The Plan, as amended, is a defined contribution plan covering substantially all employees of Children's Community Care, Inc. (d/b/a Children's Community Pediatrics) (the Company) who have completed at least one year of service. The Plan was restated effective April 16, 2012.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Entry dates are the earlier of the first day of the plan year or the first day of the seventh month of the plan year coinciding with or following the date on which an employee meets the eligibility requirements.

Contributions

Participants may direct contributions to the Plan from 1% up to 50% of their annual compensation on a pre-tax deferred basis, subject to certain limitations. The Plan was amended effective January 1, 2009 to allow participants to elect Roth deferrals. Roth deferrals are subject to federal income tax in the year of deferral. In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to $6,000 in 2015) may be made. Participants may also roll over balances into the Plan from other qualified retirement plans. The Company provides a qualified safe harbor non-elective contribution of 3% of each participant's eligible compensation. The Company may also make a matching contribution equal to a discretionary percentage of participants' salary deferrals. Forfeited amounts are allocated to all eligible participants and are used to reduce Company matching contributions. There were no significant forfeitures in 2015. Company contributions for the year ended December 31, 2015 consist of the following:

	2015
Discretionary company match	**$ 1,168,735**
Qualified safe harbor and non-elective contribution	**1,381,790**
Employer Contributions	**$ 2,550,525**

Employee contributions for the year ended December 31, 2015 consist of the following:

	2015
Pre-tax deferrals	**$ 2,593,920**
Roth deferrals	**411,886**
Employee Contributions	**$ 3,005,806**

1. Plan Description (Continued)

Participant Accounts

The plan administrator maintains separate accounts for each participant. Each participant's account is credited with their voluntary contributions and with an allocation of the Company's matching contributions and plan earnings. Allocations of the Company's contributions are based on employee contributions for the Company matching amount and on compensation for any qualified non-elective contributions. Allocations of fund investment income (loss) to the participants' accounts are based upon the ratio of the participant's account balance to the total balance of all participant account balances in the fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions. A participant is 100% vested in qualified non-elective contributions and discretionary matching contributions made by the Company plus actual earnings thereon after three years of credited service.

Benefits

Upon early termination of employment or termination of service due to death, disability or retirement, a participant or their beneficiary may receive payment in a lump sum, or in installments equal to the value of the participant's vested interest in his or her account. If the participant's account balance is less than or equal to $1,000, the Plan may make a lump-sum payment without the participant's consent.

Participants may elect to receive alternate forms of distributions as defined by the plan document.

At December 31, 2015 and 2014, there were no amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of $1,000 and a maximum equal to the lesser of 50% of their vested account balance or $50,000, reduced by the participant's highest outstanding loan balance during the prior 12 months. Loan terms range from 12 to 60 months, or up to 180 months for the purchase of a participant's residence. The loans are secured by the balance of the participant's account and bear interest at the prime rate in effect at the date of the loan plus 1%. Effective November 1, 2016, loans are no longer permitted in the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

The KeyBank EB Managed Guaranteed Investment Contract Fund that was entered into in 2012 is a fully benefit-responsive investment contract in a common collective trust fund (CCT). The fund is valued using the net asset value (NAV) provided by the administrator of the trust on the last day of the Plan's year end. The NAV is based on the value of the underlying assets by the trust, minus its liabilities, and then divided by the number of shares outstanding.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The cost of investments sold, distributed, or forfeited is determined using the specific identification method. Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on securities sold or redeemed are determined on specific identification. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net depreciation in fair values of investments.

Administrative Expenses

Administrative expenses, other than the annual audit fee, which is paid by the Company, are paid by the Plan. The Company may elect, however, not to pay the annual audit fee, at which time it would be paid by the Plan.

Benefit Payments

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued updated guidance on investment valuation and presentation. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and, accordingly, removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using NAV per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month end that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan early adopted the accounting guidance related to the presentation of the Plan's investments (Note 3).

In May 2015, the FASB issued updated guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using NAV per share practical expedient. The practical expedient criteria differ from the criteria used to categorize other fair value measurements within the hierarchy. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of whether the investment is redeemable with the investee at NAV on the measurement date, never redeemable with the investee at NAV, or redeemable with the investee at NAV at a future date. Under this updated guidance, investments for which fair value is measured at NAV per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. The guidance is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, and should be applied retrospectively. The retrospective approach requires that an investment for which fair value is measured using the NAV per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application is permitted. The Plan adopted the accounting guidance related to the presentation of the Plan's investments (Note 3).

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan Sponsor evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through September 29, 2016, the day the financial statements were approved and authorized for issue.

3. Investments

The following tables set forth the fair value of the Plan's assets measured on a recurring basis, by level, as described in Note 2:

As of December 31, 2015	Level 1	Total
Mutual funds at fair value	$ 71,032,265	$ 71,032,265
Common collective trust measured at net asset value*	-	1,298,466
Investments at Fair Value	$ 71,032,265	$ 72,330,731

As of December 31, 2014	Level 1	Total
Mutual funds at fair value	$ 70,975,113	$ 70,975,113
Common collective trust measured at net asset value*	-	1,252,907
Investments at Fair Value	$ 70,975,113	$ 72,228,020

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit a reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Plan Benefits.

4. Common Collective Trust Fund

The Plan has a common collective trust, which is valued at NAV (Note 3). There are minimal restrictions for the exchanging of shares. Participant-directed purchases and sales are at the NAV. If the Plan initiates a full redemption, the investment advisor reserves the right to temporarily delay withdrawal from the fund in order to ensure that securities liquidations will be carried out in an orderly business manner.

Fair value is derived based on the value of the underlying assets by the trust, minus its liabilities, and then divided by the number of shares outstanding.

5. Certification of Financial Information

Capital Bank and Trust Company, the trustee of the Plan, has certified that all investment information related to mutual funds, the common collective trust, and notes receivable from participants summarized in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits as of and for the year ended December 31, 2015 is complete and accurate.

6. Related Party and Exempt Parties-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan.

Certain plan investments are shares of registered investment companies (mutual funds) managed by an affiliate of Capital Bank and Trust Company. Capital Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The total market value of investments in the registered investment companies (mutual funds) managed by Capital Bank and Trust Company was $57,689,251 at December 31, 2015 and $57,230,262 at December 31, 2014. Fees paid by the Plan to Capital Bank and Trust Company for the investment management services were not significant for the years ended December 31, 2015 and 2014.

The Plan has notes receivable from participants subject to specific guidelines as defined in the plan document (Note 1).

7. Tax Status

The plan sponsor has adopted a modified prototype plan of American Funds Distributors, Inc. (AFD). AFD obtained a letter dated March 31, 2014, in which the Internal Revenue Service stated its opinion that the form of the prototype plan of AFD is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Company has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Schedule H of Form 5500
