**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

**Note 1 - Description of Plan**

The following description of the Legrand Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan established by Legrand Holdings (the "Company") that covers employees of Lastar, Inc. ("Lastar") and Electrorack Products Company ("Electrorack"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under the Plan, eligible participants are non-union employees with six months of service whose customary employment is for 1,000 hours or more per Plan year. However, any participant who completes 1,000 hours of service in any year following the date of hire shall be eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2015, the Lastar, Inc. Retirement Plan merged into the Legrand Savings Plan.

**Contributions**

Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants. The Plan will make safe harbor contributions to all participants of 100% of salary deferrals up to 3% and 50% of salary deferrals between 3% and 5%. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. Participants direct the investment of Company contributions.

**Participant accounts**

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Notes receivable from participants**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the vested balance in the participant's account and bear interest at rates between 4.25% and 9.25% which is based on the local prevailing interest rates at the time of the loan. Principal and interest are paid ratably through payroll deductions.

### Notes to Financial Statements December 31, 2016

#### Vesting

Participants are fully vested immediately in their contributions and safe harbor contributions plus actual earnings thereon. Electorak participants are 100% vested in any matching and non-elective contributions after six years of credited service as follows:

| <u>Years of service</u> | <u>Vested percentage</u> |
|-------------------------|--------------------------|
| Less than 2             | 0%                       |
| 2                       | 20%                      |
| 3                       | 40%                      |
| 4                       | 60%                      |
| 5                       | 80%                      |
| 6 or more               | 100%                     |

Prior to the merger, Lastar participants were fully vested in their matching and profit sharing contributions as of March 17, 2014. Lastar participants who terminated prior to March 17, 2014 were 100% vested in their matching and profit sharing contributions after 3 years of service.

#### Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than \$5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an Individual Retirement Account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from a participant's salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age may withdraw all or a portion of the balance in their account prior to termination for any reason.

Lastar participants whose account balances transferred prior to December 31, 2014 may request an in-service withdrawal due to a disability, in accordance with the provisions specified in the Plan.

#### Revenue credit account

The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2016, the custodian contributed \$10,225 into the revenue credit account. There was no balance in this account at December 31, 2016 and 2015. During 2016, the Company used \$10,225 from the account to pay Plan expenses.

#### Forfeited accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$134,298 and \$122,699, respectively. These accounts will be first used to pay Plan expenses, if applicable, then to reduce future employer contributions. During 2016, no forfeited accounts were used.

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Investment valuation and income recognition**

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits**

Benefits are recorded when paid.

**Administrative expenses**

Certain expenses to maintain the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or pay directly the fees of a service provider or other expense of administering the Plan.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

**Use of estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Subsequent events**

The Plan has evaluated events and transactions for potential recognition or disclosure through October 5, 2017, the date the financial statements were available to be issued.

**Note 3 - Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value ("AUV") of units held by the Plan at year-end. The AUV is based on the value of underlying investments, which are valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing less its liabilities and account charges, plus any applicable dividend income, then divided by the number of units outstanding. The accounts allow for daily redemptions and contributions.

### Notes to Financial Statements December 31, 2016

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

| Assets at fair value as of December 31, 2016 |                      |                     |             |                      |

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

#### Note 4 - Fully benefit-responsive investment contracts

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2016 and 2015 was \$3,270,067 and \$2,941,486, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.

## **Legrand Savings Plan**

### **Notes to Financial Statements December 31, 2016**

5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

#### **Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2016, and investment income and interest income on notes receivable from participants for the year ended December 31, 2016, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

#### **Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to \$25,195 for the year ended December 31, 2016. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

#### **Note 7 - Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

#### **Note 8 - Tax status**

The prototype plan document, which the Plan has adopted via a non-standardized adoption agreement, obtained its latest opinion letter dated April 29, 2014 in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust is tax-exempt.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 9 - Risks and uncertainties**

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Note 10 - Compliance related matter**

During 2016, the Company determined that certain participants of Lastar were erroneously provided an additional Company contribution during the Plan year. The Company is currently in the process of taking the corrective action to reallocate the additional Company contribution from their accounts to the forfeiture accounts and expects to complete the process prior to December 31, 2017.

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

**Note 1 - Description of Plan**

The following description of the Legrand Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan established by Legrand Holdings (the "Company") that covers employees of Lastar, Inc. ("Lastar") and Electrorack Products Company ("Electrorack"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under the Plan, eligible participants are non-union employees with six months of service whose customary employment is for 1,000 hours or more per Plan year. However, any participant who completes 1,000 hours of service in any year following the date of hire shall be eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2015, the Lastar, Inc. Retirement Plan merged into the Legrand Savings Plan.

