the administrator or trustee incurred in the performance of their duties hereunder or under the Plan may be paid by the employer at the employer's discretion. Any expenses not paid by the employer are expenses of the Plan.

Subsequent Events

The Plan Administrator has evaluated subsequent events through October 4, 2017, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Nonparticipant-Directed Investments

Information about the net assets and significant components of the changes in net assets relating to the O'Brien & Gere Limited Common Stock, a nonparticipant directed investment and a Level 3 investment at fair value as described in Note 4, is as follows at December 31:

	2016	2015
Net Assets:		
O'Brien & Gere Limited Common Stock:		
Beginning of the Year	$ 17,884,531	$ 21,037,420
Changes in Net Assets:		
Contributions	600,000	800,000
Net (Depreciation) Appreciation	478,480	(1,088,193)
Benefit Paid to Participants	(252,235)	(1,124,815)
Transfers to Participant-Directed Investments	(1,171,912)	(1,739,881)
End of the Year	$ 17,538,864	$ 17,884,531

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Plan reports fair value measurements using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

O'Brien & Gere Limited Common Stock – The Board of Directors of the Company resolves to adopt the stock price annually to be utilized for all subsequent stock transactions and benefit payments based on an independent appraisal (Net Asset Value per Share).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Unit Value Measurement as a Practical Expedient

Pooled Separate Accounts Measured at Net Unit Value – Valued as computed by custodian which represents the pooled market value of underlying assets adjusted for capital gain and dividends which are automatically reinvested and deduction of administrative fee (Net Unit Value).

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Investments at Fair Value as of December 31, 2016

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Prudential Retirement Insurance and Annuity Company, custodian and trustee of the Plan's assets. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Investments and activity in shares of O'Brien & Gere Limited Stock, which is the Plan Sponsor, qualify as party-in-interest transactions. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.

Gallagher Benefit Services, Inc. provides consulting services to the Company and employees regarding the Plan. Dermody, Burke & Brown, CPAs, LLC provides audit services to the Plan. Smith & Downey provides legal services to the Plan. The service providers are paid a reasonable fee and these transactions qualify as party-in-interest transactions and are considered to be exempt.

NOTE 6 – TAX STATUS

The Plan was restated January 1, 2015. The Plan Administrator in consultation with legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rates, market and credit risks. The investment in O'Brien & Gere Limited Common Stock is also exposed to concentration risk. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of the investments, it is at least reasonably possible that changes in values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 8 – CONCENTRATIONS

Cash and cash equivalents include bank demand deposit accounts and all highly liquid investments purchased with maturities of three months or less. The Plan maintains its cash in bank accounts, which at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk with respect to cash and cash equivalents.

INDEPENDENT AUDITORS' REPORT

TO THE TRUSTEES OF
O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN

Report on the Financial Statements

We have audited the accompanying financial statements of **O'BRIEN & GERE INCENTIVE SAVINGS AND RETIREMENT PLAN** (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of O'Brien & Gere Incentive Savings and Retirement Plan as of December 31, 2016 and 2015, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

As discussed in Note 2 to the financial statements, on January 1, 2016 the Plan adopted new accounting guidance relative to plan investment disclosures. Our opinion was not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year, referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN

General

The following brief description of the O'Brien & Gere Incentive Savings and Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and employee savings plan covering substantially all employees of O'Brien & Gere Limited and Subsidiaries (collectively referred to as "the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

O'Brien & Gere Limited is the Plan Sponsor. The assets of the Plan are held by Prudential Retirement Insurance and Annuity Company, a Prudential Financial, Inc. business ("the Trustee"). The ISRP Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan Sponsor's Board of Directors.

Eligibility

Generally, all employees are eligible to make contributions after they have been continuously employed by the Company for thirty days and shall be eligible to participate in the Company match contribution. See ESOP contributions for further eligibility requirements.

Contributions

Participants may make qualified voluntary, Roth and catch up contributions to the Plan under Section 401(k), not to exceed statutory limits. In addition, each participant may make a non-qualified voluntary contribution of up to 10% of the participant's compensation for the Plan year. Unless a participant elects otherwise, a qualified voluntary contribution is automatically withheld at 3% of compensation upon eligibility.

The Plan Sponsor makes matching 401(k) contributions, in the form of cash or Plan Sponsor common stock at its discretion, equal to 100% of the participant's qualified voluntary contributions up to 4% of eligible pay. Employer matching contributions consisted of cash of $2,489,028 and $2,344,294 in 2016 and 2015, respectively.

Discretionary Plan Sponsor Contributions

The Plan Sponsor may make a discretionary annual profit sharing contribution for allocation to participants' accounts on the basis of compensation. There were no discretionary contributions declared by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

ESOP Contributions

The ISRP plan has separate ESOP provisions. Generally, all employees are eligible to participate in the Plan Sponsor discretionary profit sharing Employee Stock Ownership contributions on the first January 1 or July 1 after completing a year of eligibility service. In addition to meeting eligibility requirements, participants must be employed on the last day of the Plan year to be eligible for the ESOP contributions, unless due to retirement, death or disability. The Plan Sponsor may make an ESOP contribution of O'Brien and Gere Limited Company Stock for allocation to participants' accounts on the basis of compensation using a pro-rata formula. The amount of the Plan Sponsor's contribution will be authorized by the Plan Sponsor's Board of Directors but shall not exceed the maximum deductible from the employer's income under Section 404(a) of the Internal Revenue Code. ESOP contributions declared and accrued by the Plan Sponsor for the Plan years ended December 31, 2016 and 2015 were $500,000 and $600,000, respectively.

Participant Accounts

Each participant's account is credited with the participant's and allocations of the Sponsor's contributions and the Plan earnings (losses), and charged with allocations of administrative expenses. Allocations are based on participant account balances, as defined. A separate ESOP sub-account is maintained for each participant to track the ESOP contributions and share of the assets held in the ESOP portion of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments and Voting Rights

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan.

Shares of O'Brien & Gere Limited Common Stock make up 100% of the plan investments within the ESOP portion of the Plan and some of the plan investments within the 401(k) portion of the Plan.

Participants may transfer employer contributions out of company stock, but cannot redirect investments into company stock. Also, diversification of ESOP sub-accounts rules apply.

If the participant does not select an investment account, the administrator will direct the investment.

Stock held by the Plan shall be voted by the Plan Trustee upon the instruction of the Administrative Committee appointed by the Directors of the Company except in stockholder matters which require a greater than majority affirmation vote of stock voted, in which case each participant shall have the right to vote the stock allocated to his account.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Vesting

Participants become 100% vested in their employee and employer contributions plus actual earnings thereon, upon entering the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts, subject to Plan limitations, an amount not in excess of 50%, up to a maximum of $50,000, of their account balances, subject to certain conditions as defined in the Plan document. The loans and interest thereon shall be repaid ratably through payroll deductions over a period generally not to exceed five years. The loans are secured by the balances in the participants' accounts and bear interest at rates commensurate for loans made under similar circumstances.

Payment of Benefits

Participants can receive a final distribution of their account upon termination, retirement, death and disability. In-service withdrawals are permitted under certain circumstances. Additionally, in order to satisfy the ESOP diversification requirements, participants may receive a distribution of up to 25% (50% for the final year of participant's diversification election period) of the total shares of Employer Stock held in participant's post-1986 ESOP Sub-Account once participants have reached age 55 and completed 10 years of service.

Generally, distributions over $1,000 can be postponed up to age 65, however, participants may also elect to retain their investment in Company stock for a period of five years following their termination from services.

Single-sum payments, installment payments and direct rollover options are available within the Plan.

Upon retirement under certain circumstances, participants may elect to receive a distribution of company stock from the portion relating to the ESOP sub-account and matching employer contributions that are invested in company stock.