**Contributions**

Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants. The Plan will make safe harbor contributions to all participants of 100% of salary deferrals up to 3% and 50% of salary deferrals between 3% and 5%. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. Participants direct the investment of Company contributions.

**Participant accounts**

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Notes receivable from participants**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the vested balance in the participant's account and bear interest at rates between 4.25% and 9.25% which is based on the local prevailing interest rates at the time of the loan. Principal and interest are paid ratably through payroll deductions.

### Notes to Financial Statements December 31, 2016

#### Vesting

Participants are fully vested immediately in their contributions and safe harbor contributions plus actual earnings thereon. Electorak participants are 100% vested in any matching and non-elective contributions after six years of credited service as follows:

| <u>Years of service</u> | <u>Vested percentage</u> |
|-------------------------|--------------------------|
| Less than 2             | 0%                       |
| 2                       | 20%                      |
| 3                       | 40%                      |
| 4                       | 60%                      |
| 5                       | 80%                      |
| 6 or more               | 100%                     |

Prior to the merger, Lastar participants were fully vested in their matching and profit sharing contributions as of March 17, 2014. Lastar participants who terminated prior to March 17, 2014 were 100% vested in their matching and profit sharing contributions after 3 years of service.

#### Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than \$5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an Individual Retirement Account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from a participant's salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age may withdraw all or a portion of the balance in their account prior to termination for any reason.

Lastar participants whose account balances transferred prior to December 31, 2014 may request an in-service withdrawal due to a disability, in accordance with the provisions specified in the Plan.

#### Revenue credit account

The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2016, the custodian contributed \$10,225 into the revenue credit account. There was no balance in this account at December 31, 2016 and 2015. During 2016, the Company used \$10,225 from the account to pay Plan expenses.

#### Forfeited accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$134,298 and \$122,699, respectively. These accounts will be first used to pay Plan expenses, if applicable, then to reduce future employer contributions. During 2016, no forfeited accounts were used.

**Notes to Financial Statements**  
**December 31, 2016**

**Note 2 - Summary of accounting policies**

**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Investment valuation and income recognition**

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits**

Benefits are recorded when paid.

**Administrative expenses**

Certain expenses to maintain the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or pay directly the fees of a service provider or other expense of administering the Plan.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

**Use of estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Subsequent events**

The Plan has evaluated events and transactions for potential recognition or disclosure through October 5, 2017, the date the financial statements were available to be issued.

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

**Note 3 - Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value ("AUV") of units held by the Plan at year-end. The AUV is based on the value of underlying investments, which are valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing less its liabilities and account charges, plus any applicable dividend income, then divided by the number of units outstanding. The accounts allow for daily redemptions and contributions.

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

#### Note 4 - Fully benefit-responsive investment contracts

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2016 and 2015 was \$3,270,067 and \$2,941,486, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.

## **Legrand Savings Plan**

### **Notes to Financial Statements December 31, 2016**

5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

#### **Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2016, and investment income and interest income on notes receivable from participants for the year ended December 31, 2016, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

#### **Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to \$25,195 for the year ended December 31, 2016. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

#### **Note 7 - Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

#### **Note 8 - Tax status**

The prototype plan document, which the Plan has adopted via a non-standardized adoption agreement, obtained its latest opinion letter dated April 29, 2014 in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in

compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust is tax-exempt.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 9 - Risks and uncertainties**

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Note 10 - Compliance related matter**

During 2016, the Company determined that certain participants of Lastar were erroneously provided an additional Company contribution during the Plan year. The Company is currently in the process of taking the corrective action to reallocate the additional Company contribution from their accounts to the forfeiture accounts and expects to complete the process prior to December 31, 2017.

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

**Note 1 - Description of Plan**

The following description of the Legrand Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan established by Legrand Holdings (the "Company") that covers employees of Lastar, Inc. ("Lastar") and Electrorack Products Company ("Electrorack"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under the Plan, eligible participants are non-union employees with six months of service whose customary employment is for 1,000 hours or more per Plan year. However, any participant who completes 1,000 hours of service in any year following the date of hire shall be eligible to participate in the Plan. Once becoming eligible, participants are given the opportunity to elect or decline participation in the Plan. If a participant fails to make an affirmative election to participate or decline participation in the Plan, the participant will be deemed to have elected to participate in the Plan and authorized a pre-tax salary reduction contribution of 3% of compensation until the participant elects to make a change. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective January 1, 2015, the Lastar, Inc. Retirement Plan merged into the Legrand Savings Plan.