Retirement Age

Normal retirement age is 65; participants may qualify for early retirement after age 59 1/2, with no penalty.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN – Continued

Administrative Expenses

Administrative expenses of the Plan are paid out of Plan assets. Administrative expenses were $55,000 and $41,000 for the years ended December 31, 2016 and 2015, respectively.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted under certain circumstances.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan to discontinue its contributions at any time, withdraw from the Plan and to terminate the Plan, subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments, Fair Value Measurements, and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Change in Accounting Policy

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This ASU eliminates the requirement to categorize within the fair value hierarchy table all investments for which fair value is measured using net asset value per share. Disclosure information will still be required to help users understand the nature and risks of these investments. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted which management has elected.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Guaranteed Income Fund with Insurance Company

The Plan entered into a fully benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (Prudential) named Guaranteed Income Fund and is stated at contract value. These contracts maintain the contributions in a general account and are considered evergreen group annuity products with guarantees backed by the full faith and credit of Prudential. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Payment obligations represent an insurance claim supported by general assets of Prudential. Expenses are calculated by Prudential and incorporated into the crediting rates. Past interest rates are not an indication of future interest rates. The account is credited daily based on the daily equivalent of the annual effective crediting rate. The contract is included in the financial statement of the Plan at contract value.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Guaranteed Income Fund with Insurance Company – Continued

The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product, even upon a discontinuance of the contract, in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a Market Value (Fair Value) Adjustment does not apply upon discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a Fair Value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional GIC and therefore there are not any known cash flows that could be discounted. As a result, the amount shown is equal to the Contract Value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions.

Notes Receivable from Participants

Notes receivable from participant's are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contribution Receivables

Employer and participant contributions receivable represent amounts due as of December 31, 2016 and 2015, under terms of the Plan.

The Plan considers contributions receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

All reasonable expenses of the administrator or trustee incurred in the performance of their duties hereunder or under the Plan may be paid by the employer at the employer's discretion. Any expenses not paid by the employer are expenses of the Plan.

Subsequent Events

The Plan Administrator has evaluated subsequent events through October 4, 2017, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Nonparticipant-Directed Investments

Information about the net assets and significant components of the changes in net assets relating to the O'Brien & Gere Limited Common Stock, a nonparticipant directed investment and a Level 3 investment at fair value as described in Note 4, is as follows at December 31:

	2016	2015
Net Assets:		
O'Brien & Gere Limited Common Stock:		
Beginning of the Year	$ 17,884,531	$ 21,037,420
Changes in Net Assets:		
Contributions	600,000	800,000
Net (Depreciation) Appreciation	478,480	(1,088,193)
Benefit Paid to Participants	(252,235)	(1,124,815)
Transfers to Participant-Directed Investments	(1,171,912)	(1,739,881)
End of the Year	$ 17,538,864	$ 17,884,531

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Plan reports fair value measurements using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

O'Brien & Gere Limited Common Stock – The Board of Directors of the Company resolves to adopt the stock price annually to be utilized for all subsequent stock transactions and benefit payments based on an independent appraisal (Net Asset Value per Share).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Unit Value Measurement as a Practical Expedient

Pooled Separate Accounts Measured at Net Unit Value – Valued as computed by custodian which represents the pooled market value of underlying assets adjusted for capital gain and dividends which are automatically reinvested and deduction of administrative fee (Net Unit Value).

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Prudential Retirement Insurance and Annuity Company, custodian and trustee of the Plan's assets. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Investments and activity in shares of O'Brien & Gere Limited Stock, which is the Plan Sponsor, qualify as party-in-interest transactions. Transactions involving notes receivable from participants also qualify as party-in-interest transactions.

Gallagher Benefit Services, Inc. provides consulting services to the Company and employees regarding the Plan. Dermody, Burke & Brown, CPAs, LLC provides audit services to the Plan. Smith & Downey provides legal services to the Plan. The service providers are paid a reasonable fee and these transactions qualify as party-in-interest transactions and are considered to be exempt.

NOTE 6 – TAX STATUS

The Plan was restated January 1, 2015. The Plan Administrator in consultation with legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rates, market and credit risks. The investment in O'Brien & Gere Limited Common Stock is also exposed to concentration risk. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of the investments, it is at least reasonably possible that changes in values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 8 – CONCENTRATIONS

Cash and cash equivalents include bank demand deposit accounts and all highly liquid investments purchased with maturities of three months or less. The Plan maintains its cash in bank accounts, which at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk with respect to cash and cash equivalents.