**Contributions**

Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants. The Plan will make safe harbor contributions to all participants of 100% of salary deferrals up to 3% and 50% of salary deferrals between 3% and 5%. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. Participants direct the investment of Company contributions.

**Participant accounts**

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Notes receivable from participants**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the vested balance in the participant's account and bear interest at rates between 4.25% and 9.25% which is based on the local prevailing interest rates at the time of the loan. Principal and interest are paid ratably through payroll deductions.

### Notes to Financial Statements December 31, 2016

#### Vesting

Participants are fully vested immediately in their contributions and safe harbor contributions plus actual earnings thereon. Electorak participants are 100% vested in any matching and non-elective contributions after six years of credited service as follows:

| <u>Years of service</u> | <u>Vested percentage</u> |
|-------------------------|--------------------------|
| Less than 2             | 0%                       |
| 2                       | 20%                      |
| 3                       | 40%                      |
| 4                       | 60%                      |
| 5                       | 80%                      |
| 6 or more               | 100%                     |

Prior to the merger, Lastar participants were fully vested in their matching and profit sharing contributions as of March 17, 2014. Lastar participants who terminated prior to March 17, 2014 were 100% vested in their matching and profit sharing contributions after 3 years of service.

#### Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or systematic installments. Participants with an account balance less than \$5,000 will receive the vested interest in their account as a lump-sum distribution. If an election is not made by the participant, it will be rolled over to an Individual Retirement Account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals from a participant's salary deferral, who are less than 59½ years of age, may be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age may withdraw all or a portion of the balance in their account prior to termination for any reason.

Lastar participants whose account balances transferred prior to December 31, 2014 may request an in-service withdrawal due to a disability, in accordance with the provisions specified in the Plan.

#### Revenue credit account

The Plan has established a revenue credit account to cover Plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2016, the custodian contributed \$10,225 into the revenue credit account. There was no balance in this account at December 31, 2016 and 2015. During 2016, the Company used \$10,225 from the account to pay Plan expenses.

#### Forfeited accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled \$134,298 and \$122,699, respectively. These accounts will be first used to pay Plan expenses, if applicable, then to reduce future employer contributions. During 2016, no forfeited accounts were used.

**December 31, 2016**

**Note 2 - Summary of accounting policies**

**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

**Investment valuation and income recognition**

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits**

Benefits are recorded when paid.

**Administrative expenses**

Certain expenses to maintain the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or pay directly the fees of a service provider or other expense of administering the Plan.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

**Use of estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Subsequent events**

The Plan has evaluated events and transactions for potential recognition or disclosure through October 5, 2017, the date the financial statements were available to be issued.

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

**Note 3 - Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the accumulation unit value ("AUV") of units held by the Plan at year-end. The AUV is based on the value of underlying investments, which are valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing less its liabilities and account charges, plus any applicable dividend income, then divided by the number of units outstanding. The accounts allow for daily redemptions and contributions.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

#### Note 4 - Fully benefit-responsive investment contracts

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The balance in the traditional investment contract as of December 31, 2016 and 2015 was \$3,270,067 and \$2,941,486, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.

## **Legrand Savings Plan**

### **Notes to Financial Statements December 31, 2016**

5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

#### **Note 5 - Certified investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2016, and investment income and interest income on notes receivable from participants for the year ended December 31, 2016, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC"), the custodian, and Prudential Bank & Trust FSB, the trustee, of the Plan.

#### **Note 6 - Related party and party-in-interest transactions**

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amounted to \$25,195 for the year ended December 31, 2016. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

#### **Note 7 - Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

#### **Note 8 - Tax status**

The prototype plan document, which the Plan has adopted via a non-standardized adoption agreement, obtained its latest opinion letter dated April 29, 2014 in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in

**Legrand Savings Plan**  
**Notes to Financial Statements**  
**December 31, 2016**

compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust is tax-exempt.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 9 - Risks and uncertainties**

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Note 10 - Compliance related matter**

During 2016, the Company determined that certain participants of Lastar were erroneously provided an additional Company contribution during the Plan year. The Company is currently in the process of taking the corrective action to reallocate the additional Company contribution from their accounts to the forfeiture accounts and expects to complete the process prior to December 31, 2017.
